

REQUEST FOR PROPOSALS (RFP)

Origin - Destination Data for North Dakota Travel Demand Modeling

December 2016

The Fargo-Moorhead Metropolitan Council of Governments (Metro COG), the Bismarck-Mandan MPO, and the Grand Forks-East Grand Forks MPO, in cooperation with the North Dakota Department of Transportation (NDDOT) (collectively referred to as the Client), request proposals from qualified firms to provide origin-destination data for the three MPO areas in North Dakota. The Client intends that this data will 1.) integrate with Travel Demand Models, 2.) calibrate modeled trip assignment, 3.) verify accuracy of forecasted trip generation within transportation analysis zones (TAZs) under various policy and planning scenarios, and 4.) show travel patterns for further transportation planning or operations analysis.

All applicants meeting the [January 13, 2017](#) deadline for submittal will receive consideration. Selection criteria will follow a qualifications-based review process to analyze proposals from responding firms. It is anticipated that qualified firms will be asked to participate in a telephone interview or online webinar to discuss and, if desired, demonstrate the ability of their product to meet the needs of the Client. Upon completion of technical ranking, telephone interviews and possible discussion with candidate consultants, the Client will enter into negotiations with the top ranked firm.

This project will be funded in part with federal transportation funds and has a **not-to-exceed budget of \$90,000**. The selected firm must be able to provide the data products no later than March 10, 2017. All invoices are to be received by April 1, 2017.

Interested firms can request a full copy of the RFP by telephoning 701.355.1852, or by e-mail: rdrewlow@bismarcknd.gov. Copies will be available for download in .pdf format at www.bismarcknd.gov/mpo.

Fax versions will be not accepted as substitutes for the hard copies. Once submitted, the proposals will become the property of the client.

This document can be made available in alternative formats for persons with disabilities by contact Title VI/ADA Coordinator at 701-355-1332, MPO@bismarcknd.gov, or TTY 711 or 1-800-366-6888.

I. PURPOSE OF REQUEST

The purpose of this Request for Proposals (RFP) is to provide interested consulting firms with information about the professional services desired by NDDOT, the Fargo-Moorhead Metropolitan Council of Governments (Metro COG), the Bismarck-Mandan MPO, and the Grand Forks-East Grand Forks MPO (collectively referred to as the Client). This information is meant to convey the general intent of the Client in regards to the requested services and to further guide interested firms in the preparation and submittal of a proposal.

II. PROJECT BACKGROUND AND OBJECTIVE

This RFP provides for the origin - destination data necessary to assist the Client in the calibration and refinement of Travel Demand Models (TDM) and transportation planning. The TDM is a critical component in the development of the Metropolitan Transportation Plan (MTP). The Client, in an effort to continually develop a more accurate and sophisticated model, wishes to strengthen their TDMs' accuracy through origin - destination data sourced from movement of cell phones or other Bluetooth enabled (i.e. tablet, etc.) devices. The Client intends that this data will integrate directly with each MPO's TDM, provide origin and destination for all locations external to the model infrastructure, provide detailed data for trip distribution calibration, and prove useful for additional planning or operations-analysis activities. The client seeks data provided as a GIS Shapefile as well as analytical OD trip matrices in Microsoft Excel format. Data should reference three separate TAZ regions as delineated by Fargo-Moorhead Metro COG, Bismarck-Mandan MPO, and Grand Forks-East Grand Forks MPO; and additional areas as the Client deems necessary.

The requested origin - destination data must represent one full month of choice within the 2015 calendar year, which is the base year of the TDMs being developed by the Client. While the Client desires to obtain data with minimal development charges and at an economic cost, it reserves the right to select a different month of choice for each data set.

Submitted proposals should demonstrate the completeness and accurateness of the data and provide an explanation of the methodology the firm employs to gather and verify their datasets. Firms are encouraged to provide and/or display sample data to the Client before or during the interview process.

III. DELIVERABLES

The successful firm will demonstrate their ability to deliver the datasets outlined below in a digital format which will be detailed in the submitted proposal and, if necessary, negotiated with the Client in contract negotiations.

There is one main data product required by the Client: statistically valid origin - destination data sourced by movement of cellular or other wireless (i.e. Bluetooth enabled) devices. The datasets must contain information that allows Client staff or Client consultant to easily utilize data to the enhancement of the TDM. The Client requires three separate O-D data sets, one for each MPO. TAZ regions for each MPO include internal TAZs (either TAZs within an MPO's jurisdictional boundary which are established through MPO planning processes OR major

corridors/roadways within an MPO) AND external TAZs (including portions of Canada, and/or Eastern, Southern and Western regions of the United States). Preliminary TAZ counts and OD pairs are outlined in the following Table. The Client understands and anticipates that the number of TAZs requested/received for each data set may alter slightly during contract negotiations.

Table 1: Preliminary TAZ Request

Data Set	Internal TAZ	External TAZ	Approximate TAZs Requested	Approximate OD Pairs Requested (per Data Set)
FM COG	105	25	130	16900
GF/EGF MPO	65	25	90	8100
BMMPO	55	20	75	5625

The Client prefers that the three data sets be delivered in a shapefile or geodatabase format, which would lessen the burden of Client staff to geocode the tabular records. If the preferred method is unavailable, Client may consider datasets in a tabular format with information included that will allow staff to easily geocode the information. If the location information is in latitude/longitude coordinates, the vendor must include the original geographic coordinate system used to geocode the business and household records. This tabular format is the minimum acceptable standard.

The data could provide or be used for the following:

1. Provide Origin – Destinations for Internal-Internal Locations
 - Home, work and other locations
2. Show External Trip Data
 - Internal and external (all External-External and External-Internal Trips)
3. Divided into Trip Types
 - At minimum: Home-Based Work, Home-Based Other, Non-Home Based
 - Truck vs. Car
4. Peak and Off-Peak Travel Percentages for Different Trip Purposes
 - To be used for AM, PM and Off-Peak model calibration
5. Purposes Other than TDM Development/Transportation planning
 - Determine visitors' state(s) of origin
 - Develop a baseline for future 'before and after' studies (i.e. adding a new bridge crossing)
 - Determining possible areas for expanded MPO boundaries (in future)
 - Additional Planning and/or Operations activities (i.e. Congestion management of local events, football games, etc.)

Special Note: The Client intends to share the data with a third party; specifically a State University who is contracted to develop their TDMs. The Client also reserves the right to share data with contracted third parties, as needed, to develop publicly-available work products. The Client is willing to guard proprietary information to the degree permitted under Century Code

44-04-18.4, Sections 2.a, 2.c.7, and 2.c.8. However, it is preferential that Vendor supply data free of restrictions for use or dissemination.

V. EVALUATION AND SELECTION PROCESS

Selection Committee: The Client has established a selection committee to review the proposals and evaluate potential vendors. The committee consists of officials from NDDOT, Metro COG, Bismarck-Mandan MPO, Grand Forks-East Grand Forks MPO, and Advanced Traffic Analysis Center (the MPOs' contracted modeler).

Selection Criteria: The selection process will be administered under the following criteria.

- 25% - The ability of the vendor to supply data which adheres to specifications outlined in the RFP;
- 25% - The ability of the vendor to demonstrate the datasets are complete, accurate, and representative of the conditions of the region in 2015;
- 25% - The vendor demonstrates a thorough quality control process, and the methodology employs to obtain data is sound;
- 20% - The vendor's ability to provide the data in a GIS shapefile and/or GIS compatible (i.e. Excel) format for allocation to TAZs and further analysis;
- 5% - The vendor includes additional dataset attributes of interest to the Client.

Selection Process: The selection committee will entertain telephone and/or online webinar presentations for the top candidates to provide additional input and help guide the evaluation process. The presentations may be followed by a question and answer period during which the committee may ask the prospective vendors additional questions on their data products.

A consultant will be selected on or before January 27 based on an evaluation of the proposals submitted, phone or web-based interview, the recommendation of the Selection Committee and the approval of all MPO Policy Boards (received prior to interviews at approval of the RFP).

The Client reserve the right to reject any or all proposals or to waive minor irregularities in said proposal, and reserves the right to negotiate minor deviations to the proposal with the successful vendor. The Client reserves the right to award a contract to the firm that presents the proposal, which, in the sole judgment of the Client, best accomplishes the desired results.

The RFP does not commit the Client to award a contract, to pay any costs incurred in the preparation of the contract in response to this request or to procure or contract for services or supplies. The Client reserves the right to withdraw this RFP at any time without prior notice.

All proposals, whether selected or rejected, shall become the property of NDDOT.

Termination for Convenience (General Provision) the recipient may terminate this contract, in whole or in part, at any time by written notice to contractor when it is in the recipient's best interest. Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient. If contractor is in possession of any of the recipient's property, contractor shall account for same, and dispose of it as the recipient directs.

b. Termination for Default [Breach or Cause] (General Provision) If contractor does not deliver items in accordance with the contract delivery schedule, or, if the contract is for services, and contractor fails to perform in the manner called for in the contract, or if contractor fails to comply with any other provisions of the contract, the recipient may terminate this contract for default. Termination shall be effected by serving a notice of termination to contractor setting forth the manner in which contractor is in default. Contractor shall only be paid the contract price for supplies delivered and accepted, or for services performed in accordance with the manner of performance set forth in the contract. If it is later determined by the recipient that contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of contractor, the recipient, after setting up a new delivery or performance schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision) the recipient in its sole discretion may, in the case of a termination for breach or default, allow contractor an appropriately short period of time in which to cure the defect. In such case, the notice of termination shall state the time period in which cure is permitted and other appropriate conditions. If contractor fails to remedy to the recipient's satisfaction the breach or default or any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by contractor or written notice from the recipient setting forth the nature of said breach or default, the recipient shall have the right to terminate the Contract without any further obligation to contractor. Any such termination for default shall not in any way operate to preclude the recipient from also pursuing all available remedies against contractor and its sureties for said breach or default.

d. Waiver of Remedies for any Breach In the event that the recipient elects to waive its remedies for any breach by

contractor of any covenant, term or condition of this Contract, such waiver by the recipient shall not limit its remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

e. Termination for Convenience (Professional or Transit Service Contracts) the recipient, by written notice, may terminate this contract, in whole or in part, when it is in the recipient's interest. If the contract is terminated, the recipient shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

f. Termination for Default (Supplies and Service) If contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension or if the contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature of default. Contractor shall only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract.

If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

g. Termination for Default (Transportation Services) If contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. Contractor shall only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract.

If this contract is terminated while contractor has possession of the recipient goods, contractor shall, as directed by the recipient, protect and preserve the goods until surrendered to the recipient or its agent. Contractor and the recipient shall agree on payment for the preservation and protection of goods. Failure to agree on an amount shall be resolved under the Dispute clause. If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

h. Termination for Default (Construction) If contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified, or any extension, or fails to complete the work within this time, or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. the recipient shall terminate by delivering to contractor a notice of termination specifying the nature of default. In this event, the recipient may take over the work and complete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. Contractor and its sureties shall be liable for any damage to the recipient resulting from contractor's refusal or failure to complete the work within specified time, whether or not contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the recipient in completing the work.

Contractor's right to proceed shall not be terminated nor shall contractor be charged with damages under this clause if:

1. Delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of contractor. Examples of such causes include: acts of God, acts of the recipient, acts of another contractor in the performance of a contract with the recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and

2. Contractor, within 10 days from the beginning of any delay, notifies the recipient in writing of the causes of delay. If in the recipient's judgment, delay is excusable, the time for completing the work shall be extended. The recipient's judgment shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

If, after termination of contractor's right to proceed, it is determined that contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if termination had been issued for the recipient's convenience.

i. Termination for Convenience or Default (Architect & Engineering) the recipient may terminate this contract in whole or in part, for the recipient's convenience or because of contractor's failure to fulfill contract obligations. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature, extent, and effective date of termination. Upon receipt of the notice, contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the recipient all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process. If termination is for the recipient's convenience, it shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If termination is for contractor's failure to fulfill contract obligations, the recipient may complete the work by contract or otherwise and contractor shall be liable for any additional cost incurred by the recipient.

If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

j. Termination for Convenience or Default (Cost-Type Contracts) the recipient may terminate this contract, or any portion of it, by serving a notice of termination on contractor. The notice shall state whether termination is for convenience of the recipient or for default of contractor. If termination is for default, the notice shall state the manner in which contractor has failed to perform the requirements of the contract. Contractor shall account for any property in its possession paid for from funds received from the recipient, or property supplied to contractor by the recipient. If termination is for default, the recipient may fix the fee, if the contract provides for a fee, to be paid to contractor in proportion to the value, if any, of work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient and the parties shall negotiate the termination settlement to be paid to contractor. If termination is for the recipient's convenience, contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a notice of termination for default, the recipient determines that contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of contractor, the recipient, after setting up a new work schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.
