

April 14, 2020

Board of City Commissioners
Bismarck, ND

Dear Commissioners:

The Board of City Commissioners is scheduled to meet in regular session on Tuesday, April 14, 2020 at 5:15 p.m. in the Tom Baker Meeting Room, City/County Office Building, 221 North Fifth Street, Bismarck, North Dakota.

Invocation and the Pledge of Allegiance presented by a Chaplain from the Bismarck Police Department.

Watch live meeting coverage on Government Access Channels 2 & 602HD, Listen to Radio Access 102.5 FM Radio, or stream FreeTV.org and RadioAccess.org. Agenda items can be found online at www.bismarcknd.gov/agendacenter.

Due to ongoing public health concerns related to COVID-19, the City of Bismarck is encouraging citizens to provide their comments for consent agenda, and regular agenda items on the Bismarck City Commission agenda via email to bismarckadmin@bismarcknd.gov.

Please include the agenda item number your comment references. The comments will be sent to the Commissioners, as well as placed with the minutes. To ensure your comments are received prior to the meeting, please submit them by 3:30 p.m. on the day of the meeting and reference the agenda item your comment addresses. For more information visit: <https://bismarcknd.gov/CivicAlerts.aspx?AID=6615>

Future City Commission meetings are scheduled as follows:

- April 28, 2020
- May 12 & 28, 2020
- June 9 & 23, 2020

MISSION STATEMENT

To provide high-quality public service in partnership with our community to enhance our quality of life.

MEETING WITH THE BOARD OF EQUALIZATION

1. Call to Order
2. Director's Report - Dmitriy Chernyak, Finance Director
 - a. Presentation of the 2020 Annual Report
3. Adjourn

Documents:

[FIN - 2020 Annual Report for BOE.pdf](#)
[2020 Parcel Number Appeal List.pdf](#)
[Bohrer Letter - BOE.pdf](#)

MEETING OF THE BOARD OF CITY COMMISSION

1. Proclamation recognizing the week of April 12 - April 18, 2020 as National Public Safety Telecommunications Week.

Documents:

[National Public Safety Telecommunications Week.pdf](#)

2. Public comment (restricted to items on the Consent Agenda and Regular Agenda, excluding public hearing items).
3. Consider the approval of the minutes.

Documents:

[MN032420.pdf](#)
[SM031720.pdf](#)
[SM031820.pdf](#)
[SM032020.pdf](#)
[SM032820.pdf](#)

4. CONSENT AGENDA

- A. Consider approval of expenditures.
- B. Consider approval of personnel actions.

Documents:

[\(C\) HR Personnel Report.pdf](#)

C. Consider the request for the approval from the Administration Department for the following:

1. Appoint Kollie Flomo and Annette Martel to the Bismarck Human Relations Committee.
2. Introduction of and call for a public hearing on a new Class I-2 Restaurant Beer and Wine Only Liquor License for JET Enterprises, Inc., Amici Pizza Company, located at 3001 Yorktown Dr.

Assessing Division

April 7, 2020

Honorable Board of City Commissioners:

The City of Bismarck (the City) Assessing Division 2020 Annual Report is a summary of the 2020 assessment roll and a review of the 2019 real estate value and appraisal activity of the City. The market value of taxable real property, property sales, new construction, and annexations all combine to provide a tax base for the City's 2020 property tax to be collected in 2021. Any changes in value that the City, Burleigh County, or State of North Dakota Boards of Equalization may make will be reflected in the final assessment.

The 2020 total market value assessment is \$8,607,847,400. This is an increase of \$224,765,900, or 2.68%, from the 2019 assessment roll total. Of this increase, new construction contributed \$124,912,100; market value contributed \$94,181,400; and the remaining balance is attributed to additional changes in assessment. We performed an extensive review to accurately reflect the City's market and to comply with the North Dakota Century Code and Office of State Tax Commissioner guidelines. The overall market value in the existing property showed an increase of 1.42% in residential property and an increase of 0.64% in commercial property.

Procedures of assessment and appraisal are conducted under guidance from the North Dakota Tax Commissioner's Office, the North Dakota Century Code, and nationally recognized standards of mass appraisal of real property.

Respectfully Submitted,

A handwritten signature in blue ink that reads "Allison Jensen". The signature is written in a cursive, flowing style.

Allison Jensen
City Assessor

THE CITY OF BISMARCK ASSESSING DIVISION

The City of Bismarck's (the City) Assessing Division is committed to development and use of processes that support integrated data management, providing the City with the most current and accurate source of property information.

Throughout the year, City staff are processing property transfers and analyzing property sales to ensure market value is established. Physical inspections are made for those sales along with building permits and reappraisal areas to verify data accuracy when setting values.

It is the goal for the City's Assessing Division to continue to meet the guidelines set forth by the State of North Dakota to have all property properly and professionally assessed.

Assessing Division Personnel:

Karla Mittleider, Office Assistant II

Becky Fairbanks, Real Property Tech

Dawn Wetzstein, Real Property Tech

Casey Patzner, Real Property Appraiser

Justine Thompson, Real Property Appraiser

Tracy DeForest, Real Property Appraiser

Brenda Johnson, Senior Real Property Appraiser

Ross Dettmann, Senior Real Property Appraiser

Allison Jensen, City Assessor

MARKET VALUATION COMPARISON

Market Values	2019 ¹	2020	\$ Change	% Change
Commercial Land	\$ 805,207,700	\$ 832,233,700	\$ 27,026,000

The above list highlights major commercial construction projects that were started in 2018 but completed in 2019. The values listed above for these projects reflect only the portion of the project that is added in the 2020 assessment roll.

STATISTICAL ANALYSIS OF THE 2019 SALES RATIO

The following information is a summary of the report and a statistical analysis of the 2019 Assessment Ratio study for the City of Bismarck (the City). The report is based on 2019 qualified sales, of which 894 are residential and 31 are commercial.

The performance tests completed to compare assessments to market value are the following measures of central tendency¹:

Median: The median is the middle ratio when the ratios are arrayed in order of magnitude. If there is an even number of ratios, the median is the average of the middle two ratios. The median is less affected by extreme ratios than other measures of central tendency, because of this it is generally the preferred measure. This is used by the State Board of Equalization when equalizing residential and commercial property assessments.

Arithmetic Mean (aka mean or average): The mean is the average of the ratios. It is calculated by summing the ratios and dividing by the total number of ratios. The mean is affected more by extreme ratios than the median.

Weighted Mean: The weighted mean is the value-weighted average of the ratios in which the weights are proportional to the sales prices. Derived by dividing the total assessed values by the total sale prices of the properties.

Price Related Differential (PRD): A measure of uniformity between high and low value properties. Derived by the arithmetic mean ratio by the weighted mean ratio. If the PRD is 1.00, there is no bias in the assessments of high-value properties in comparison to those of low-value properties. If the PRD is greater than 1.03, then low-value properties pay a greater amount of tax in relation to value than the owner of a high-value property, indicating assessment regressivity. If the PRD is lower than 0.98, the opposite is true, indicating assessment progressivity.

¹ International Association of Assessing Officers, 314 W 10 St., Kansas City, MO 64105-1616, Section 5.3, Page 13, and Definitions Page 42, Standard on Ratio Studies-2013.

STATISTICAL ANALYSIS OF THE 2019 SALES RATIO (CONTINUED)

	2019 Measurements		Recommended Tolerance
	Residential	Commercial	
Median Ratio	0.9544	0.9329	0.90 to 1.00
Price Related Differential (PRD)	1.0100	1.0500	0.98 to 1.03
Coefficient of Dispersion (COD)	1.0594	1.0718	1.20 or Less

Per the guidelines and performance measures as set forth by the State of North Dakota Tax Commissioner’s Office, the level of assessment should be near 100% using the median; however, the State Board of Equalization has traditionally allowed a 10% tolerance below 100%. The PRD should be between 0.98 and 1.03 to avoid bias in the assessments of high-value properties in comparison to low-value properties. A COD between 1.00 and 1.20 shows the quality of the assessments is acceptable. Dispersions over 1.20 would indicate the assessments are not uniform and, therefore, need investigation.

The 2019 median was calculated after 2018 market values were updated. Updates to market values were applied in compliance with North Dakota State guidelines and professional practices to reflect market conditions. The 2019 measurements as set forth by the State of North Dakota guidelines and professional practices indicate that the City is within guidelines for measures of central tendency. The measures of relationships between the ratios of high-valued properties and low-valued properties indicate that residential properties are within the recommended tolerance, however, the commercial PRD measurement of 1.05 indicates that lower value properties were valued closer to 100% of the market than the higher valued properties.

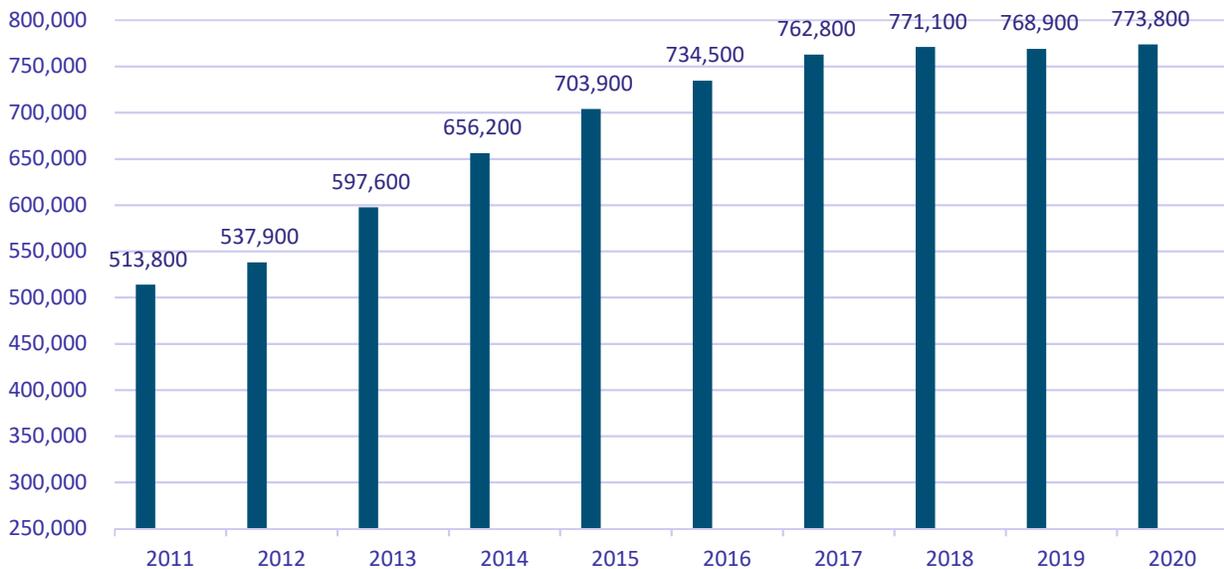

HISTORICAL GRAPHS

EFFECTIVE TAX RATE FOR COMMERCIAL PROPERTY

Effective Tax Rate (ETR) is the ratio between the property value and the current real estate taxes. This represents how much tax is paid per \$1,000 of market value (i.e. for 2019 the commercial ETR equals a \$11.83 tax per \$1,000 of market value). This includes the 12% the State of North Dakota paid reduction for 2013, 2014, 2015, and 2016.

COMMERCIAL MARKET VALUE CHANGES

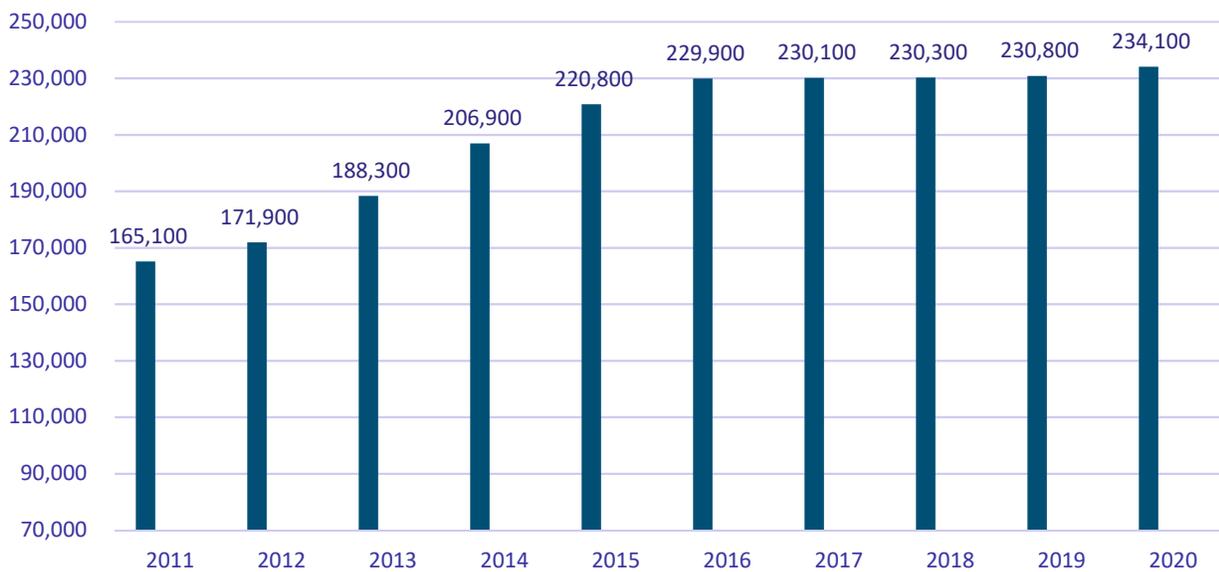

The Commercial Market Value Changes Graph represents the changes in market value from 2011 to 2020 of a property currently valued at \$773,800.

EFFECTIVE TAX RATE FOR RESIDENTIAL PROPERTY

Effective Tax Rate (ETR) is the ratio between the property value and the current real estate taxes. This represents how much tax is paid per \$1,000 of market value (i.e. for 2019 the RESIDENTIAL ETR equals a \$10.65 tax per \$1,000 of market value). This includes the 12% the State of North Dakota paid reduction for 2013, 2014, 2015, and 2016.

RESIDENTIAL MARKET VALUE CHANGES

The Residential Market Value Graph represents the changes in market value from 2011 to 2020 of a property currently valued at \$234,100.

ASSESSING STATISTICAL INFORMATION

Facts concerning single family properties, not including condominiums, townhomes, duplexes, or triplexes, in the City are as follows:

- ❖ Assessor records indicate the average sale price of single family residences was \$304,614 in 2019 on 879 sales, an increase from \$265,000 on 827 sales in 2018 or about an 14.9% increase in the average selling price as compared to the prior year.
- ❖ Multiple Listing Service reported that 695 single family homes sold through a realty company.
- ❖ Multiple Listing Service records indicated, as of April 1, 2020:
 - 13 homes listed for sale under \$150,000
 - 93 listings between \$150,001 and \$315,000
 - 93 homes listed for sale between \$315,001 and \$485,000
 - 31 listings between \$485,001 and \$700,000
 - 6 listings between \$700,001 and \$999,999
 - 1 listing over \$1,000,000.
- ❖ Multiple Listing Service records indicate a median sale price for single family homes that were listed with MLS in Bismarck was \$274,000 for 2019, which is an increase from \$260,000 for 2018.
- ❖ The average number of days on the market for a home listed by Multiple Listing Service was 67 days in 2019, which was lower than the 69 days listed last year.
- ❖ The highest residential sale price on record for 2019 was \$1,225,000 as compared to \$1,204,000 in 2018.
- ❖ The median assessment of single family residences is \$250,600 in 2020 as compared to \$242,800 in 2019.
- ❖ 882 homes valued greater than \$500,000 for 2020 and 58 of those homes valued greater than \$1,000,000. In 2019, 811 homes valued greater than \$500,000 with 43 of those homes being valued greater than \$1,000,000.

April 13, 2020

Bismarck Assessing Division
PO Box 5503
Bismarck, ND 58506-5503

To Whom It May Concern:

Richard and Lisa Bohrer disagree and appeal the 2020 "Current Assessment" of \$ 999,000 placed on Parcel Number 2040-001-020. The assessed value compared to all the other properties on the street with the same lot values does not make any sense. The cost per square foot is the most expensive on the street and does not compare to the other houses in the neighborhood. I am an Architect and well aware of the materials and construction costs for this neighborhood as I have designed and overseen construction of three of the houses in the neighborhood and I am also on the review board for approval of design for the association for this development.

I have been involved in this development since its inception from a single residential lot to its current overall development including planning and writing of the covenants for the property.

I have attached a cost comparison of all the houses on the street with the lot values being equal as they have been in past and current assessments. I would also like to further point out that the covenants for all the property in this development require the materials for the houses to be the same. They are required to have fiber cement siding and stone for the exterior materials and all the homes in the development have similar interior finishes. Your assessed values for the cost of construction wildly range from \$ 110.10 per square foot to \$ 161.77 per square foot with no explanation or justification for the differences.

On April 13th I spoke with both Justine Thompson and Allison Jensen with the City Assessors office. They tried to explain that the value of my house was predicated on the fact that I have two round windows on my house and "custom roof lines" meaning "more hips" than my neighbor's homes, somehow justifies the increased costs. When asked, they could not explain what the additional cost for these items were or how they came up with the value. I have since asked for a detailed cost and reasons for the wild range of costs for seven houses in the same neighborhood with similar finishes and they have not provided anything. They have also indicated that they do not assess a value to the basement square footage of a house, just the main level. As a result, I have further broken down the cost per square foot in the comparison attached for that scenario also. They will say that "the value of the land itself has drastically increased as a result of putting a house on it". In the scenario attached the cost per square foot is equal so it would result in a similar cost comparison with an increase in land values. They have also given me the excuse that it is "based on the year the house was built", this also does not hold water as the first house built on the development currently has the highest values per square foot until my house was assessed this year.

We would propose that the value of the cost of construction be equal to the most current house built and happens to be the adjoining lot to the north of ours. That house is valued at \$ 140.35 per square

foot as you can see in the attached comparison. Assuming this cost per square foot, our residence would be valued at \$ 792,978.00 plus the value of the land of \$ 85,000.00 for a total of \$ 877,978.00 not \$ 999,000.00. A difference of 121,023.00.

Sincerely

A handwritten signature in black ink, appearing to read "Richard Bohrer". The signature is fluid and cursive, with the first name "Richard" and last name "Bohrer" clearly distinguishable.

Richard Bohrer

PROCLAMATION

WHEREAS, emergencies can occur at any time that require law enforcement, fire, or emergency medical services; and

WHEREAS, when an emergency occurs, the prompt response of law enforcement officers, firefighters, and emergency medical personnel is critical to the protection of life and preservation of property; and

WHEREAS, the safety of our law enforcement officers, firefighters, and emergency medical personnel is dependent upon the quality and accuracy of information obtained from citizens who call the Central Dakota Communications Center; and

WHEREAS, Public Safety Communications Specialists are the first, first responders, delivering essential prearrival instructions, and providing the most critical link that our citizens have with emergency services; and

WHEREAS, Public Safety Communications Specialists are the single vital link for our law enforcement officers, firefighters, and emergency medical personnel by monitoring their activities by radio, providing them information and ensuring their safety; and

WHEREAS, Public Safety Communications Specialists of the Central Dakota Communications Center have contributed substantially to the apprehension of criminals, suppression of fires, and treatment of patients; and

WHEREAS, each Communications Specialist has exhibited compassion, understanding and professionalism during the performance of their duties in the past year; and

WHEREAS, the Central Dakota Communications Center Board of Directors has declared April 12th – 18th, 2020 as National Public Safety Telecommunications to honor the men and women of the Central Dakota Communications Center who dedicate themselves to helping keep our communities and our citizens safe;

THEREFORE, BE IT RESOLVED, that I, Steve Bakken, Mayor of the City of Bismarck, on behalf of this Commission, do hereby joins the Central Dakota Communications Center Board of Directors and declares April 12th – 18th, 2020 as **NATIONAL PUBLIC SAFETY TELECOMMUNICATIONS WEEK** in the City of Bismarck.

Signed this 14th day of April 2020.

Steve Bakken, Mayor
Bismarck Board of City Commissioners

3/24/2020 - Minutes

MEETING OF THE BOARD OF CITY COMMISSION

1. Proclamation recognizing April as Fair Housing Month.
Mayor Bakken signed the proclamation and declared April as Fair Housing Month in the City of Bismarck.
2. Main Street Initiative Proclamation
Mayor Bakken signed the proclamation and declared that the City of Bismarck shall join the Governor's Main Street ND initiative and be known as a Main Street ND Community.
3. Public comment (restricted to items on the Consent Agenda and Regular Agenda, excluding public hearing items).
No member of the public appeared for comment.
4. Consider approval of minutes.
Commissioner Oban moved to approve the minutes of the March 10, 2020 Regular Commission meeting. Commissioner Zenker seconded the motion. Upon a roll call vote, all voted aye. M/C
5. CONSENT AGENDA
Commissioner Marquardt moved to approve the consent agenda. Commissioner Zenker seconded the motion. Upon a roll call vote, all voted aye. M/C
 - A. Consider approval of expenditures.
Vouchers: 1092196-1092426.
 - B. Consider approval of personnel actions.
 - C. Consider the request for approval from the Community Development Department for the following:
 1. Apple Meadows Third Subdivision request for continuation of public hearing.
 2. Re-appointment of Beth Nodland and Blake Dinkins to the City of Bismarck Historic Preservation Commission.
 3. Re-appointment of Brian Peterson to the City of Bismarck Parking Authority.
 4. Re-appointment of Wendy Van Duyne and Appointment of John Van Dyke to the City of Bismarck Planning and Zoning Commission.
 - D. Consider the request for approval from the Engineering Department for the following:
 1. Amended consultant agreement with Terracon Consultants, Inc (Terracon) relating to Geotechnical Services associated with River Road slope stability.
 2. Acceptance of the award of North Dakota Department of Transportation (NDDOT) Urban Grant Program funding for a 2022 Downtown Street Improvement Project Phase 2.

3. Water Main Easement at 1819 Michigan Avenue from Robert and Denise Schuh of RDS Properties, LLC.
4. Revised project budget on Sewer Improvement District 563.

12. Public hearing on Ordinance 6415, regarding Written Report of Accident.

No members of the public appeared for comment.

Commissioner Oban moved to approve the request as presented. Commissioner Guy seconded the motion. Upon a roll call vote, all voted aye. M/C

13. Public hearing on Ordinance 6411, a request for the annexation of parts of Blocks 1-6, Silver Ranch First Addition First Replat, requested by Investcore Inc.

Ben Ehreth, Community Development Director, presented a notation of the ordinance number change from 6411 to 6416.

No members of the public appeared for comment.

Commissioner Marquardt moved to approve the request as presented. Commissioner Zenker seconded the motion. Upon a roll call vote, all voted aye. M/C

14. Consider the request from the Community Development Department regarding the Hay Creek Substation Addition:

Ben Ehreth, Community Development Director, presented the request to the commission.

No members of the public appeared for comment.

Commissioner Zenker moved to approve the request as presented. Commissioner Marquardt seconded the motion. Upon a roll call vote, all voted aye. M/C

15. Consider the request from the Community Development Department regarding the request of Bis-Man Transit for consideration of the FY2020 5307 Transit Operations Grant application.

Ben Ehreth, Community Development Director, presented the request to the commission.

Commissioner Guy moved to approve the request as presented. Commissioner Zenker seconded the motion. Upon a roll call vote, all voted aye. M/C

16. Ratify the March 15, 2020, state of emergency declaration relating to COVID-19 by the President of City Commission and extend its effect to April 14, 2020.
Commissioner Marquardt moved to approve the request to ratify the Mayor's state of emergency and extend it to April 14, 2020 as presented. Commissioner Oban seconded the motion. Upon a roll call vote, all voted aye. M/C

Other Business

The next regular commission meeting is April 14, 2020.

Adjourn

Meeting adjourned at 6:30 p.m.

MEETING OF THE BOARD OF CITY COMMISSIONERS

March 17, 2020

On March 17, 2020 at 5:30PM the Board of City Commissioners met via telephone, with Commissioner Marquardt present in the Mayor's Conference Room of the City/County Office Building, located at 221 North 5th Street. The purpose of the special meeting was to discuss impacts to the organization relating to the COVID-19 pandemic.

Those present included: Mayor Bakken (telephone), Commissioner Marquardt, Commissioner Zenker (telephone), Commissioner Guy (telephone), and Commissioner Oban (telephone).

Renae Moch provided an update to the Commission on the activities occurring within Bismarck-Burleigh Public Health (BBPH) beginning with March 13, 2020. Activities include the Department of Operations Center located at the BBPH building, daily briefings with staff and the North Dakota Department of Health officials, and communication efforts to share with local media and the community.

Robert McConnell provided an update on guidelines for City of Bismarck employees. The guidelines include information on personal hygiene, travel guidance, and links to the CDC website and the North Dakota Department of Health website.

Discussion was held regarding part-time employees within the organization and what factors will be evaluated to determine if these employees will be paid during interruptions in their regular work routines. Keith Hunke indicated it is too early to determine the outcome and it will need to be adjusted in the future. Mr. Hunke noted there are too many variables to determine when this issue will be addressed again; he added that information changes daily, as more is learned about the impacts of the COVID-19 virus.

Commissioner Guy questioned what will happen to employees who become ill and if the city can allow for a negative leave balance. Janelle Combs, City Attorney, informed everyone that the City can allow for a negative leave balance, but overtime is not allowed to recoup the leave. Attorney Combs noted there is a need for guidance on how far to allow the leave balance to be below zero. Commissioner Guy directed staff to provide information on what other cities are doing and options to consider at the March 24th regular meeting.

An update was provided by Keith Hunke on how upcoming meetings will be handled. All advisory board meetings have been postponed at this time. There will only be 10 people allowed in meetings at this time, staff will be asked to help with the flow of meetings.

Department directors have been advised to attend City Commission Meetings if their department has an item on the regular agenda. In addition, for those with items on the consent agenda, they are to contact the Commissioner holding the portfolio prior to the meeting to address any questions relating to those items. Janelle Combs informed the Commission that the North Dakota League of Cities is working to coordinate with larger cities to determine guidance for public meetings. The public cannot be stopped from attending these meetings.

Commissioner Oban inquired in City Commission meetings can be cancelled. He noted, it might send a wrong message to the [public by meeting. Janelle Combs informed the Commission that meetings can be cancelled and meetings can be held to address priority business. Commissioner Oban thinks it would be logical to cancel the March 24, 2020 meeting. It would allow for a pause until the meeting on April 14, 2020. Attorney Combs noted these are public hearings salted for the March 24, meeting which will need to be held.

With no other business the meeting adjourned at 6:55 p.m.

MEETING OF THE BOARD OF CITY COMMISSIONERS

March 18, 2020

On March 18, 2020 at 5:30 p.m. the Board of City Commissioners met via telephone, with Mayor Bakken present in the Mayor's Conference Room of the City/County Office Building, located at 221 N. 5th St. The purpose of the special meeting was to discuss impacts on the organization relating to the COVID-19 pandemic.

Those present included: Mayor Bakken, Commissioner Marquardt (telephone), Commissioner Zenker (telephone), Commissioner Guy (telephone) and Commissioner Oban (telephone).

Renae Moch updated the Commission on what is happening with the COVID-19 pandemic. Burleigh County had its first positive test on March, 17, 2020. There were two other positive tests on the same day. Morton County had two positive tests confirmed on March 18, 2020. The North Dakota Department of Health (NDDOH) is doing contact tracing work to help identify others that may be at risk of being infected with COVID-19. Bismarck-Burleigh Public Health (BBPH) is helping to support this effort. Staff will get a daily briefing from the NDDOH. Department of Operations Center through BBPH is working with the Assistant City Administrator, Jason Tomanek and Emergency Manager Gary Stockert to support messaging and operations.

Ms. Moch has been in contact with Sanford to share information and to be on the same page. She will also be reaching out to other medical providers in the community. The Board of City Commissioners will receive daily briefing from Moch. The briefing will typically take place at the end of the business day. The briefing will come after Governor Burgum's briefing at 4 p.m.

City Attorney Jannelle Combs informed the Board of City Commissioners about locking the City of Bismarck's buildings with screening for visitors coming in for business. The screening will be on a building-to-building basis. The Veterans Memorial Public Library closed Monday. A unique screening protocol will need to be developed for each building's needs.

A motion was made by Commissioner Marquardt and seconded by Commissioner Guy to approve locking the City buildings to the general public, but allowing the public to enter after screening. Upon a roll call vote, all voted aye, M/C.

The City Attorney noted that there is a need for staff to have the ability to make decisions and develop protocols, including working remotely from home to help limit the potential number of employees from becoming infected.

Attorney Combs briefed the commissioners on the task to each department director to develop plans for operations as follows:

1. Non-essential to COVID-19 operation employees to work from home.
2. Secondment of non-essential to COVID-19 operation employees to essential divisions.
3. Modify workflows and levels of service (calls going to voicemail, extending deadlines) based on staffing needs as well as prioritizing COVID-19 needs.

A motion was made by Commissioner Oban and seconded by Commissioner Zenker to give temporary authority to staff with the understanding that the portfolio holder will be notified when decisions are made and if the portfolio holder is not available, the mayor, and then the vice mayor, in that order. Upon a roll call vote, all voted aye, M/C.

The meeting was adjourned at 6:25 p.m.

MEETING OF THE BOARD OF CITY COMMISSIONERS

March 20, 2020

On March 20, 2020 at 3:30 p.m. the Board of City Commissioners met via telephone, with Mayor Bakken present in the Mayor's Conference Room of the City/County Office Building, located at 221 N. 5th St. The purpose of the special meeting was to discuss the closing of the City of Bismarck offices.

Those present included: Commissioner Marquardt (telephone), Commissioner Zenker (telephone), Commissioner Guy (telephone) and Commissioner Oban (telephone).

Commissioner Zenker expressed his concerns about building inspectors not working and inspection services being compromised.

City Attorney Jannelle Combs provided the Commission with Bismarck-Burleigh Public Health (BBPH) requirements for anyone experiencing symptoms of the virus. The person will need to be isolated for seven days along with anyone else living in the household. After the ill person has recovered, everyone in the home will need to be quarantined for 14 days. She stated with these new guidelines, City staff could experience issues.

City Administrator Keith Hunke stated they were looking at possibly closing all City offices for one week, March 20-27, 2020. He stated they planned to reevaluate the situation on March 26, 2020.

Commissioner Guy asked if they planned on stopping government services during the proposed time.

Administrator Hunke identified the essential services that would not stop during the closure. These departments included: Fire, police, the Central Dakota Communications Center (CenCom) and all sections of Public Works. Administrator Hunke stated there would not be a total halt of work, and that some employees will be sent home, some will work from home and some will be reassigned to other job duties.

Attorney Combs stated this plan would affect everyone working for the City and any employee could be asked to perform essential services outside of

their daily tasks. She stated that these suggestions are based on the guidelines set by the CDC to limit contamination.

Commissioner Marquardt made a motion to move forward with the recommendations provided by the Administration Department to close all City offices for one week to determine COVID-19 tasks and to re-evaluate the situation on March 26, 2020.

Commissioner Oban seconded the motion and requested there be more clarity on what staff is doing at the next commission meeting on March 24, 2020. Upon a roll call vote, Commissioner Marquardt, Guy, Oban and President Bakken, aye, Commissioner Zenker, nay.

Administrator Hunke advised the Commission that special meetings would take place in the future if needed.

With no other business, the meeting was adjourned at 6:27 p.m.

MEETING OF THE BOARD OF CITY COMMISSIONERS

March 28, 2020

On 3/28/20 at 11:00 a.m., the Board of City Commissioners met in the Mayor's Conference room, located at 221 N. 5th St. in Bismarck, N.D. This special meeting was held to participate in a conference call with Governor Burgum and members of the ND League of Cities regarding COVID 19 updates.

Those present included: Mayor Bakken and City Administrator Keith Hunke. Commissioner Marquardt, Commissioner Zenker, and Commissioner Guy participated via telephone. Commissioner Oban did not participate.

Governor Burgum provided introductory remarks including updated numbers regarding COVID 19 testing results, importance of social/personal distancing, and then opened the call for questions.

Questions included: request to consider relaxing some open meeting requirements in particularly that a physical location is necessary for a public meeting; request to suspend rental housing evictions; request for location information for persons testing positive to the COVID 19 virus; request for assistance for housing for homeless who are exposed/test positive to the COVID 19 virus and require isolation and/or quarantine. There was also discussion regarding the importance of keeping public transportation services running so persons could get to grocery store, pharmacy, and health care service appointments.

The conference call ended at 12:03pm.

Why do you wish to serve on the Bismarck Human Relations Committee?

I wish to serve on the Bismarck Human Relations Committee to help in executing the mandates of this committee and as well utilizing my skills and experience that will help in serving our wonderful citizens of Bismarck.

Please tell us about yourself.

I'm passionate about Human Relations and cultural integration for the purpose of social functionalism.
I pay key interest in constructing a holistic environment where everyone feels a part of their community and are treated with equality and fairness.

The Bismarck Human Relations Committee meets the third Monday of each month and each member is expected to attend. Committee members are also encouraged to participate in community events. *

By checking this box you agree to meet the attendance expectations.

Why do you wish to serve on the Bismarck Human Relations Committee?

I want to be the change I wish to see in the world. Bismarck has changed a great deal in the 15 years since I moved here and it will likely continue to change. A strong and caring community is important to me and I believe that there is always more work to be done in the area of human relations. Diversity is such an all-encompassing word and I believe that diversity should be acknowledged and celebrated in all of its forms. I am lucky enough to have training and education specifically in human relations from my time in graduate school. I would like to share the insights that I have learned in a way that honors the culture and values of Bismarck.

Please tell us about yourself.

I have worked in higher education for about 20 years, with 15 of those years in Bismarck. My career has included work at United Tribes Technical College, Bismarck State College, University of Mary, and currently Dickinson State University's Bismarck site. My work has included a great deal of interaction with students and colleagues from diverse backgrounds. I have training as a Human Relations Facilitator from Oregon State University. My career also includes work in the non-profit sector, where I worked for Habitat for Humanity International both at its international headquarters and its midwest regional offices. During my time with Habitat for Humanity, I also served one year as an AmeriCorps volunteer. My career also includes work in professional communication, including work in the news room at the Grand Forks Herald, which was awarded the Pulitzer Prize for Public Service while I worked there. During my first several years in Bismarck, I was a member of the performance art group, Dragon Jane, whose focus was peace theatre and women's empowerment. I am currently serving my second term on the North Dakota State Commission for National and Community Service.

The Bismarck Human Relations Committee meets the third Monday of each month and each member is expected to attend. Committee members are also encouraged to participate in community events. *

City Administration

DATE: March 3, 2020

FROM: Jason Tomanek, Assistant City Administrator

ITEM: JET Enterprises, Inc. (dba) Amici Pizza Company Application for a New Class I-2 Restaurant Beer and Wine Only Liquor License.

REQUEST

Introduction of and call for a public hearing on a request for a new Class I-2 Restaurant Beer and Wine Only liquor license for JET Enterprises, Inc. (dba) Amici Pizza Company.

Please place this item on the April 14, 2020 City Commission meeting agenda.

BACKGROUND INFORMATION:

JET Enterprises, Inc. (dba) Amici Pizza Company is applying for a Class I-2 Restaurant Beer and Wine Only Liquor License for address, 3001 Yorktown Drive.

Class I-To any restaurant applicant for a food and beverage license to sell at retail subject to the following:

Class I-2-Beer and wine only.

1. Gross sales of alcoholic beverages may not be greater than 30% of total gross sales. All Class I license holders shall file with the application for license renewal a sworn statement executed by the licensee and a certified public accountant retained by the licensee certifying that gross food sales and gross liquor sales for the previous calendar year meet the requirements of this section. The board of city commissioners may, in its discretion, require the licensee to provide such additional proof of the licensee's compliance with this section as the commission deems necessary. All sales of alcoholic beverages by Class I licensees must be separately receipted to the customer by cash register receipt and clearly identified as sales of liquor, beer or wine on all receipts.

2. The license is for on-sale only, and no off-sale is permitted.

3. The restaurant serves, at a tabletop, food that is prepared in a kitchen with at least an indoor grill.
4. Once a license has been established at a particular location, the license may not be transferred to another location.
5. The licensee may not permit public dances or dancing of any kind. Minors are allowed on the licensed premises only as permitted by NDCC Section 5-02-06.
6. Alcoholic beverages may be sold or served only during such times that full menu service is available.
7. For a Class I-1 that has a minimum seating capacity of 100 seats, gross sales of alcoholic beverages may not be greater than 40 percent of total gross sales of food and alcoholic beverages.

RECOMMENDED CITY COMMISSION ACTION

Staff recommends approval of the introduction of and call for a public hearing on the request from JET Enterprises, Inc. (dba) Amici Pizza Company with the public hearing scheduled for Tuesday, April 28, 2020. Staff also recommends approval of the new Class I-2 Restaurant Beer and Wine Only Liquor License.

8. Has the business been sold or leased, or is there any intention to sell or lease the business to another? Yes No
If yes, please give details:

9. Has the applicant, or any of the persons listed above, shown interest in whatsoever, directly or indirectly, any other license liquor establishment within or without the State of North Dakota? Yes No If yes, please give details:

10. Will the applicant, or any of the persons listed above, be engaged in any other business other than the sale of liquor under the license applied for? Yes No If yes, please give details:

11. Have all property taxes and special assessments currently due been paid? Yes No
If not, please explain:

I agree that I will not transfer or sell this license, if granted, without the prior approval of the governing body and in accordance with applicable ordinances.

I also agree that should any of the information contained in this application change within the period of the license, if granted, that I will inform city officials immediately and furnish such details as may be requested by such officials concerning any such changes. I also agree that, should there be a change in ownership or management during the period of the license, prior approval of the Board of City Commissioners is required.

I further agree that any misrepresentation, false statement or omission in this application shall be grounds for rejection of said application or for revocation or suspension of any license granted.

Restaurant Requirements:

All applications for Class "F", Class "I" (restaurants), Class "M" (caterer), Class "P" (event site) and Class "Q" (Restaurant On-Sale and Off-Sale) licenses MUST be accompanied by a sworn statement executed by the licensee and a certified public accountant retained by the licensee certifying that gross food sales and liquor sales for the previous calendar year meet the requirements of Chapter 5-01-04 of the City Code of Ordinances.

Liquor License Site Diagram Requirements:

- Site diagrams are to be submitted on a plain sheet of paper, 8½ x 11-inch size. There shall be one-inch margin left clear on all edges of the diagram.
- The licensed area shall be identified within the margins.
- The agency name shall be included on the diagram.
- The direction "North" shall be included on the diagram.
- The interior design of the licensed area shall be represented. This should include entrances, exits, interior doors, windows, tables, coolers, storage offices and room dividers.
- The diagram may be hand drawn, but it must be neat and reasonably accurate. Do not submit copies of construction blueprints.
- If the licensed site is part of a larger complex such as a restaurant, areas such as mixing, serving and storage must be identified.
- Do not use reference or hi-lite markers to identify areas as they do not reproduce when copied.

Bismarck

Airport

DATE: April 8, 2020

FROM: Gregory B. Haug, Airport Director

ITEM: Consider deferral of airport rents and fees.

REQUEST

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Bismarck Airport has received numerous requests from airlines and tenants for abatement and/or deferral of rents and fees. The Federal Aviation Administration (FAA) has released guidance related to deferral of rental payments or other fees (Enclosure 1). FAA guidance generally states that deferral of rental payments and or fees if adequately justified, is not likely to violate FAA's Grant Assurances.

Like all commercial airports in the United States the major sources of revenue that sustain Bismarck Airport dwindled because of the effects of COVID 19 pandemic. Bismarck airline activity has leveled out at about 5-10% of the passenger activity as compared to last year (Enclosure 2). Airlines continue to serve BIS, but with a daily flight schedule that is less than 30% compared to last year and the number of flights changes daily. The parking lot stands nearly empty and rental car companies are renting only 2-3 cars per day. The economic relief package passed recently by Congress, the CARES ACT, will provide airports with some grant funding to maintain a revenue stream needed to continue operations. One grant will be based on our 2018 passenger enplanements and is estimated to be \$4.10 - \$4.20 per passenger. We are estimating this amount at approximately \$1.2 million. These funds can be used by the airport sponsor "for any purpose for which airport revenues may be lawfully used". Another grant will be increasing the federal share of our 2020 FAA Airport Improvement project funding from 90 to 100%. FAA is working to distribute the funds by the end of April. Similarly, airlines are being provided with federal grants and loans as relief to allow them to continue operations. We just don't know as much about this program at this point in time.

Below we'll describe to you the tenants and concessionaires that have been hit the hardest by the lack of passenger activity due to COVID 19 Pandemic and share their requests and our recommendations for some temporary relief from rents, fees and charges.

Airline rent and fee deferral:

Airlines have requested deferral of rents and other fees. Each airline request has its own specifics but the theme has been deferral of rents to help them retain cash needed to operate. This subject has been discussed numerous times on our daily American Association of Airport Executives (AAAE) conference calls as well as conference calls with the 8 commercial airports in North Dakota. We learned that Fargo, has deferred three months of fees (April-June 2020) and will begin collecting fees again in July and will add 1/6 of the deferred amount to their airlines monthly bill for the remaining 6 months of 2020 so they pay off the deferral balance by the end of the year. We understand this was well received by the airlines as their immediate issue is cash flow. We believe this is a good model to follow as it provides our airline partners with the requested relief, meets FAA guidance and collects the deferred fees within the City fiscal year.

We recommend a three-month deferral of airline fees and charges for April, May & June, with a repayment of 1/6 of the total deferred amount each month starting in July 2020 and continuing until the end of the year.

FBO rent and fees:

Most tenants pay rent on an annual basis and will not pay rent again until September. However, the Fixed Base Operators (FBOs) pay parcel rent monthly for their buildings and fuel farm. FBOs also pay the airport a flowage fee of \$0.03-\$0.05 per gallon for fuel uplifted into aircraft. FBO income has also dropped dramatically. We have heard from one FBO who said they would be appreciative of a temporary deferral. Staff believes it may behoove us to consider a similar plan of deferral of rents similar to what we are proposing to do for airlines with our two FBO's to help them get through their cashflow difficulties.

We recommend a deferral of FBO parcel rent for three months (April, May & June) with payback of 1/6 of the total deferred amount each month starting in July 2020 until the end of the year. No deferral of flowage fees is recommended since payment is only required for fuel that is sold.

Concessionaires:

Faber – The Junction

Even with a 90 – 95% reduction in passenger activity (less than 100 each day) our Food and Beverage concessionaire is still staying open, providing service in the boarding area but making very little revenue. Faber sent a letter “requesting consideration of a temporary cessation of Minimum Annual Guarantee (MAG) until our industry can return to normalcy.”

Staff recommends affirming Faber’s request for discontinuing the Minimum Annual Guarantee (MAG) for four months; March, April, May & June, 2020. Faber will still pay its percentage rent for all sales in the three distinct areas (food, retail & beer/wine).

Clear Channel (Airport Advertising):

Clear Channel sent a letter stating, "we respectfully request eliminating any contractual minimum annual guarantee (MAG) effective March 1, 2020, continuing on a month-to-month basis until such time as the national emergency is lifted and passenger traffic volume normalizes. Any MAG amounts previously paid for March or April 2020 will be offset against future percentage rent payments." Staff recommends approving Clear Channel's request and discontinuing the Minimum Annual Guarantee (MAG) for four months; March, April, May & June, 2020.

Corner Cafe

The Coffee Kiosk on the first floor has closed for two weeks until early April. They are concerned about bringing the virus into the home where they have high risk category family members. They had virtually no sales prior to closing which contributed to the decision to close. Corner Café pays a \$50 minimum rent each month and a percentage of sales. Staff recommends the minimum rent be suspended and only percentage of sales is paid through June, 2020.

Reef Parking (formerly Republic Parking)

The parking lot occupancy has dwindled over the last several weeks to a point where we are only carrying about 100 cars in the lot on a daily basis. The Normal daily car count is 800 to 900 during this time of year but can peak out at over 1,100 on any one day. This is severely degrading their daily and monthly cash flow. Don Barrett from Reef Parking sent a letter requesting relief from the monthly payment of the Minimum Annual Guarantee (MAG) in their contract so they would just pay the percentage fees on actual parking activity until the situation recovers. Staff recommends approving Reef Parking's request and discontinue the Minimum Annual Guarantee (MAG) for four months; March, April, May & June, 2020.

Car Rental Concessionaires

The car rental agencies are different in that their agreements have specific terms addressing a decline in passenger activity. We are following this language directly IAW the agreement. Article 4.B.3.a states: "Decline in Passenger Count. If, for any reason, the number of passengers deplaning on scheduled airline flights at the Airport during any monthly period (the "Passenger Count") shall be lower than 85% of the Passenger Count for the same month of the immediately preceding contract year (for the first contract year, 85% of the Passenger Count for the same month of the year immediately preceding the first contract year), the Minimum Annual Guarantee shall be abated and only the Concession Fee of 11.5% will be due during the period of abatement;"

The Car Rental MAG has suspended IAW their agreements until passenger enplanements reach the contract threshold. We recommend no deferral of other fees.

The Airport is recommending deferment rather than abatement/forgiveness of airline rents and fees because the airline industry was included in the CARES Act relief package passed by congress where airlines can receive grants and loans to help them through their financial hardship. Both the airlines and the airports are still waiting for

the final rules of implementation on these relief programs. As for the FBO's we're recommending rent deferment at this time because we do not know if they will get included in a future relief package. The concessionaire are a little different because they pay a percentage of their gross sales as rent, so deferring the MAG payments just gives them a financial break during the worst of the downturn in activity. When the activity comes back, their payments to the airport will go up with the increases in activity and their overall sales. We also understand that currently the concessionaires only federal relief is set and in the form of low interest loans from the Small Business Administration. We do not know of any direct monetary relief going to them right now, as compared to the airlines, so we are recommending one extra month of MAG relief for the concessionaires. These recommendations provide some financial relief to the airport tenants that have direct ties to aeronautical activity.

RECOMMENDED CITY COMMISSION ACTION

Approve the following actions:

1. Airlines: Defer three months of rent and fees (April-June 2020) and begin collecting fees again in July and add 1/6 of the total deferred amount for each airline to their monthly bill for the remaining 6 months of calendar year 2020.
2. FBO's: Defer three months of parcel rent (April-June 2020) and begin collecting rent again in July and add 1/6 of the total deferred amount for each FBO to their monthly bill for the remaining 6 months of calendar year 2020.
3. Food and Beverage Concessionaire (Faber): Approve suspension of Minimum Annual Guarantee requirements for four months; March through June, 2020.
4. Clear Channel Airports: Approve suspension of Minimum Annual Guarantee requirements for four months; March through June, 2020.
5. Corner Café: Approve suspension of \$50 monthly minimum and apply only percentage of sales through June 30, 2020.
6. Reef Parking: Approve suspension of Minimum Annual Guarantee (MAG) requirements for four months; March through June, 2020.
7. Car Rental's: Affirm Airport Administrations suspension of the Minimum Annual Guarantee (MAG) in accordance with their lease agreement language.

Federal Aviation Administration

Information for Airport Sponsors Considering COVID-19 Restrictions or Accommodations

PURPOSE

This document addresses common issues that have arisen or may arise for airport sponsors during the response to the COVID-19 public health emergency. The Federal Aviation Administration (FAA) Office of Airports will evaluate specific requests regarding restrictions or accommodations on a case-by-case basis. The FAA retains maximum flexibility to consider unique circumstances during this public health emergency.

The FAA separately has published [frequently asked questions \(FAQs\)](#) related to the approximately \$10 billion in grants for airports under the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

BACKGROUND

The FAA has been receiving inquiries from airport operators about their authority to implement a range of restrictions, changes in operations, terminal service consolidations, and other responses to the COVID-19 public health emergency. Many of these inquiries reflect interest in facilitating social distancing or adapting to a reduced level of activity at the airport.

The FAA's primary concern is that federally obligated airports remain safe and open to the traveling public and aircraft. Particularly during this public health emergency, airports play an essential role in transporting medical and emergency equipment and personnel. The FAA continues to expect all airports to operate safely and stay open.

APPLICABILITY

The guidance here is not legally binding in its own right and will not be relied upon by the FAA as a separate basis for affirmative enforcement action or other administrative penalty. Conformity with this guidance, as distinct from existing statutes, regulations, and grant assurances, is voluntary only, and nonconformity will not affect existing rights and obligations.

ISSUES

Closing airports: All proposed closing of airport access (i.e., passenger and aircraft access) must be approved in advance by the FAA. As noted in [Compliance Guidance Letter, 2020-01](#), in general, the FAA does not permit temporary closure or restriction of federally obligated airports for non-aeronautical purposes. An airport sponsor must obtain FAA approval to allow airport closure for a non-aeronautical purpose. (Grant Assurance 19 and 49 U.S.C. § 47107(a)(8)). Grant Assurance 19

further requires that airport sponsors will not cause or permit any activity or action on the airport that would interfere with its use for airport purposes. This includes all airport structures and operational areas. If a proposed action suspends or closes an international Port of Entry, then the sponsor may also need approval from Customs and Border Protection (CBP).

Prohibiting certain flights (e.g., certain locations, types of aircraft, and types of operations): As is normally the case, actions such as these may violate Federal law and the airport's grant assurances, unless approved in advance by the FAA (and, in some cases, the Office of the Secretary of Transportation (OST) as well). To seek such approval, the airport sponsor should contact the applicable [FAA Airports District Office](#) to discuss the matter.

Requiring flights to land at certain airports for screening: All such requests would ordinarily require prior FAA approval under Grant Assurances 19 and 22 and related statutes. Usually, these restrictions would likely constitute an unreasonable restriction on access; however, FAA has discretion to consider such requests and recognizes the exceptional situation presented by this public health emergency. Depending on the circumstances, such requests might be deemed as reasonable restrictions on access. However, even where FAA is amenable to such a temporary condition, the airport will need to coordinate with OST with regard to requiring route changes, and with CBP if the action appears to suspend or close an international Port of Entry.

Closing of sections of the airfield to allow for aircraft parking: Airports should avoid overflow parking of aircraft on runways except as a last resort. If overflow parking of aircraft is needed, airports should first consider using gates, aprons, and non-movement areas. Airports should also consider suggesting that aircraft owners contact other nearby airports where there may be additional aircraft parking capacity. Based on the location(s) selected, the sponsor must be able to respond with aircraft rescue and firefighting (ARFF) capability and provide required notice. In all cases, operators of airports in the National Plan of Integrated Airport Systems should work with local air traffic facilities (if present) to develop a safe and reasonable parking plan and share that information with their servicing FAA Airports District Office, local FAA Air Traffic Manager, and FAA's Flight Standards Service. For part 139 certificated airports, see [Cert Alert 20-02 – Temporary Parking of Overflow Aircraft](#) (updated March 24, 2020).

Closing restaurants or other retail activities in the terminal: From FAA's perspective, the closing of restaurants, retail stores, or other non-aeronautical functions in a terminal is not likely to violate FAA grant assurances, particularly if driven by public health measures or reduced clientele, and especially if based upon restrictions applicable to all business entities within the jurisdiction. However, airports should coordinate with the FAA Office of Civil Rights with regard to Airport Concession Disadvantaged Business Enterprise regulations.

Closing gates or sections of terminals: In coordination with airport sponsors, airlines, the Transportation Security Administration (TSA), and other entities, closing gates or sections of terminals is likely to be acceptable if the closure is executed in response to reduced passenger volumes and operations, is not discriminatory, and does not provide an unfair competitive advantage to one operator. For example, TSA has reduced lanes or consolidated passenger screening checkpoint operations in numerous airports in response to the reduction in originating passenger volume.

Allowing terminals to be used for sheltering of people: This is likely to be acceptable if it does not interfere with necessary airport access and security for the traveling public and aircraft operations.

Screening or quarantining passengers boarding or exiting planes: State, local, or territorial public health officials may want to screen or quarantine passengers. In most cases, this is likely to be acceptable as long as passengers are not being categorically refused access to air transportation (e.g., through unapproved blanket closures). Airlines may refuse transportation to a passenger because of a communicable disease if the passenger's condition poses a direct threat to the health or safety of others. Care must also be taken in coordinating with airport sponsors, airlines, TSA, airport law enforcement, and other entities on when, where, and how your government conducts this screening and quarantining, with a goal of minimizing burden and maximizing flexibility for operations. Effort also should be made to minimize undesirable queueing or the formation of large groups of passengers.

Rent abatement / minimum annual guarantee: A decision to abate rent (including "minimum annual guarantees" and also encompassing fees) is a local decision. Rent abatement should be tied to the changed circumstances caused by the public health emergency, and done in accordance with Grant Assurances 22 and 24, as well as related statutes. Where abatement results in shifting costs between various classes of airport tenants and users, the airport sponsor is encouraged to consult with all affected parties and implement a consensus approach if possible.

If a sponsor (or airport tenant, whether aeronautical or non-aeronautical) desires to renegotiate rent, a reasonable basis for such an action might be established if the underlying basis for such rent has temporarily declined or materially altered due to COVID-19. In such circumstances, the offer of accommodation in the form of rent abatement is not barred by the grant assurances as long as it is reasonable under the circumstances and reflects the decline in fair market value, loss of services, and/or changes to volume of traffic and economy of collection.

Sponsors considering such relief are encouraged to consider the business situation of the tenant; the changed circumstances created by the public health emergency; the desirability of having solvent tenants that can resume normal operations when the emergency ends; the availability of other governmental or insurance relief that such entities have or may receive; an appropriate term for such relief; and possible subsequent conditions that, if triggered, would end the abatement. Such a condition could be the receipt of other governmental forms of relief; insurance recovery, if any; or an end to the emergency.

As noted above, where sponsors have residual lease arrangements with aeronautical users, the reduction of rent for certain non-aeronautical entities may shift costs to the aeronautical users such as airlines. Achieving the appropriate balance between these users is a local responsibility that should be managed in consultation with all affected parties. If rent abatement to non-aeronautical users results in an increase to aeronautical rates, that is not necessarily an impediment from a grant assurance perspective, but the aeronautical rates must remain reasonable. For any actions that reallocate costs, FAA encourages sponsors to carefully balance and consider the equities between all airport users. Additionally, the sponsor is encouraged to consult with all affected parties before making its decision and reach a consensus where possible.

Apart from any Federal obligations, the FAA also recommends that airport sponsors consult their lease agreements to understand their discretion to act, particularly in a residual methodology context. Airport sponsors should also examine any bond covenants to identify any potential restrictions that may exist.

Deferral of rental payments or other fees: In cases where bond restrictions or other conditions may prevent airports from offering rent abatements, the deferrals of rents and/or fees may be possible. The terms and interest rates applied should be reasonable and applied fairly to similarly situated businesses. Deferral of rental payments and or fees, if adequately justified, is not likely to violate FAA’s grant assurances. A primary goal of the statutory sustainability principle is to keep the airport solvent to ensure that the airport can remain open and operate safely. If a deferral exceeds an annual reporting period, interest should be charged based on Treasury note interest rates beginning the date of the deferral and reported on FAA Form 127. FAA anticipates issuing guidance regarding how such interest should be reported on Form 127. Neither airports nor the FAA have the legal authority, however, to allow air carriers to defer the remittance of collected Passenger Facility Charge (PFC) revenues.

Sponsor’s request for reducing hours of operation: If contemplated, it is important that any such proposed action be part of implementing a legitimate public health initiative related to COVID-19. At a minimum, to the extent considered, such an action would require FAA to examine whether it would result in an undue hardship on emergency response or otherwise unjustly discriminate against a specific user of the airport. Finally, FAA is unlikely to approve any such reductions that would restrict either government or emergency operations.

Sheltering-in-place impacts on airport personnel: Because airports are essential in transporting emergency and medical supplies and personnel during emergencies, a critical number of airport and Federal employees should be designated as essential to ensure the continuity, safety, and security of airport operations. Also, airport law enforcement should be informed to facilitate their access to airport and airport facilities. This is particularly true for part 139 certificated airports, which require minimum personnel to meet requirements of the regulation. In addition, the Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency has issued guidance that specifically identifies airport operations personnel as part of the “Essential Critical Infrastructure Workforce” who should not be impeded from their efforts to keep airports safe and operational.

Recreational aeronautical restrictions: Certain States have issued COVID-19 restrictions on activities they deem “non-essential,” including certain aeronautical activities such as flight schools and sky diving. With the goal of keeping airports open to ensure access for the traveling public, emergency and medical equipment and supplies, and emergency transportation, FAA does not object to *temporarily* limiting recreational aeronautical activities that are covered by such restrictions. However, the activities limited by a sponsor should be limited to those falling within the scope of a public health measure by an authority whose jurisdiction covers the airport’s geographic area (e.g., a State or local government).

Prohibiting flights from “hotspot” areas: Prohibiting flights from “hotspots” or areas of high levels of contagion generally is not acceptable. However, a jurisdiction may choose to consider its authority to impose public health screening or quarantine for passengers entering the jurisdiction.

The FAA has published guidance for consideration when implementing quarantine, screening, or movement restrictions that impact air transportation.

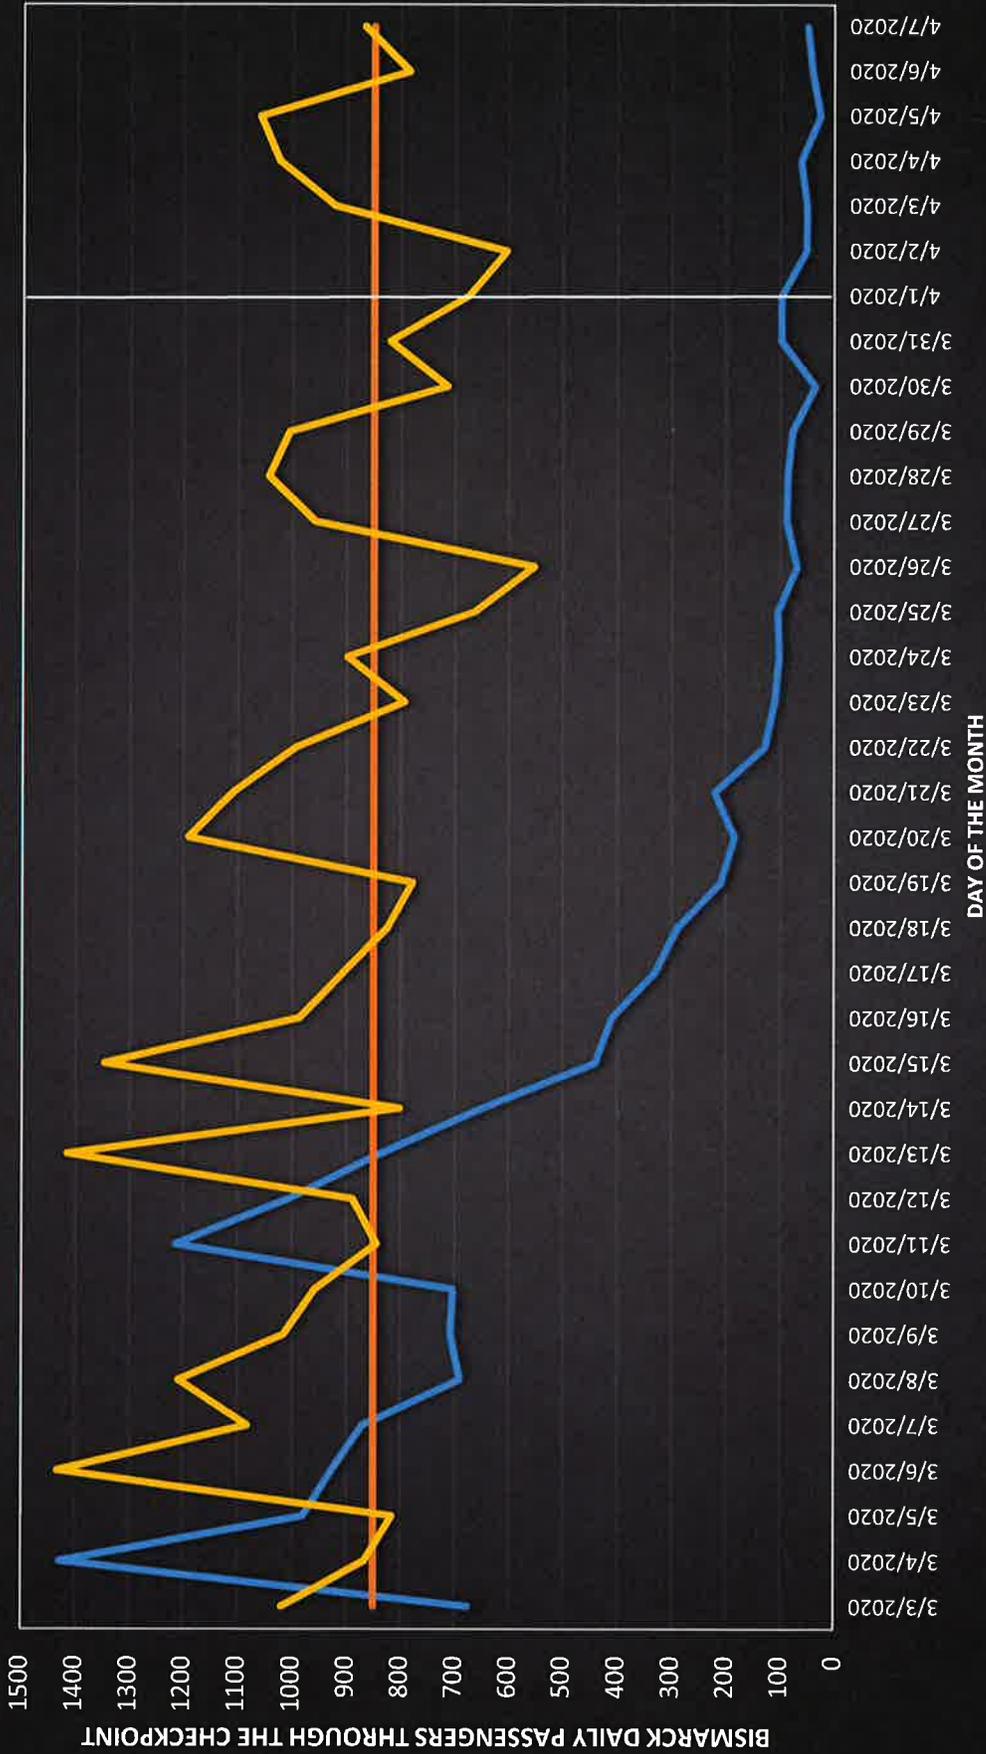

Sponsor's use of airport employees for public health screening: The use of airport employees for public health screening is generally not considered a proper use of airport revenue. Federal law requires that airport revenues be used for capital or operating costs of the airport. The FAA defines airport revenue broadly to include those revenues paid to or due to the airport proprietor for use of airport property by aeronautical and non-aeronautical users of the airport. It also includes revenue from the sale of airport property and resources and revenue from State and local taxes on aviation fuel. In the context of this emergency, it is generally permissible for airports to allocate terminal or office space for public health screening, follow-up screening, retention, and storage space for medical supplies, since these uses support services that relate to air transportation.

CONCLUSION

Airports should be cognizant of, and assume the responsibility for, the implications of their proposed actions in response to COVID-19. Considerations include, among others: (1) coordination with the FAA, (2) coordination with other Federal, State, or local agencies as needed, including airport law enforcement or local law enforcement entities serving the airport; (3) understanding of applicable Federal obligations, (4) impacts on aeronautical use and airport infrastructure; (5) impact on the safe and efficient functioning of air traffic and the National Airspace System; (6) communications and notice requirements; (7) evolving safety and security requirements; (8) the need to document actions; (9) plans for following up on or amending actions as the situation evolves; and (10) the impact to emergency services that rely on air transportation.

Bismarck Airport March/April 2020 Passengers vs. March/April 2019

- Bismarck Average Daily Passengers Through the Checkpoint CY 2019
- Bismarck Airport March/April 2019 Passengers Through the Checkpoint

Enclosure 2

City Attorney

DATE: April 6, 2020

FROM: Janelle Combs, City Attorney

ITEM: State of Emergency Declaration ratification

REQUEST

Ratify the April 14, 2020, state of emergency declaration relating to COVID-19 by the President of City Commission and extend its effect to May 14, 2020.

Please place this item on the 4/14/2020 City Commission consent meeting agenda.

BACKGROUND INFORMATION

The March 15, 2020, emergency declaration lapses April 14, 2020. I believe that the COVID-19 emergency will remain, and Mayor Bakken will sign a new declaration April 14, 2020. Bismarck City ordinance 2-08-03 provides that the President of the City Commission can declare a local state of emergency. The emergency declaration will exist for a period not to exceed 15 days, unless the City Commission ratifies the declaration within the 15-day period. If it is ratified, it is then valid for another 15 days. The declaration must be provided to all of the Commissioners and media upon signature on April 14th.

RECOMMENDED CITY COMMISSION ACTION

Ratify the April 14, 2020 state of emergency declaration relating to COVID-19 by President Bakken and extend its effect to May 14, 2020.

**COVID-19 EMERGENCY DECLARATION,
CITY OF BISMARCK, NORTH DAKOTA**

Bismarck, N.D.

WHEREAS, COVID-19 is a severe respiratory illness, caused by the SARS-CoV-2 virus, a new strain of coronavirus that is spread from person to person, posing a threat to the health and safety of the residents of the City of Bismarck; and

WHEREAS, no drug or vaccine is currently available to treat or prevent COVID-19;
and

WHEREAS, United States Department of Health and Human Services Secretary Alex Azar declared a national public health emergency for COVID-19 on January 27, 2020; and

WHEREAS, the World Health Organization declared COVID-19 a global pandemic on March 11, 2020; and

WHEREAS, on March 13, 2020, President Donald Trump issued a declaration of a national emergency due to the growing COVID-19 crisis in the United States; and

WHEREAS, on March 13, 2020, Governor Doug Burgum issued a declaration of a state emergency in response to the public health crisis resulting from the novel coronavirus (COVID-19);

WHEREAS, on March 15, 2020, the City of Bismarck declared a disaster emergency, which was ratified by the City Commission and extended to April 14, 2020, but such emergency still exists,

WHEREAS, Bismarck City Ordinance 2-08-03 provides that the President of the Commission has the power to declare a local disaster emergency, and

WHEREAS, preparedness, response and recovery from the COVID-19 virus requires a whole-of-government and whole-of-community approach across all governments as well as private and nonprofit sectors, and the virus has the risk of substantially endangering the health, safety and property of the citizens of Bismarck.

NOW, THEREFORE, BE IT RESOLVED, that the President of the Board of City Commissioners does declare a state of disaster emergency exists in the City of Bismarck, North Dakota in response to the public health crisis resulting from the novel coronavirus (COVID-19).

DATED at Bismarck, North Dakota this 14th day of April, 2020.

Steve Bakken, President

ITEM: FY2021 Section 5310 Grant Application – Mobility Manager

REQUEST

The Bismarck-Mandan Metropolitan Planning Organization, on behalf of Bis-Man Transit, requests approval to submit a FY2021 Section 5310 Grant application. The Federal Transit Administration funding is administered by North Dakota Department of Transportation (NDDOT), Transit Division, and is being made available to urban and rural transit providers. The deadline for application submittals to NDDOT is May 1, 2020.

The total grant amount requested is \$17,824 with a local match of \$4,456 to be provided by Bis-Man Transit. The application is requesting Mobility Manager funding to help cover the expense of marketing the transportation options to the community, train potential riders and agencies on the use of the services and cover the eligibility paperwork that is involved in the process. This is an existing position. The total local match amount for the project will be provided solely by Bis-Man Transit derived from local funding obtained from local mill levies.

Please place this item on the April 14, 2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Section 5310, Enhanced Mobility of Seniors & Individuals with Disabilities Program, provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of the elderly and persons with disabilities. The Section 5310 program defines Mobility Manager salary as a capital project expense.

RECOMMENDED CITY COMMISSION ACTION

Consider and approve the request to submit a FY2021 Section 5310 grant application to North Dakota Department of Transportation.

FY2021 - Section 5310 – Enhanced Mobility of Seniors & Individuals with Disabilities

Agency Name	Bis-Man Transit Board	
Agency Contact	Roy Rickert	Phone: 701-258-6817
DUNS #	83-441-0987	

Section 5310, Enhanced Mobility of Seniors and Individuals with Disabilities Program goal is to **improve mobility for older adults and persons with disabilities throughout the country.** Under 49 U.S.C. 5310 funding provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of older adults and persons with disabilities in all small urban and rural areas. The program requires coordination of federally assisted programs and community services in order to make the most efficient use of federal resources.

The entire Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program is further explained in FTA Circular 9070.1G, located on the FTA website at:

https://www.transit.dot.gov/sites/fta.dot.gov/files/docs/C9070_1G_FINAL_circular_4-20-15%281%29.pdf

Please Note:

- Capital project requests will require a minimum of **20% Local Match.**
- Mobility Manager salary is a capital project expense and requires a minimum of **20% Local Match.**
- Assets purchased with Federal Funds must be maintained and inventoried through a Transit Asset Management (TAM) Plan.
- Public transportation: the term ‘public transportation’ means regular, continuing shared-ride surface transportation services that are open to the general public or are open to a segment of the general public defined by age, disability, or low income; and does not include: intercity bus service; charter bus service; school bus service; sightseeing service; courtesy shuttle service for patrons of one or more specific establishments; or intra-terminal or intra-facility shuttle service.
- As with most Federal Assistance Programs, Section 5310 is designed as a reimbursement program. Your agency should be prepared to pay for your expenses upon delivery/acceptance and then request reimbursement from NDDOT.
- If you are awarded a Section 5310 project, your agency will be required to report a number of performance measures, at least annually, to NDDOT. Information required to report may include, but not limited to the following:

- The number of 5310 one-way trips;
 - The number of 5310 vehicles you have in service; and
 - 5310 ridership demographics.
- If requesting a replacement vehicle, the vehicle listed must have met FTA/NDDOT Useful Life. However, regardless of useful life having been met, federal interest remains until the value of the vehicle or equipment falls below \$5,000.
 - If you receive \$750,000 from any federal source, you are required to have a Single Audit per 2 CFR 200 Subpart F.
 - Vehicles may be used to provide meal delivery service for homebound persons on a regular basis in conjunction with passenger transportation. Delivery service **must not** conflict with the provision of transit services or result in reduced service to transit passengers.
 - Federal Funds will only be awarded for ADA vehicle requests.
 - All applications are due **May 1, 2020, 12:00pm CDT**. Late and/or incomplete applications may be subject to a penalty percentage reduction of requested amount or may be eliminated from funding consideration.
 - The NDDOT Transit Staff is available to provide guidance and answer any questions on the application process. E-mail: bhanson@nd.gov, dkarel@nd.gov, jsmall@nd.gov or conelson@nd.gov.

General Information

1. Provide a detailed description of the transportation services your agency currently provides and any plans for increasing services, expanding service area and increasing ridership. (include days and hours of service, fare structure, total vehicles in service, type of service being provided, transportation provided to what counties and communities in your service area, etc.).

Bis-Man Transit currently provides fixed route service to the cities of Bismarck and Mandan, and complementary paratransit service, with demand response available for senior and disabled passengers including those in the City of Lincoln. Our current focus is to transition more riders from the demand response service to fixed route. A complete route restructure, and allowing ADA eligible riders and Senior riders age 65 and older ride free, is expected to increase fixed route ridership by 15% over the next three years.

Fixed Route service is provided on six routes from 6:30 a.m. - 7:00 p.m. Monday through Friday and 8:00 a.m.- 7:00 p.m. on Saturday. All 9 vehicles in the fleet are ADA accessible and service is provided to the cities of Bismarck and Mandan. Regular fares are: \$1.50 for a one-way trip, \$6.00 1 day pass, \$36.00 for a 30 day pass. Fare for those who are ADA eligible disabled riders or over the age of 65 ride free and reduced fares for students K-college, veterans and those on Medicare is \$.75 for a one-way trip, \$3.00 1 day pass, \$24.00 for a 30 day pass. In 2018, 107,172 unlinked passenger trips were provided.

Paratransit/Demand response service is provided with a fleet of 17 cutaway buses and two minivans, to individuals with disabilities and seniors over the age of 70. The service area covers the city limits of Bismarck and Mandan, the city of Lincoln and within ¾ mile of any fixed route. A one-way fare is \$3.00. Services are provided from 5:30 am – 12:00 am, Mon-Sat and 7:30-2:30 on Sunday. In 2018, 121,520 unlinked passenger trips were provided.

2. Explain where in your current 3-5 Year Plan this project(s) is specifically stated (list section and page number(s)). Your current plan must be uploaded into BlackCat Resources.

Page 57 of the current Transit Development plan describes the possibility of eliminating this evening service if enough funds are not able to be obtained to keep the system running under its current design.

3. What percentage of change in ridership has your agency experienced in the SFY2020 reporting period? Provide a brief explanation of the reason for the change in ridership.

Increase

Decrease We have experienced a slight decrease in ridership in light of lower fuel costs but expect ridership to remain relatively flat in the coming year. We will be looking at ways to increase ridership through increased marketing efforts and a review of fixed route locations.

4. Do you share resources in any significant amount with other agencies? (e.g. maintenance, mechanics, marketing, dispatching or scheduling, training, vehicles, etc.) Briefly describe how you share resources and with whom, and any measurable savings to your program.

Yes

No

5. List all existing public transportation providers operating in your service area. See definition of public transportation under the Notes on Page 1 of this application.

N/A

6. Are you the lead transit provider in your area? If not, what is the relationship of your program(s) to other transportation providers?

Yes

No

7. Please describe the need for transit service in your area? Why does this need exist? How have you determined this need? How will the proposed project address this need for service? Is this need addressed in your Human Service Coordination Plan?

In Bismarck/Mandan, we have a large elderly and disabled population that require public transportation to take them to doctors, work, recreation and other destinations. The need for these trips extends into the evening hours. From 7:00 PM until 12:00 AM we transport approximately 8,700 on an annual basis which demonstrates that rides are needed in the community. Maintaining this service will address the needs of these individuals. Discussion of the need for evening and weekend service is on page 8 of the Human Service Coordination Plan

8. Do you market or promote your service? If yes, please provide a description of how you market the program and to whom in the box below.

Yes We place ads in community publications and through online social media as well as attend local events where we allow the public to board buses and ask questions about the service.

No

9. Did your agency receive any requests from an organization in your community/service area for FTA funding through this grant? If Yes, you must provide this organization(s) with the Preliminary Assessment/Application for Capital Assistance, Section 5310 Grant FY2021 to complete.

Yes

No

10. If Yes to question 9, please explain and include a completed Preliminary Assessment/Application for Capital Assistance, Section 5310 Grant SFY2021 for each response where applicable. All completed Preliminary Assessment/Applications received will need to be ranked by your agency/board of directors/MPO. Any funds received will be awarded to your agency and you will monitor the funds for your subrecipient.

N/A

Ridership and Fleet Information

***Report actual ridership numbers, miles and hours for SFY2020 – Qtrs 1 - 3 and estimate Qtr 4.**

***Report actual ridership numbers, miles and hours for SFY2019**

***Enter current fleet information below.**

***Current fleet and mile information MUST be also be updated in BlackCat Inventory.**

	SFY2020 - Ridership and Fleet Information	SFY2019 - Ridership and Fleet Information
Number of Annual Ridership (Trips) Provided	214,117	219,884
Number of Annual Revenue Hours	59,978	60,246
Number of Annual Revenue Miles	881,041	891,272
Number of Vehicles in Fleet	31	31

11. What is the purpose of the three most commonly requested trips that your clients require? (e.g. medical, shopping, employment, education, social, etc.)

1. Employment

2. Medical

3. Social Services

Coordinated Public Transit Human Services Transportation Plan

Applicants must be part of a locally derived Coordinated Public Transit Human Services Transportation Plan approved by North Dakota Department of Transportation (NDDOT) prior to submission of this application.

12. When was your Coordinated Public Transit Human Services Transportation Plan approved by the NDDOT Transit Section? Has it been uploaded into BlackCat Resources? Since submitting your plan describe any additional efforts made to coordinate service.

The Coordinated Public Transit Human Services Plan was approved on May1, 2017 and has been ploaded into BlackCat. Since the creation of the plan we have developed a Transit Development plan which hcluded public input and discussions with human services providers. We have also created a community transportation advisory group to discuss the mobility needs of the community.

13. Describe any potential opportunities for additional coordination. (include social service agencies, county social services, community actions, educational institutions, youth groups, veteran services, religious organizations, other transportation services, etc.) that may address unmet transit needs in your service area.

Areas in which we are increasing coordination is with educational institutions and the local hospitals to meet their transportation requirements.

14. Is the requested project(s) part of a Coordinated Public Transit Human Services Transportation Plan?

Yes

No

15. If you marked Yes above, indicate the page number where this project is listed.

If you marked No above, explain why this project is not part of your current plan.

Discussion of the need for evening and weekend service is on page 8 of the Human Service Coordination Plan.

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This project will help cover the expense of maintaining night time services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$66,156

Local Match Amount: \$66,156 Source(s) of Local Match: Local Mill Revenue

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This mobility management project will help cover the expense of marketing the transportation options to the community, train potential riders and agencies on the use of the services, and cover the eligibility paperwork that is involved in the process. The project will also entail meeting with agencies on the best way to meet the mobility needs of their clientele.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$17,824

Local Match Amount: \$4,456 Source(s) of Local Match: Local Mill Revenue

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a

project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This project will help cover the expense of maintaining Sunday services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$47,307

Local Match Amount: \$47,307 Source(s) of Local Match: Local Mill Revenue

Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than vehicle, please attach additional sheets and create a separate project for each vehicle request.

20. Provide a description of the vehicle you are requesting. (include: Year, Make, ADA qualified, and seating capacity)

Year:

Make/Model:

Seating Capacity:

Lift/Ramp: Yes No

Gas/Diesel/Other:

21. Describe in detail which programs and services the requested vehicle will be utilized in and how it will enhance or maintain your service?

22. What type of vehicle are you requesting?

- Replacement Vehicle
- Expansion Vehicle

23. If requesting a replacement, which vehicle in your fleet are you replacing?

a. Vehicle Information Number (VIN):

b. Vehicle Year:

c. Make/Model:

d. Current Mileage:

e. Vehicle In Service Date:

f. Has this vehicle information been updated in BlackCat Inventory? Yes No

24. If requesting an expansion vehicle, list the agency/community/county to be served (include hours and days of service and estimated ridership).

25. If operating a fixed route, what are the paratransit eligibility criteria for people to ride your service?

26. Provide an estimated timeline for the purchase of this vehicle. Provide a separate timeline if you are applying for different types of vehicles. **See sample timeline below, add or remove lines as needed.**

Local match listed here cannot be already targeted as match for a FY2021 5339 or 5311 applications.

Farebox revenue cannot be used as Local Match.

Documentation of sources of Local Match (including State Aid) MUST be attached or it will not be considered.

This project ranking should match your prioritization in BlackCat.

Ranking	Project	Federal Cost of Project	Local Match Needed	Sources of Local Match*
1	Nighttime Demand Response Service for Elderly and Disabled	\$66,156	\$66,156	Local Mill Revenue

2	Mobility Manager	\$17,824	\$4,456	Local Mill Revenue
3	Sunday Service	\$47,307	\$47,307	Local Mill Revenue
4				
5				

The goal of the Bis-Man Transit Board, Mobility manager is to increase awareness of mobility options throughout the community on both fixed route and demand response modes of service. These goals are to be met through marketing efforts, discussions with human services providers, community leaders, and other transportation service providers that touch the community

Mobility Management 2019 Achievements

- Updated website to be more user friendly (easier to find applications and information about complaint process)
- Began process of transitioning to IVR alerts for paratransit riders
- Creation of College Focus Group – not me but I think it would apply to mobility tasks.
- Attend Table Day/Expo event at Burleigh County Senior Center – educate seniors on the certification process for paratransit as well as how to ride CAT bus.
- Spoke at TEACH parent night
- Attended Band Night Parade with CAT bus to promote public transportation in community
- Dump the Pump 2020 – Provided all riders with a voucher for one free additional ride for either mode of transportation.
- Attended CTAA to increase knowledge of marketing/increasing ridership for transit
- Attended multiple SOAR events at U-Mary to education incoming students and parents about public transportation opportunities within the community.
- Partnered with Sarah Erble at U-Mary to promote green route with incoming students. Brought CAT bus to campus as well as engineering building to educate students. Assisted with monthly “Walmart” runs for students at U-Mary.
- Attended student orientation table days at U-Mary, Bismarck State College, and United Tribes to answer questions and provide trip planners for CAT bus.
- Participated in BisMarket (Farmer’s Market) event with CAT Bus. Provided trip planners and answered all public transportation questions. Recorded “How To” video for CAT bus bike rack use.
- Attended all Citizen Transportation Advocacy Group meetings resulting in improved communication with senior centers and nursing homes for certification process and ride scheduling.
- Began the process of Google Map Transit integration for CAT Bus.
- Updated Rider Guides. Photos and verbiage.
- Organized 2nd Stuff the Bus event to promote public transit throughout the community.
- Attended public high school table event to educate and promote both modes of services.
- CAT Bus Travel training (Oct 2nd)
- Promoted phone system update that makes it easier for riders to check on service changes and closures.
- Contacted homeless shelters and rehabilitation centers about ability to schedule travel training and public transportation presentations.

Position: Marketing / Mobility Manager

Supervision Received From: Administrative Manager, Executive Director

FLSA Status: Non-Exempt

Salary Range: \$2,900 - \$3,750 per month

SUMMARY:

Plans, organizes and manages the marketing activities of the Bis-Man Transit Board and provides mobility training for the public.

DISTINGUISHING CHARACTERISTICS:

The Marketing/Mobility Manager reports directly to the Administrative Manager and serves as a member of the Senior Management Team. As a manager, this position is responsible for administering a major line of business for Bis-Man Transit.

The Marketing/Mobility Manager plans, organizes, manages and controls the agency's marketing activities with the goal of increasing community awareness of the services that are provided by Bis-Man Transit.

Develop a yearly marketing plan for Bis-Man Transit detailing activities and events.

Plan, implement and publicize/promote public and internal events.

Create printed materials consistent with the Bis-Man Transit branding elements.

Develop and maintain a public website for Bis-Man Transit.

Develop and cultivate relationships with members of the news media. Author and distribute press releases as needed. Organize press conferences as necessary.

Provide transportation resources and training to direct community service providers in an effort to educate our target audience through community channels.

Develop and maintain working relationships with businesses, colleges, schools and other public transit stakeholders.

Serve as staff liaison to the Downtowner's Association, the Chamber of Commerce the United Way and other organizations as directed.

Provide instruction on how to use the fixed route bus system to our customers.

Plan "Train-the Trainer" sessions to teach community service providers on the use of the fixed route system so they can instruct their clients.

Teach community service providers how to develop transportation plans for their clients.

Assist with research to determine needs of current and potential riders in the Bismarck and Mandan communities and identify areas of improvement.

Lead in the evaluation and management of paratransit eligibility applications.

Serves as a member of the Senior Management Team and participates in Agency policy development; assures departmental conformance to the Agency's vision, goals and objectives.

Performs the preparation, maintenance and distribution of records, reports, statistics and other materials for Agency use and for Local, State and Federal agencies as required.

Attends, chairs, and conducts a variety of meetings with the Agency and outside entities; serves on committees as requested; represents the Agency and makes oral presentations at meetings, conferences and other events.

Performs other duties of a similar nature or level.

Must meet regular time and attendance standards.

Knowledge Desired:

- Marketing concepts;
- Website development and management;
- Development of training plans;

- Public Transit agency programs;
- Management principles and practices;
- ADA regulations as applicable to public transportation;
- Risk management principles and practices;
- Applicable Federal, State, and Local laws, rules, and regulations;

Skills Desired

- Development of marketing campaigns;
- Reading, analyzing, and interpreting general business periodicals, professional journals, technical procedures, or governmental regulations;
- Handling multiple tasks simultaneously;
- Patience and understanding in dealing with special needs customers;
- Writing press releases, business correspondence, and advertisement scripts;
- Presenting information and responding to questions from groups of managers, clients, customers, and the general public;
- Development of marketing campaigns;

- Defining problems, collecting data, establishing facts, and drawing valid conclusions;
- Public speaking;
- Communication, interpersonal skills as applied to interaction with coworkers, supervisor, elected officials, and the general public sufficient to exchange or convey information and to receive work direction.
- The use of photo editing software;

Training and Experience (position requirements at entry):

Associates Degree in marketing, communication, administration, journalism or a related field. or an equivalent combination of education and experience sufficient to successfully perform the essential duties of the job such as those listed above.

Licensing Requirements:

N/A

Must submit to criminal background check the results of which must meet hiring criteria for the role.

Immediate Full-Time Opening for a Marketing Director/Mobility Manager

Qualifications:

Strong organizational and communication skills (oral, written, and visual). Proficiency with computers, design programs and Microsoft programs a must. Must have excellent skills in writing and ability to think creatively. A working knowledge of marketing and fundraising techniques and principles. Ability to work closely with community leaders, business professionals, volunteers, agency personnel, and members of the media. Patience and understanding in training situations. Prefer knowledge of web pages and some exposure to accounting.

March 26, 2020

TO: Bis-Man Transit Board of Directors

FROM: Roy Rickert, Executive Director

SUBJECT: FY21-5310 Grant

RECOMENDATION: Staff recommends approval of this grant application for submittal to the City of Bismarck and the State of North Dakota.

BACKGROUND: The FTA 5310 grant is designed to fund Enhanced Mobility of Seniors & Individuals with Disabilities.

DISCUSSION: This application is being made to request funds to assist with the costs of mobility management tasks, and ensure that we have funds available for nighttime and Sunday demand response service for seniors and those with disabilities.

FINANCIAL IMPACT: The Mobility Management project portion of this grant allows federal funding at 80% of the overall project cost and the nighttime and sundy services grant award would cover 50% of operational costs. If awarded the requested funds, we would receive \$131,287 without being required to take any additional funds from our reserves as these are services that we are currently operating.

Bis-Man Transit delivers valued public transportation, linking people, jobs and communities.

Authorizing Resolution

This resolution authorizes the filing of an application for a grant under 49 U.S.C. Sections 5310 and 5339, as amended by The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, and other authorizing legislation to be enacted,

WHEREAS, the U.S. Department of Transportation is authorized to make grants to states through the Federal Transit Administration (FTA) to support capital assistance projects for non-urbanized area public transportation systems under Sections 5310 and 5339 of The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, as amended; and

WHEREAS, the North Dakota Department of Transportation has been designated by the Governor to administer Sections 5310 and 5339; and

WHEREAS, the contract for financial assistance will impose certain obligations upon the applicant, including provisions for the local share of project costs;

THEREFORE, BE IT RESOLVED on behalf of the the City of Bismarck that Bis-Man Transit is authorized to execute and file an application with the North Dakota Department of Transportation to aid the financing of capital assistance for projects pursuant to Sections 5310 and 5339 of The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, as amended;

That Bis-Man Transit is authorized to furnish such additional information as the North Dakota Department of Transportation may require in connection with the application of the project.

The undersigned duly qualified and acting President of Bismarck City Commission certifies that the foregoing is a true and correct statement.

DATE: April 7, 2020

FROM: Ben Ehreth, Community Development Director

ITEM: FY2021 Section 5310 Grant Application - Night Time Demand Response
Service for Elderly and Disabled

REQUEST

Bis-Man Transit requests approval to submit a FY2021 Section 5310 Grant application. The Federal Transit Administration funding is administered by North Dakota Department of Transportation (NDDOT), Transit Division, and is being made available to urban and rural transit providers. The deadline for application submittals to NDDOT is May 1, 2020.

The total grant amount requested is \$66,156 with a local match of \$66,156 provided solely by Bis-Man Transit. The application is requesting funding to help cover the expense of maintaining the existing night time services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

Please place this item on the April 14, 2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Section 5310, Enhanced Mobility of Seniors & Individuals with Disabilities Program, provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of the elderly and persons with disabilities.

RECOMMENDED CITY COMMISSION ACTION

Consider and approve the request to submit a FY2021 Section 5310 grant application to North Dakota Department of Transportation.

STAFF CONTACT INFORMATION

FY2021 - Section 5310 – Enhanced Mobility of Seniors & Individuals with Disabilities

Agency Name	Bis-Man Transit Board	
Agency Contact	Roy Rickert	Phone: 701-258-6817
DUNS #	83-441-0987	

Section 5310, Enhanced Mobility of Seniors and Individuals with Disabilities Program goal is to **improve mobility for older adults and persons with disabilities throughout the country.** Under 49 U.S.C. 5310 funding provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of older adults and persons with disabilities in all small urban and rural areas. The program requires coordination of federally assisted programs and community services in order to make the most efficient use of federal resources.

The entire Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program is further explained in FTA Circular 9070.1G, located on the FTA website at:

https://www.transit.dot.gov/sites/fta.dot.gov/files/docs/C9070_1G_FINAL_circular_4-20-15%281%29.pdf

Please Note:

- Capital project requests will require a minimum of **20% Local Match.**
- Mobility Manager salary is a capital project expense and requires a minimum of **20% Local Match.**
- Assets purchased with Federal Funds must be maintained and inventoried through a Transit Asset Management (TAM) Plan.
- Public transportation: the term ‘public transportation’ means regular, continuing shared-ride surface transportation services that are open to the general public or are open to a segment of the general public defined by age, disability, or low income; and does not include: intercity bus service; charter bus service; school bus service; sightseeing service; courtesy shuttle service for patrons of one or more specific establishments; or intra-terminal or intra-facility shuttle service.
- As with most Federal Assistance Programs, Section 5310 is designed as a reimbursement program. Your agency should be prepared to pay for your expenses upon delivery/acceptance and then request reimbursement from NDDOT.
- If you are awarded a Section 5310 project, your agency will be required to report a number of performance measures, at least annually, to NDDOT. Information required to report may include, but not limited to the following:

- The number of 5310 one-way trips;
 - The number of 5310 vehicles you have in service; and
 - 5310 ridership demographics.
- If requesting a replacement vehicle, the vehicle listed must have met FTA/NDDOT Useful Life. However, regardless of useful life having been met, federal interest remains until the value of the vehicle or equipment falls below \$5,000.
 - If you receive \$750,000 from any federal source, you are required to have a Single Audit per 2 CFR 200 Subpart F.
 - Vehicles may be used to provide meal delivery service for homebound persons on a regular basis in conjunction with passenger transportation. Delivery service **must not** conflict with the provision of transit services or result in reduced service to transit passengers.
 - Federal Funds will only be awarded for ADA vehicle requests.
 - All applications are due **May 1, 2020, 12:00pm CDT**. Late and/or incomplete applications may be subject to a penalty percentage reduction of requested amount or may be eliminated from funding consideration.
 - The NDDOT Transit Staff is available to provide guidance and answer any questions on the application process. E-mail: bhanson@nd.gov, dkarel@nd.gov, jsmall@nd.gov or conelson@nd.gov.

General Information

1. Provide a detailed description of the transportation services your agency currently provides and any plans for increasing services, expanding service area and increasing ridership. (include days and hours of service, fare structure, total vehicles in service, type of service being provided, transportation provided to what counties and communities in your service area, etc.).

Bis-Man Transit currently provides fixed route service to the cities of Bismarck and Mandan, and complementary paratransit service, with demand response available for senior and disabled passengers including those in the City of Lincoln. Our current focus is to transition more riders from the demand response service to fixed route. A complete route restructure, and allowing ADA eligible riders and Senior riders age 65 and older ride free, is expected to increase fixed route ridership by 15% over the next three years.

Fixed Route service is provided on six routes from 6:30 a.m. - 7:00 p.m. Monday through Friday and 8:00 a.m.- 7:00 p.m. on Saturday. All 9 vehicles in the fleet are ADA accessible and service is provided to the cities of Bismarck and Mandan. Regular fares are: \$1.50 for a one-way trip, \$6.00 1 day pass, \$36.00 for a 30 day pass. Fare for those who are ADA eligible disabled riders or over the age of 65 ride free and reduced fares for students K-college, veterans and those on Medicare is \$.75 for a one-way trip, \$3.00 1 day pass, \$24.00 for a 30 day pass. In 2018, 107,172 unlinked passenger trips were provided.

Paratransit/Demand response service is provided with a fleet of 17 cutaway buses and two minivans, to individuals with disabilities and seniors over the age of 70. The service area covers the city limits of Bismarck and Mandan, the city of Lincoln and within ¾ mile of any fixed route. A one-way fare is \$3.00. Services are provided from 5:30 am – 12:00 am, Mon-Sat and 7:30-2:30 on Sunday. In 2018, 121,520 unlinked passenger trips were provided.

2. Explain where in your current 3-5 Year Plan this project(s) is specifically stated (list section and page number(s)). Your current plan must be uploaded into BlackCat Resources.

Page 57 of the current Transit Development plan describes the possibility of eliminating this evening service if enough funds are not able to be obtained to keep the system running under its current design.

3. What percentage of change in ridership has your agency experienced in the SFY2020 reporting period? Provide a brief explanation of the reason for the change in ridership.

Increase

Decrease We have experienced a slight decrease in ridership in light of lower fuel costs but expect ridership to remain relatively flat in the coming year. We will be looking at ways to increase ridership through increased marketing efforts and a review of fixed route locations.

4. Do you share resources in any significant amount with other agencies? (e.g. maintenance, mechanics, marketing, dispatching or scheduling, training, vehicles, etc.) Briefly describe how you share resources and with whom, and any measurable savings to your program.

Yes

No

5. List all existing public transportation providers operating in your service area. See definition of public transportation under the Notes on Page 1 of this application.

N/A

6. Are you the lead transit provider in your area? If not, what is the relationship of your program(s) to other transportation providers?

Yes

No

7. Please describe the need for transit service in your area? Why does this need exist? How have you determined this need? How will the proposed project address this need for service? Is this need addressed in your Human Service Coordination Plan?

In Bismarck/Mandan, we have a large elderly and disabled population that require public transportation to take them to doctors, work, recreation and other destinations. The need for these trips extends into the evening hours. From 7:00 PM until 12:00 AM we transport approximately 8,700 on an annual basis which demonstrates that rides are needed in the community. Maintaining this service will address the needs of these individuals. Discussion of the need for evening and weekend service is on page 8 of the Human Service Coordination Plan

8. Do you market or promote your service? If yes, please provide a description of how you market the program and to whom in the box below.

Yes We place ads in community publications and through online social media as well as attend local events where we allow the public to board buses and ask questions about the service.

No

9. Did your agency receive any requests from an organization in your community/service area for FTA funding through this grant? If Yes, you must provide this organization(s) with the Preliminary Assessment/Application for Capital Assistance, Section 5310 Grant FY2021 to complete.

Yes

No

10. If Yes to question 9, please explain and include a completed Preliminary Assessment/Application for Capital Assistance, Section 5310 Grant SFY2021 for each response where applicable. All completed Preliminary Assessment/Applications received will need to be ranked by your agency/board of directors/MPO. Any funds received will be awarded to your agency and you will monitor the funds for your subrecipient.

N/A

Ridership and Fleet Information

***Report actual ridership numbers, miles and hours for SFY2020 – Qtrs 1 - 3 and estimate Qtr 4.**

***Report actual ridership numbers, miles and hours for SFY2019**

***Enter current fleet information below.**

***Current fleet and mile information MUST be also be updated in BlackCat Inventory.**

	SFY2020 - Ridership and Fleet Information	SFY2019 - Ridership and Fleet Information
Number of Annual Ridership (Trips) Provided	214,117	219,884
Number of Annual Revenue Hours	59,978	60,246
Number of Annual Revenue Miles	881,041	891,272
Number of Vehicles in Fleet	31	31

11. What is the purpose of the three most commonly requested trips that your clients require? (e.g. medical, shopping, employment, education, social, etc.)

1. Employment

2. Medical

3. Social Services

Coordinated Public Transit Human Services Transportation Plan

Applicants must be part of a locally derived Coordinated Public Transit Human Services Transportation Plan approved by North Dakota Department of Transportation (NDDOT) prior to submission of this application.

12. When was your Coordinated Public Transit Human Services Transportation Plan approved by the NDDOT Transit Section? Has it been uploaded into BlackCat Resources? Since submitting your plan describe any additional efforts made to coordinate service.

The Coordinated Public Transit Human Services Plan was approved on May1, 2017 and has been ploaded into BlackCat. Since the creation of the plan we have developed a Transit Development plan which hcluded public input and discussions with human services providers. We have also created a community transportation advisory group to discuss the mobility needs of the community.

13. Describe any potential opportunities for additional coordination. (include social service agencies, county social services, community actions, educational institutions, youth groups, veteran services, religious organizations, other transportation services, etc.) that may address unmet transit needs in your service area.

Areas in which we are increasing coordination is with educational institutions and the local hospitals to meet their transportation requirements.

14. Is the requested project(s) part of a Coordinated Public Transit Human Services Transportation Plan?

Yes

No

15. If you marked Yes above, indicate the page number where this project is listed.

If you marked No above, explain why this project is not part of your current plan.

Discussion of the need for evening and weekend service is on page 8 of the Human Service Coordination Plan.

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This project will help cover the expense of maintaining night time services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$66,156

Local Match Amount: \$66,156 Source(s) of Local Match: Local Mill Revenue

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This mobility management project will help cover the expense of marketing the transportation options to the community, train potential riders and agencies on the use of the services, and cover the eligibility paperwork that is involved in the process. The project will also entail meeting with agencies on the best way to meet the mobility needs of their clientele.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$17,824

Local Match Amount: \$4,456 Source(s) of Local Match: Local Mill Revenue

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a

project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This project will help cover the expense of maintaining Sunday services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$47,307

Local Match Amount: \$47,307 Source(s) of Local Match: Local Mill Revenue

Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than vehicle, please attach additional sheets and create a separate project for each vehicle request.

20. Provide a description of the vehicle you are requesting. (include: Year, Make, ADA qualified, and seating capacity)

Year:

Make/Model:

Seating Capacity:

Lift/Ramp: Yes No

Gas/Diesel/Other:

21. Describe in detail which programs and services the requested vehicle will be utilized in and how it will enhance or maintain your service?

22. What type of vehicle are you requesting?

- Replacement Vehicle
- Expansion Vehicle

23. If requesting a replacement, which vehicle in your fleet are you replacing?

a. Vehicle Information Number (VIN):

b. Vehicle Year:

c. Make/Model:

d. Current Mileage:

e. Vehicle In Service Date:

f. Has this vehicle information been updated in BlackCat Inventory? Yes No

24. If requesting an expansion vehicle, list the agency/community/county to be served (include hours and days of service and estimated ridership).

25. If operating a fixed route, what are the paratransit eligibility criteria for people to ride your service?

26. Provide an estimated timeline for the purchase of this vehicle. Provide a separate timeline if you are applying for different types of vehicles. **See sample timeline below, add or remove lines as needed.**

Office of Transportation Program Services,

The local matching funds to be used for vehicles purchased under the FY20 5310 grant will be derived from local funding reserved in Bis-Man Transit savings derived from local mil levies and the state grant.

Roy Rickert
Executive Director

5/27/2020
Date

C

March 26, 2020

TO: Bis-Man Transit Board of Directors

FROM: Roy Rickert, Executive Director

SUBJECT: FY21-5310 Grant

RECOMENDATION: Staff recommends approval of this grant application for submittal to the City of Bismarck and the State of North Dakota.

BACKGROUND: The FTA 5310 grant is designed to fund Enhanced Mobility of Seniors & Individuals with Disabilities.

DISCUSSION: This application is being made to request funds to assist with the costs of mobility management tasks, and ensure that we have funds available for nighttime and Sunday demand response service for seniors and those with disabilities.

FINANCIAL IMPACT: The Mobility Management project portion of this grant allows federal funding at 80% of the overall project cost and the nighttime and sundy services grant award would cover 50% of operational costs. If awarded the requested funds, we would receive \$131,287 without being required to take any additional funds from our reserves as these are services that we are currently operating.

Bis-Man Transit delivers valued public transportation, linking people, jobs and communities.

Authorizing Resolution

This resolution authorizes the filing of an application for a grant under 49 U.S.C. Sections 5310 and 5339, as amended by The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, and other authorizing legislation to be enacted,

WHEREAS, the U.S. Department of Transportation is authorized to make grants to states through the Federal Transit Administration (FTA) to support capital assistance projects for non-urbanized area public transportation systems under Sections 5310 and 5339 of The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, as amended; and

WHEREAS, the North Dakota Department of Transportation has been designated by the Governor to administer Sections 5310 and 5339; and

WHEREAS, the contract for financial assistance will impose certain obligations upon the applicant, including provisions for the local share of project costs;

THEREFORE, BE IT RESOLVED on behalf of the the City of Bismarck that Bis-Man Transit is authorized to execute and file an application with the North Dakota Department of Transportation to aid the financing of capital assistance for projects pursuant to Sections 5310 and 5339 of The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, as amended;

That Bis-Man Transit is authorized to furnish such additional information as the North Dakota Department of Transportation may require in connection with the application of the project.

The undersigned duly qualified and acting President of Bismarck City Commission certifies that the foregoing is a true and correct statement.

FROM: Ben Ehreth, Community Development Director

ITEM: FY2021 Section 5310 Grant Application - Sunday Service for the Elderly and Disabled

REQUEST

Bis-Man Transit requests approval to submit a FY2021 Section 5310 Grant application. The Federal Transit Administration funding is administered by North Dakota Department of Transportation (NDDOT), Transit Division, and is being made available to urban and rural transit providers. The deadline for application submittals to NDDOT is May 1, 2020.

The total grant amount requested is \$47,307 with a local match of \$47,307 provided solely by Bis-Man Transit. The application is requesting funding to help cover the expense of maintaining existing Sunday services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain Sunday services for the special needs community outside of the required ADA times.

Please place this item on the April 14, 2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Section 5310, Enhanced Mobility of Seniors & Individuals with Disabilities Program, provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of the elderly and persons with disabilities.

RECOMMENDED CITY COMMISSION ACTION

Consider and approve the request to submit a FY2021 Section 5310 grant application to North Dakota Department of Transportation.

FY2021 - Section 5310 – Enhanced Mobility of Seniors & Individuals with Disabilities

Agency Name	Bis-Man Transit Board	
Agency Contact	Roy Rickert	Phone: 701-258-6817
DUNS #	83-441-0987	

Section 5310, Enhanced Mobility of Seniors and Individuals with Disabilities Program goal is to **improve mobility for older adults and persons with disabilities throughout the country.** Under 49 U.S.C. 5310 funding provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of older adults and persons with disabilities in all small urban and rural areas. The program requires coordination of federally assisted programs and community services in order to make the most efficient use of federal resources.

The entire Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program is further explained in FTA Circular 9070.1G, located on the FTA website at:

https://www.transit.dot.gov/sites/fta.dot.gov/files/docs/C9070_1G_FINAL_circular_4-20-15%281%29.pdf

Please Note:

- Capital project requests will require a minimum of **20% Local Match.**
- Mobility Manager salary is a capital project expense and requires a minimum of **20% Local Match.**
- Assets purchased with Federal Funds must be maintained and inventoried through a Transit Asset Management (TAM) Plan.
- Public transportation: the term ‘public transportation’ means regular, continuing shared-ride surface transportation services that are open to the general public or are open to a segment of the general public defined by age, disability, or low income; and does not include: intercity bus service; charter bus service; school bus service; sightseeing service; courtesy shuttle service for patrons of one or more specific establishments; or intra-terminal or intra-facility shuttle service.
- As with most Federal Assistance Programs, Section 5310 is designed as a reimbursement program. Your agency should be prepared to pay for your expenses upon delivery/acceptance and then request reimbursement from NDDOT.
- If you are awarded a Section 5310 project, your agency will be required to report a number of performance measures, at least annually, to NDDOT. Information required to report may include, but not limited to the following:

- The number of 5310 one-way trips;
 - The number of 5310 vehicles you have in service; and
 - 5310 ridership demographics.
- If requesting a replacement vehicle, the vehicle listed must have met FTA/NDDOT Useful Life. However, regardless of useful life having been met, federal interest remains until the value of the vehicle or equipment falls below \$5,000.
 - If you receive \$750,000 from any federal source, you are required to have a Single Audit per 2 CFR 200 Subpart F.
 - Vehicles may be used to provide meal delivery service for homebound persons on a regular basis in conjunction with passenger transportation. Delivery service **must not** conflict with the provision of transit services or result in reduced service to transit passengers.
 - Federal Funds will only be awarded for ADA vehicle requests.
 - All applications are due **May 1, 2020, 12:00pm CDT**. Late and/or incomplete applications may be subject to a penalty percentage reduction of requested amount or may be eliminated from funding consideration.
 - The NDDOT Transit Staff is available to provide guidance and answer any questions on the application process. E-mail: bhanson@nd.gov, dkarel@nd.gov, jsmall@nd.gov or conelson@nd.gov.

General Information

1. Provide a detailed description of the transportation services your agency currently provides and any plans for increasing services, expanding service area and increasing ridership. (include days and hours of service, fare structure, total vehicles in service, type of service being provided, transportation provided to what counties and communities in your service area, etc.).

Bis-Man Transit currently provides fixed route service to the cities of Bismarck and Mandan, and complementary paratransit service, with demand response available for senior and disabled passengers including those in the City of Lincoln. Our current focus is to transition more riders from the demand response service to fixed route. A complete route restructure, and allowing ADA eligible riders and Senior riders age 65 and older ride free, is expected to increase fixed route ridership by 15% over the next three years.

Fixed Route service is provided on six routes from 6:30 a.m. - 7:00 p.m. Monday through Friday and 8:00 a.m.- 7:00 p.m. on Saturday. All 9 vehicles in the fleet are ADA accessible and service is provided to the cities of Bismarck and Mandan. Regular fares are: \$1.50 for a one-way trip, \$6.00 1 day pass, \$36.00 for a 30 day pass. Fare for those who are ADA eligible disabled riders or over the age of 65 ride free and reduced fares for students K-college, veterans and those on Medicare is \$.75 for a one-way trip, \$3.00 1 day pass, \$24.00 for a 30 day pass. In 2018, 107,172 unlinked passenger trips were provided.

Paratransit/Demand response service is provided with a fleet of 17 cutaway buses and two minivans, to individuals with disabilities and seniors over the age of 70. The service area covers the city limits of Bismarck and Mandan, the city of Lincoln and within ¾ mile of any fixed route. A one-way fare is \$3.00. Services are provided from 5:30 am – 12:00 am, Mon-Sat and 7:30-2:30 on Sunday. In 2018, 121,520 unlinked passenger trips were provided.

2. Explain where in your current 3-5 Year Plan this project(s) is specifically stated (list section and page number(s)). Your current plan must be uploaded into BlackCat Resources.

Page 57 of the current Transit Development plan describes the possibility of eliminating this evening service if enough funds are not able to be obtained to keep the system running under its current design.

3. What percentage of change in ridership has your agency experienced in the SFY2020 reporting period? Provide a brief explanation of the reason for the change in ridership.

Increase

Decrease We have experienced a slight decrease in ridership in light of lower fuel costs but expect ridership to remain relatively flat in the coming year. We will be looking at ways to increase ridership through increased marketing efforts and a review of fixed route locations.

4. Do you share resources in any significant amount with other agencies? (e.g. maintenance, mechanics, marketing, dispatching or scheduling, training, vehicles, etc.) Briefly describe how you share resources and with whom, and any measurable savings to your program.

Yes

No

5. List all existing public transportation providers operating in your service area. See definition of public transportation under the Notes on Page 1 of this application.

N/A

6. Are you the lead transit provider in your area? If not, what is the relationship of your program(s) to other transportation providers?

Yes

No

7. Please describe the need for transit service in your area? Why does this need exist? How have you determined this need? How will the proposed project address this need for service? Is this need addressed in your Human Service Coordination Plan?

In Bismarck/Mandan, we have a large elderly and disabled population that require public transportation to take them to doctors, work, recreation and other destinations. The need for these trips extends into the evening hours. From 7:00 PM until 12:00 AM we transport approximately 8,700 on an annual basis which demonstrates that rides are needed in the community. Maintaining this service will address the needs of these individuals. Discussion of the need for evening and weekend service is on page 8 of the Human Service Coordination Plan

8. Do you market or promote your service? If yes, please provide a description of how you market the program and to whom in the box below.

Yes We place ads in community publications and through online social media as well as attend local events where we allow the public to board buses and ask questions about the service.

No

9. Did your agency receive any requests from an organization in your community/service area for FTA funding through this grant? If Yes, you must provide this organization(s) with the Preliminary Assessment/Application for Capital Assistance, Section 5310 Grant FY2021 to complete.

Yes

No

10. If Yes to question 9, please explain and include a completed Preliminary Assessment/Application for Capital Assistance, Section 5310 Grant SFY2021 for each response where applicable. All completed Preliminary Assessment/Applications received will need to be ranked by your agency/board of directors/MPO. Any funds received will be awarded to your agency and you will monitor the funds for your subrecipient.

N/A

Ridership and Fleet Information

***Report actual ridership numbers, miles and hours for SFY2020 – Qtrs 1 - 3 and estimate Qtr 4.**

***Report actual ridership numbers, miles and hours for SFY2019**

***Enter current fleet information below.**

***Current fleet and mile information MUST be also be updated in BlackCat Inventory.**

	SFY2020 - Ridership and Fleet Information	SFY2019 - Ridership and Fleet Information
Number of Annual Ridership (Trips) Provided	214,117	219,884
Number of Annual Revenue Hours	59,978	60,246
Number of Annual Revenue Miles	881,041	891,272
Number of Vehicles in Fleet	31	31

11. What is the purpose of the three most commonly requested trips that your clients require? (e.g. medical, shopping, employment, education, social, etc.)

1. Employment

2. Medical

3. Social Services

Coordinated Public Transit Human Services Transportation Plan

Applicants must be part of a locally derived Coordinated Public Transit Human Services Transportation Plan approved by North Dakota Department of Transportation (NDDOT) prior to submission of this application.

12. When was your Coordinated Public Transit Human Services Transportation Plan approved by the NDDOT Transit Section? Has it been uploaded into BlackCat Resources? Since submitting your plan describe any additional efforts made to coordinate service.

The Coordinated Public Transit Human Services Plan was approved on May1, 2017 and has been ploaded into BlackCat. Since the creation of the plan we have developed a Transit Development plan which hcluded public input and discussions with human services providers. We have also created a community transportation advisory group to discuss the mobility needs of the community.

13. Describe any potential opportunities for additional coordination. (include social service agencies, county social services, community actions, educational institutions, youth groups, veteran services, religious organizations, other transportation services, etc.) that may address unmet transit needs in your service area.

Areas in which we are increasing coordination is with educational institutions and the local hospitals to meet their transportation requirements.

14. Is the requested project(s) part of a Coordinated Public Transit Human Services Transportation Plan?

Yes

No

15. If you marked Yes above, indicate the page number where this project is listed.

If you marked No above, explain why this project is not part of your current plan.

Discussion of the need for evening and weekend service is on page 8 of the Human Service Coordination Plan.

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This project will help cover the expense of maintaining night time services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$66,156

Local Match Amount: \$66,156 Source(s) of Local Match: Local Mill Revenue

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This mobility management project will help cover the expense of marketing the transportation options to the community, train potential riders and agencies on the use of the services, and cover the eligibility paperwork that is involved in the process. The project will also entail meeting with agencies on the best way to meet the mobility needs of their clientele.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$17,824

Local Match Amount: \$4,456 Source(s) of Local Match: Local Mill Revenue

Non-Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a

project in the Black Cat System. If applying for more than project, please attach additional sheets and create a separate project for each request.

16. Please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.

This project will help cover the expense of maintaining Sunday services for those passengers who are elderly and disabled. With funding sources on the decline, it is becoming increasingly difficult to maintain demand response services for the special needs community outside of the required ADA times.

17. If this is a request for Mobility Manager funding, a current job description, including goals and achievements from the previous year, must be attached. Have you attached these documents to this application?

Yes

No

18. Are you the lead transit provider in your area? If not, what is the relationship of your program to other transportation providers?

Yes

No

19. Total cost of this project.

Federal Funds Requested: \$47,307

Local Match Amount: \$47,307 Source(s) of Local Match: Local Mill Revenue

Vehicle Project Request

There is space provided below to request a project. NOTE: This request MUST first be created as a project in the Black Cat System. If applying for more than vehicle, please attach additional sheets and create a separate project for each vehicle request.

20. Provide a description of the vehicle you are requesting. (include: Year, Make, ADA qualified, and seating capacity)

Year:

Make/Model:

Seating Capacity:

Lift/Ramp: Yes No

Gas/Diesel/Other:

21. Describe in detail which programs and services the requested vehicle will be utilized in and how it will enhance or maintain your service?

22. What type of vehicle are you requesting?

- Replacement Vehicle
- Expansion Vehicle

23. If requesting a replacement, which vehicle in your fleet are you replacing?

a. Vehicle Information Number (VIN):

b. Vehicle Year:

c. Make/Model:

d. Current Mileage:

e. Vehicle In Service Date:

f. Has this vehicle information been updated in BlackCat Inventory? Yes No

24. If requesting an expansion vehicle, list the agency/community/county to be served (include hours and days of service and estimated ridership).

25. If operating a fixed route, what are the paratransit eligibility criteria for people to ride your service?

26. Provide an estimated timeline for the purchase of this vehicle. Provide a separate timeline if you are applying for different types of vehicles. **See sample timeline below, add or remove lines as needed.**

Request For Proposal (RFP)/Invitation For Bid (IFB) Issue Date:

Contract Award Date:

Initial Vehicle Delivery Date:

Final Vehicle Deliver Date:

Contract Completion:

Final Payment Submitted to DOT:

27. Estimate the total cost of vehicle.

Federal Funds Requested:

Local Match Amount: Source(s) of Local Match:

Following are suggested price requests for vehicles based on current state bid quotes. Keep in mind if you intend to order vehicles with additional options, prices will vary accordingly. See the State Bid website at https://apps.nd.gov/csd/spo/services/bidder/listCurrentContracts.htm		Expected Delivery time (in months)
15 Passenger or 12 + 2 Passenger Cutaway/Bus NDDOT Term Contract No. 300	Base Price - \$63,000 - \$78,300	6 - 9

Bismarck, ND 58505-0700

Office of Transportation Program Services,

The local matching funds to be used for vehicles purchased under the FY20 5310 grant will be derived from local funding reserved in Bis-Man Transit savings derived from local mil levies and the state grant.

Roy Rickert
Executive Director

5/27/2020
Date

C

March 26, 2020

TO: Bis-Man Transit Board of Directors

FROM: Roy Rickert, Executive Director

SUBJECT: FY21-5310 Grant

RECOMENDATION: Staff recommends approval of this grant application for submittal to the City of Bismarck and the State of North Dakota.

BACKGROUND: The FTA 5310 grant is designed to fund Enhanced Mobility of Seniors & Individuals with Disabilities.

DISCUSSION: This application is being made to request funds to assist with the costs of mobility management tasks, and ensure that we have funds available for nighttime and Sunday demand response service for seniors and those with disabilities.

FINANCIAL IMPACT: The Mobility Management project portion of this grant allows federal funding at 80% of the overall project cost and the nighttime and sundy services grant award would cover 50% of operational costs. If awarded the requested funds, we would receive \$131,287 without being required to take any additional funds from our reserves as these are services that we are currently operating.

Bis-Man Transit delivers valued public transportation, linking people, jobs and communities.

3750 East Rosser Avenue, Bismarck, ND 58501 • P: (701) 258-6817 • F: (701) 258-6752 • www.bismantransit.com

Authorizing Resolution

This resolution authorizes the filing of an application for a grant under 49 U.S.C. Sections 5310 and 5339, as amended by The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, and other authorizing legislation to be enacted,

WHEREAS, the U.S. Department of Transportation is authorized to make grants to states through the Federal Transit Administration (FTA) to support capital assistance projects for non-urbanized area public transportation systems under Sections 5310 and 5339 of The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, as amended; and

WHEREAS, the North Dakota Department of Transportation has been designated by the Governor to administer Sections 5310 and 5339; and

WHEREAS, the contract for financial assistance will impose certain obligations upon the applicant, including provisions for the local share of project costs;

THEREFORE, BE IT RESOLVED on behalf of the the City of Bismarck that Bis-Man Transit is authorized to execute and file an application with the North Dakota Department of Transportation to aid the financing of capital assistance for projects pursuant to Sections 5310 and 5339 of The Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94, December 4, 2015, as amended;

That Bis-Man Transit is authorized to furnish such additional information as the North Dakota Department of Transportation may require in connection with the application of the project.

The undersigned duly qualified and acting President of Bismarck City Commission certifies that the foregoing is a true and correct statement.

DATE: April 7, 2020
FROM: Ben Ehreth, Community Development Director
ITEM: TrAMS User Manager and User Role Designations

REQUEST

To approve the accompanying 'User Manager and User Role Designation' for the purposes of 1) interaction with the City of Bismarck's grant management and 2) reporting upon the Transit Agency.

Please place this item on the April 14, 2020 City Commission meeting agenda.

BACKGROUND INFORMATION

City of Bismarck, Bis-Man Transit and Bis-Man MPO staff interact with FTA's Transit Award Management System (TrAMS) to create, manage, and review the City of Bismarck's transit grants. Certain staff also have access to the National Transit Database (NTD) to complete reports on the Transit Agency. All individuals who interact with the TrAMS and NTD platforms must be certified by the City of Bismarck.

The accompanying document designates Glenn Lauinger as a User of TrAMS and a User Manager of NTD. Glen will be granted read-only access in TrAMS but will have executive reporting and submitting roles in NDT. These are required by FTA for his position as Bis-Man Transit's designated leadership authority.

RECOMMENDED CITY COMMISSION ACTION

Consider the request for approval of Glenn Lauinger as a TrAMS User and an NTD User Manager.

Engineering Department

DATE: April 7, 2020

FROM: Gabe Schell, City Engineer

ITEM: 2020 Chief Lookings Village Access Road – HC 130

REQUEST

Consider approval of North Dakota Department of Transportation (NDDOT) Construction and Maintenance Agreement for Chief Lookings Village Access Road – SRF-0008(034), PCN 22799, HC 130).

Consider approval of Companion Agreement with Bismarck Parks and Recreation District (BPRD).

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

The City of Bismarck Engineering Department is the project sponsor for a BPRD project awarded by NDDOT to rehabilitate the roadway and parking lot at Chief Lookings Village. The Commission approved acceptance of the NDDOT Special Road Fund (SRF) funding at their 1/28/20 meeting.

The NDDOT requires the City of Bismarck enter into a Construction and Maintenance Agreement for the project. This agreement details the respective responsibilities of the NDDOT and the City of Bismarck during construction and maintenance phases of the Chief Lookings Village roadway and parking lot rehabilitation project.

As per our standard practice, I have also prepared the attached agreement between the City of Bismarck and the Bismarck Parks and Recreation District (BPRD) for the above project. This Agreement obligates the BPRD to fulfill the responsibilities of the City under the terms of the NDDOT Agreement, including the provision of the funding required for the local match and for all costs beyond the stated funding cap. The BPRD Board will be considering this Agreement at its April 16, 2020 meeting. If approved by

both Boards and subject to final permitting and authorization, the project would be bid by BPRD this spring and constructed in 2020.

RECOMMENDED CITY COMMISSION ACTION

Approve the NDDOT Construction and Maintenance Agreement contingent on BPRD approval.

Approve the BPRD Agreement contingent on BPRD approval.

North Dakota Department of Transportation
CONSTRUCTION AND MAINTENANCE AGREEMENT
FOR LPA STATE AID PROJECT

Project No. SRF-0008(034)

PCN 22799

LPA CITY OF BISMARCK

Location: CHIEF LOOKINGS VILLAGE

Length: 0.30 miles

It is agreed by and between the Local Public Agency (LPA) of Bismarck, North Dakota, hereinafter referred to as the LPA, and the state of North Dakota, acting by and through its Director of Transportation, hereinafter referred to as NDDOT, whose address is 608 East Boulevard Avenue, Bismarck, North Dakota 58505-0700:

That the project shall be constructed and maintained by the LPA.

1. The LPA will pay for all construction costs, less 60 percent contributed by NDDOT. NDDOT contribution will not exceed \$233,449. Engineering, right-of-way, utility, mitigation, and maintenance costs are not eligible for reimbursement.
2. The LPA shall prepare the appropriate bid documents and bid the project in accordance with applicable state and local laws. The LPA shall determine the lowest responsible bidder and execute an agreement for completion of the project.
3. The LPA will construct said project according to the North Dakota *Standard Specifications for Road and Bridge Construction*, the plans, specifications, and other project documents which are made a part of this agreement by reference.
4. The work will be completed by the LPA and contractor(s) within 600 calendar days after this agreement is executed by NDDOT.
5. State reimbursement will be based on accepted and verified quantities determined by the LPA or consulting engineer. The LPA will be required to submit invoices or contractor progressive estimates along with the request for reimbursement.
6. The LPA will acquire the necessary rights of way without state aid or cost to NDDOT. The LPA will remove any existing encroachment upon the right of way and the LPA will save harmless NDDOT from any claim arising from the acquisition of or the failure to acquire such right of way.
7. The Risk Management Appendix, attached, is hereby incorporated and made a part of this agreement.
8. The LPA will provide any necessary permits or agreements required for utility facilities (poles, underground or overhead lines, etc.) that will be installed or allowed to remain on or crossing the right of way.
9. The LPA will secure any necessary permits or clearances such as those required by the State Historical Society, Corps of Engineers, etc.

10. The LPA will be responsible for any consideration, avoidance, and minimization of impacts upon real property related to this project, such as changes in the grades of streets, inconvenience to property or business, and any loss of light, air, view, access, egress, drainage, support, or nuisance.
11. Adequate engineering and inspection shall be provided by the LPA. The LPA shall make the reports, and keep and make available to NDDOT the records as may be required and perform the work in an acceptable manner.
12. The LPA shall ensure that the required number of samples of materials incorporated into the project are taken in a satisfactory manner and are properly submitted for testing.
13. The LPA will provide for the signing and marking of the project in accordance with the latest edition of the *Manual on Uniform Traffic Control Devices for Streets and Highways*.
14. The terms of this agreement shall not be waived, altered, modified, supplemented, or amended, in any manner whatsoever, except by written instrument signed by the parties.
15. The LPA shall comply with all applicable laws and rules, including, but not limited to, those relating to nondiscrimination, accessibility, and civil rights.
16. AFTER COMPLETION OF CONSTRUCTION, the LPA will, at its own cost and expense, maintain the project in a manner satisfactory to NDDOT or their authorized representative, and will make ample provision each year for such maintenance.

EXECUTED that date last below signed.

Routine* Service Agreements With Sovereign Entities and Political Subdivisions of the State of North Dakota:

Parties: State – State of North Dakota, its agencies, officers and employees

Governmental Entity – The Governmental Entity executing the attached document, its agencies, officers and employees

Governments – State and Government Entity, as defined above

Each party agrees to assume its own liability for any and all claims of any nature including all costs, expenses and attorney's fees which may in any manner result from or arise out of this agreement.

Each party shall secure and keep in force during the term of this agreement, from insurance companies, government self-insurance pools or government self-retention funds, authorized to do business in North Dakota, the following insurance coverages:

- 1) **Commercial general liability and automobile liability insurance** – minimum limits of liability required of the Governmental Entity are **\$250,000 per person and \$500,000 per occurrence**. The minimum limits of liability required of the State are **\$250,000 per person and \$1,000,000 per occurrence**.
- 2) **Workers compensation insurance** meeting all statutory limits.
- 3) The policies and endorsements may not be canceled or modified without **thirty (30) days prior written notice** to the undersigned State representative.

The State reserves the right to obtain complete, certified copies of all required insurance documents, policies, or endorsements at any time.

Each party that hires subcontractors shall require any non-public subcontractors, prior to commencement of work set out under an agreement between that party and the non-public subcontractor, to:

Defend, indemnify, and hold harmless the Governments, its agencies, officers and employees, from and against claims based on the vicarious liability of the Governments or its agents, but not against claims based on the Government's contributory negligence, comparative and/or contributory negligence or fault, sole negligence, or intentional misconduct. The legal defense provided by the Subcontractor to the Governments under this provision must be free of any conflicts of interest, even if retention of separate legal counsel for the Governments is necessary. Subcontractor also agrees to defend, indemnify, and hold the Governments harmless for all costs, expenses and attorneys' fees incurred if the Governments prevail in an action against Subcontractor in establishing and litigating the indemnification coverage provided herein. This obligation shall continue after the termination of this agreement.

Subcontractor shall secure and keep in force during the term of this agreement, from insurance companies, government self-insurance pools or government self-retention funds authorized to do business in North Dakota: 1) commercial general liability; 2) automobile liability; and 3) workers compensation insurance all covering the Subcontractor for any and all claims of any nature which may in any manner arise out of or result from this agreement. The minimum limits of liability required are \$250,000 per person and \$1,000,000 per occurrence for commercial general liability and automobile liability coverages, and statutory limits for workers compensation. The Governments shall be endorsed on the commercial general liability policy and automobile liability policy as additional insureds. The Governments shall have all the benefits, rights and coverages of an additional insured under these policies that shall not be limited to the minimum limits of insurance required by this agreement or by the contractual indemnity obligations of the Contractor. Said endorsement shall contain a "Waiver of Subrogation" waiving any right of recovery the insurance company may have against the Governments as well as provisions that the policy and/or endorsement may not be canceled or modified without thirty (30) days prior written notice to the undersigned representatives of the Governments, and that any attorney who represents the State under this policy must first qualify as and be appointed by the North Dakota Attorney General as a Special Assistant Attorney General as required under N.D.C.C. Section 54-12-08. Subcontractor's insurance coverage shall be primary (i.e., pay first) as respects any insurance, self-insurance or self-retention maintained by the Governments. Any insurance, self-insurance or self-retention maintained by the Governments shall be excess of the Contractor's insurance and the Subcontractor's insurance and shall not contribute with them. The insolvency or bankruptcy of the insured Subcontractor shall not release the insurer from payment under the policy, even when such insolvency or bankruptcy prevents the insured Subcontractor from meeting the retention limit under the policy. Any deductible amount or other obligations under the Subcontractor's policy(ies) shall be the sole responsibility of the Subcontractor. This insurance may be in policy or policies of insurance, primary and excess, including the so-called umbrella or catastrophe form and be placed with insurers rated "A-" or better by A.M. Best Company, Inc. The Governments will be indemnified, saved, and held harmless to the full extent of any coverage actually secured by the Subcontractor in excess of the minimum requirements set forth above. The Government Entity that hired the Subcontractor shall be held responsible for ensuring compliance with the above requirements by all Subcontractors. The Governments reserve the right to obtain complete, certified copies of all required insurance documents, policies, or endorsements at any time.

*See *North Dakota Risk Management Manual*, section 5.1 for discussion of "unique" and "routine" agreements.

RM Consulted 2007
Revised 11-19

A G R E E M E N T

The City of Bismarck, P.O. Box 5503, Bismarck, North Dakota 58506-5503, hereinafter "**City**," and the Bismarck Parks and Recreation District, 400 East Front Avenue, Bismarck, North Dakota 58504-5641, hereinafter "**Parks**," agree as follows:

WHEREAS, **City** has contracted with the North Dakota Department of Transportation to receive funding participation to reconstruct a roadway and parking lots designated as Chief Lookings Village Road Project, approximately 0.30 miles; and

WHEREAS, **Parks** will contract at its own expense for the design, inspection, and observation of the roadway and parking lot improvement and when completed will maintain the roadway and parking lot; and

WHEREAS, **City** will enter into a Construction and Maintenance Agreement - Special Roads Funds - (Project No. SRF-0008(034)) with the North Dakota Department of Transportation to receive funds not to exceed \$233,449.00 for this purpose.

The **City** and **Parks** agree that **Parks** shall contract for the design, construction administration, inspection, and observation of the project and maintain the improvement resulting from this project subject to the following terms and conditions:

1. Hold Harmless. **Parks** agrees to protect, defend, indemnify, and hold the **City**, its officers, employees, and agents free and harmless from and against any and all losses, penalties, damages, settlements, costs, charges, professional fees, or other expenses or liabilities of every kind and character arising out of or relating to any and all claims, liens, suits, causes of action, and judgments of every kind and character in connection with or arising directly or indirectly out of this Agreement and/or the performance hereof.
2. Compliance with NDDOT Program Requirements. **Parks** agrees to comply with all provisions and requirements of the Construction and Maintenance Agreement - Special Roads Funds - (Project No. SRF-0008(034)), specifically including the Risk Management Appendix, between the **City** and the NDDOT and fulfill and assume all of the obligations and responsibilities of the **City** under that Agreement with regard to the funding made available by the Cost Participation,

Construction, and Maintenance Agreement- Special Roads Funds- (Project No. SRF-0008(034)) between the **City** and the NDDOT in the amount of a maximum of \$172,950. A copy of that Agreement is attached and made a part of this Agreement as attached Exhibit A. This includes, but is not limited to Title VI Assurances, Risk Management requirements and that all of the terms of Exhibit A will be complied with by **Parks** that are identified as responsibilities of the **City** in the Agreement attached as Exhibit A.

3. Funding. The local matching funds necessary for the project shall be the responsibility of the **Parks**. The NDDOT will make all project payments. The **City** will reimburse the NDDOT for any payments made by the NDDOT on behalf of this project not reimbursable by the federal funds. The **Parks** shall reimburse the **City** for all payments made by the **City** to the NDDOT. Payments to contractors will be made by the NDDOT as stated above only when the work contracted for has been performed and accepted by the **Parks** and the **City**.
4. **Parks** agrees to establish and maintain sufficient program and financial records to verify that NDDOT requirements, Federal Highway Administration requirements, and other federal requirements have been met. **Parks** will make project files available for monitoring by the **City**, the NDDOT, and the Federal Highway Administration, or the Comptroller General. Records must be retained for a five-year period after project completion date.
5. **Parks** shall respond to and clear all material weaknesses resulting from any audit performed on this project. Material weaknesses identified in **Parks's** current audit must be reconciled prior to **Parks's** next audit. Plans to correct material weaknesses must be submitted to the City of Bismarck Finance Department. Plans to address significant deficiencies identified by a **Parks** audit must also be submitted to the City of Bismarck Finance Department.
6. Effective Date. This Agreement becomes effective immediately on signature indicated by the following execution of the parties.

ITEM: Construction of Sidewalk, Curb and Gutter, and Driveways
2020 (CC20 – Parts A & B)

REQUEST

Request for Resolution Receiving Bids.

Request for Resolution Awarding Contracts for Parts A-1, A-2, B-1 and B-2

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

This project is the annual city concrete contract to construct concrete sidewalks, curb and gutter, driveways, and other concrete as petitioned by land developers or homeowners and as needed by a city department during the 2020 construction season.

The project is divided into four separate contracts. Contractors may submit a bid for any or all parts of the city concrete contract and are divided as follows:

- Part A-1 New Sidewalk and Driveway Aprons.
- Part A-2 Sidewalk Gaps.
- Part B-1 Hazardous Sidewalks and Driveway Apron Repairs.
- Part B-2 Miscellaneous Concrete Repairs - Sidewalks, Driveway Aprons and Curb & Gutter.

Bids were opening on April 9, 2020. Four bids were received.

The low bidder for Part A-1 was Strata Corporation in the amount of \$895,547.00. The engineers estimate was \$895,334.00.

The low bidder for Part A-2 was Knife River Corporation in the amount of \$852,871.00. The engineers estimate was \$1,042,101.00.

The low bidder for Part B-1 was Brandoz Concrete LLC in the amount of \$ 380,753.00. The engineers estimate was \$336,767.50.

The low bidder for Part B-2 was Dirk Concrete, Inc. in the amount of \$ 116,225.00. The engineers estimate was \$136,690.00.

Project Schedule for all contracts

Receipt and Opening of Bids:

ITEM: Street Improvement District No. 530

REQUEST

Request for Resolution Receiving Bids and ordering Preparation of the Engineer's Statement for SI 530.

Request for Resolution Awarding Contract for SI 530.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Street Improvement District SI 530 consists of one unit of new asphalt roadway in Clear Sky Addition. This district was created on July 9, 2019. Due to late season bidding for the 3-way water and sewer project, the developer asked that the bidding for SI 530 be delayed until now. The district was expanded at the February 25, 2020 meeting at the developer's request.

Bids were received on April 6, 2020. The engineer's estimate was \$294,333.45 The low bid of \$ 293,354.05 was received from Strata Corporation.

The bid summary and project budget are attached.

Unit No. 1 (100% Petitioned)

Hendrickson Drive – 52nd Street to 200 LF east of Hermanson Drive
 Mehrer Drive – Hendrickson Drive to 200 LF south of Hendrickson Drive

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Street Improvement District No. 535 consists of nine units of new roadway lighting and appurtenances throughout Bismarck (see attached maps). All street lighting improvements will be funded through special assessments except for Unit 5.

In Unit 5, a portion of the improvement will be pre-paid by the developer per Amendment 2 of the Memory First Addition Development Agreement, approved by the Board November 12, 2019. Additionally, the assessed cost for the one unannexed parcel will be held in abeyance with the assessment paid by Rural Road Fund until the parcel is annexed into the City. Costs for all other parcels in the district will be special assessed.

Letters were sent to property owners for the public meeting to be held April 28, 2020.

57TH AVE NE

Engineering Department

DATE: April 8, 2020
FROM: Gabe Schell, City Engineer
ITEM: Water Utility Project WU 130

REQUEST

Request to Receive Bids and Award Contract for WU 130

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Water Utility Project WU 130 is the City's annual water main replacement project. Unit 1 of WU 130 consists of approximately 21,100 LF of water main replacement by pipe bursting and appurtenances. Work is scheduled at various locations between Washington Street and 11th Street and between Boulevard Avenue and Main Avenue. Unit 2 of WU 130 includes work to add gate valves at key locations to facilitate the work in Unit 1.

Additionally, the City is pursuing a loan through the State Revolving Fund (SRF) managed through North Dakota Department of Environmental Quality (NDDEQ) which results in additional bidding and construction requirements. Contractors were asked to submit two bids, alternates 1 and 2. The first alternate utilizes SRF requirements; the second utilizes the City's standard bidding and construction requirements.

The engineer's estimate was for \$3,899,253.85 for both units of this project. On April 7, 2020, three bids were received. Basaraba Excavating was the low bidder with a total bid of \$ 3,695,611.00. There was no difference in the price bid between either alternate with the Basaraba bid.

This project is included in the 2020 CIP in its entirety.

RECOMMENDED CITY COMMISSION ACTION

Award project WU 130, Units 1 and 2, Alternate 1 to Basaraba Excavating in the amount of \$ 3,695,611.00.

Engineering Department

DATE: April 8, 2020
FROM: Gabe Schell, City Engineer
ITEM: Water Utility Project WU 132

REQUEST

Request to Receive and Reject Bids for WU 132

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Water Utility Project WU 132 is a project to install six InsertValve gate valves at key locations in central Bismarck. The InsertValve gate valves can be installed on a live watermain are utilized to minimize downtime of the watermain. This project was to be completed prior to construction of this year's water main replacement project-WU130 such that the newly placed valves can be utilized during the project.

Additionally, the City was pursuing State Revolving Fund (SRF) funding which has additional bidding and construction requirements, Contractors were asked to submit two bids, alternates 1 and 2. The first alternate utilizes the City's standard bidding and construction requirements; the second utilizes SRF requirements.

The engineer's estimate was \$195,294.00 for this project. On March 16, 2020, two bids were received. Storms Construction, Inc was the low bidder with a bid of \$231,580.00. There was no difference in the price bid between either alternate. This bid is 18.6 % above the engineer's estimate.

After bids were received, staff was made aware that the availability of the InsertValve gate valves is limited and it will be unlikely that the specialized insert valves will arrive in time to meet the time constraints required by the water main replacement project - WU 130.

Staff has explored options to place the required gate valves utilizing typical construction methods. WU 130 will include placement of these valves using standard methods.

Staff requests that all bids are rejected for WU 132.

RECOMMENDED CITY COMMISSION ACTION

Reject all bids for WU 132.

DATE: April 7, 2020
FROM: Dmitriy Chernyak, Finance Director
ITEM: Travel Policy Revisions

REQUEST

To approve the revisions to the Travel Policy.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Revisions to the Travel Policy have been made in regards to private vehicles and the reimbursement employees will receive. Necessary official travel by City employees within the assigned service area on most direct routes will be reimbursed at the business standard mileage rate issued by the Internal Revenue Service. The additional amount reimbursed on employee paychecks at the end of each month based on total miles traveled in the previous year has been removed. The employee will receive reimbursement for actual miles traveled, documented and submitted for reimbursement using the standard mileage rate issued by the Internal Revenue Service.

Additional revisions to the policy include updating the In-State meal reimbursement per quarter for a total of \$35.00/day, which follows NDCC 44-08-04, along with providing the current path on the City's intranet to find the Out-Of-State per diem rates.

RECOMMENDED CITY COMMISSION ACTION

To approve the revisions to the Travel Policy.

STAFF CONTACT INFORMATION

Dmitriy Chernyak | Finance Director, 355-1600 or dchernyak@bismarcknd.gov

TRAVEL POLICY
CITY VEHICLE TRAVEL POLICY

PURPOSE

It shall be the policy of the City of Bismarck to allow the use of City owned or privately owned vehicles for travel out of the jurisdiction or State on City business with prior approval of the Department head or designee.

PROCEDURE

1. City vehicles may be used when available and practicable for out-of-town business. Reimbursement will be for actual documented expenditures.
2. Private vehicles may be used for travel out of town/state on City business. Reimbursement shall follow the business standard mileage rate issued by the Internal Revenue Service. When private vehicles are utilized where air travel could normally be utilized, the travel time shall be limited to one (1) day each way. Maximum reimbursement shall not exceed the cost of reasonable airfare fees.
3. When a City vehicle is available and a private vehicle is used, reimbursement will be for documented gasoline purchase only.
4. Non-City employees will not be allowed as passengers in City vehicles without prior approval of Department head or designee.
5. The use of rental vehicles will be allowed only with prior approval of Department head or designee.
6. Only drivers shall be authorized reimbursement for vehicle travel expense.
7. City vehicles may be used for City purposes only.

Travel in City of Employment

Private Vehicle

Necessary official travel by City employees within the assigned service area on most direct routes will be reimbursed at the business standard mileage rate issued by the Internal Revenue Service.

~~In addition, you will receive an additional amount on your paycheck at the end of each month based on the following formula. This formula will be re-calculated and approved annually.~~

<u>MILES</u>	<u>AMOUNT</u>
1 – 500	\$.00
501 – 1,500	10.00
1,501 – 3,000	25.00
3,001 – 6,000	35.00
6,001 – 9,000	45.00
9,001 – 12,000	55.00

Mileage from a normal work station to a conference or meeting is reimbursable if an employee actually reports to work prior to attendance at the meeting. However, mileage for travel from an employee's residence directly to the conference/meeting site is not reimbursable, since it is considered normal commuting travel.

Commercial Air Travel

Employees may be reimbursed for actual airfares paid for travel on official business. Employees may be reimbursed for actual fees for the first checked bag. A receipt is required. Reimbursement for additional baggage may be authorized in advance of the air travel by the department head for travel extending a week or unusual or extenuating circumstances that require additional baggage.

Charges to Travel Agents: While not specifically allowed by ordinance, the privilege of charging airline tickets through a travel agency is allowed. If a department allows employees to charge airfare to the City via a travel agency, the following control procedures must be utilized to assure internal control and proper payment and credit:

1. A purchase order must be completed in order to receive an additional 10-percent discount at the time of booking.
2. The travel agent should be advised of the proper City billing procedures and accurate address.
3. Employees must submit the last coupon of their ticket (white copy) and itinerary to their departmental personnel responsible for payment of bills.
4. The Department's Fiscal personnel shall match all travel agency charges to the ticket coupons to assure proper charges.
5. Unused tickets which have been charged to the City must be submitted to the department's Fiscal personnel or travel coordinator for refund, not directly to the travel

agency. The Fiscal staff should make appropriate note of the return ticket prior to payment of the travel agency billing to assure proper credit.

Pre-payment of Airfare

Agencies may purchase airline tickets in advance of anticipated travel to take advantage of reduced or discounted fares. A pre-paid ticket must be received at the time payment is made to an airline or travel agency.

At the discretion of the Department head, employees may travel on the weekend if it results in savings.

Taxi Fares/Airport Parking

Employees may be reimbursed for actual taxi fares paid and cost of Airport parking paid while in travel status. All reasonable attempts should be made to minimize the cost of transportation. A receipt is required.

Lodging Receipts and Payments

Only receipts from bona fide lodging establishments should be accepted for reimbursement by the Departments. Receipts from relatives for the provision of lodging services will not be acceptable. The receipt must be the official receipt from the lodging establishment which details all charges and not a charge slip from a credit card system.

Bona fide lodging establishments include: hotels, motels, college dormitories, hospitals, military facilities, and similar institutions.

1. Lodging charges when accompanied by an individual not eligible for reimbursement: When accompanied on a City authorized trip by a spouse or traveling companion, the City employee must have the lodging establishment clearly certify the room rate for a single person and only that amount may be claimed.
2. Lodging charges--two (2) employees sharing lodging: If two (2) city employees are sharing lodging accommodations, the actual cost of the room must be split evenly and each must have a separate receipt.

Example: Where a double rate is \$50.00 and a single rate is \$37.00, the City will reimburse only the actual cost to the travelers, or \$25.00 each (not \$37.00 each).

Reimbursement for Meals and Lodging

City of Bismarck provides for reimbursement of employee expenses for meals and lodging while an employee is away from his/her normal working and living residence.

Claims may also be made for meals which are not included as part of a registration fee for a conference, seminar, or other meeting and for meals attended at the request of and on behalf of the City or any of its subdivisions, agencies, bureaus, boards, or commissions; however, if a meal is included in a registration fee or airline fare, the applicable quarter allowance cannot be claimed for the meal.

Departments are urged to use restraint and common sense in authorizing this expense to prevent abuse of this provision.

The maximum expense allowance for each quarter of any twenty-four (24) hour period is as follows: (The policy provides that employees shall be reimbursed for the first quarter only if travel began before 7:00 a.m.). When using personal vehicle and traveling out of town, travel begins when the person traveling leaves their house. When using a City vehicle, travel begins when the person traveling starts his/her trip with the City vehicle. The expense allowance for each quarter is prescribed by NDCC 44-08-04. The current rates are:

IN-STATE

- 1st quarter 6 AM to 12 Noon
(Only if travel begins before 7 AM) \$ ~~6.00~~ 7.00
- 2nd quarter 12 Noon to 6 PM \$ ~~9.00~~ 10.50
- 3rd quarter 6 PM to 12 Midnight \$ ~~15.00~~ 17.50
- 4th quarter 12 Midnight to 6 AM - (Actual lodging not to exceed \$63.00, plus tax)

If the employee is unable to obtain the State rate (after requesting), the City will pay the actual cost of lodging. A receipt is required.

OUT-OF-STATE EXPENSES

AS PER IRS PER DIEM RATE CURRENT RATES FOUND (~~using Adobe Reader pdf~~) ON CITY OF BISMARCK INTRANET (~~intranet.bismarck.org~~), ~~IMPORTANT INFO~~, FINANCE, ~~REIMBURSEMENT-FORMS~~, PER DIEM RATES - YYYY-2008.

- 1st quarter 6 AM to 12 Noon
(Only if travel begins before 7 AM) 20%
- 2nd quarter 12 Noon to 6 PM 30%
- 3rd quarter 6 PM to 12 Midnight 50%
- 4th quarter 12 Midnight to 6 AM - (Actual cost of lodging)

Verification of claims via receipt is not required for the first three (3) quarters but is required for lodging. Receipts are also required for taxi fares and for all other miscellaneous expenses.

NOTE: Before any allowance for any such mileage or travel expenses shall be made, the employee shall file with the City an itemized travel voucher showing mileage traveled, the purpose thereof, and such other information and documentation as may be prescribed. Statements such as to attend a meeting, etc., should not be accepted as sufficient documentation as purpose of travel.

If an employee is not claiming reimbursement for lodging, please state so in the space provided.

Reimbursement for telephone calls. When traveling, necessary City business phone calls will be reimbursed.

DATE: March 30, 2020
FROM: Joel Boespflug, Fire Chief
ITEM: Consent Agenda Request

REQUEST

Permission to accept donated sanitizing supplies

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

The FD is receiving donated sanitizing supplies from local businesses to assist in our efforts to protect first responders. We are very appreciative of Target, Sams, McQuade Distributing and Lowes for the care and generosity.

RECOMMENDED CITY COMMISSION ACTION

Permission to accept donated supplies from businesses or persons that wish to assist our efforts in maintaining a safe operation for our first responders.

ITEM: Sale of motorcycle for salvage

REQUEST

Request to send motorcycle to salvage.

Please place this item on the April 14, 2020 City Commission meeting agenda (consent agenda).

BACKGROUND INFORMATION

Officers were investigating the motorcycle in question as stolen. The bike is an unknown year Harley Davidson and was impounded under case number 2017-15507. The motorcycle contained multiple vehicle identification numbers (VIN), multiple parts from different bikes and the person in possession of the bike denied ownership of the bike. In addition, the subject was not helpful in finding any particular owner and was a suspect in stealing a motorcycle in 2015. The VIN numbers were cross checked in the NCIC database in an attempt to find the owner. The VIN numbers did not identify a registered owner and it was deemed they are likely fake VIN's as they did not conform to a standardized VIN. We have had the bike in our possession since 2017 and no one has been able to prove ownership.

Because of the bikes condition it was determined that it would not be appropriate to sell at the City's auction due the circumstances listed above and a new owner would not be able to register the bike as street legal.

RECOMMENDED CITY COMMISSION ACTION

Requesting the board allow the transfer of possession of the motorcycle to a salvage yard or equivalent for scrap.

FROM: Jeff Heintz, Service Operations Director 

ITEM: Permission to purchase a chipper truck using equipment funding from the 2020 approved budget for the Forestry and Roads and Streets Divisions and a 50% Reimbursement from the VW Settlement Grant

REQUEST

Request Commission approval to use Forestry Division and Roads & Streets Division equipment funds in the 2020 approved budget to purchase a chipper truck. The Public Works Department received a grant from the North Dakota Department of Environmental Quality from the Volkswagen Settlement Fund to replace a Forestry chipper truck. We propose to purchase a Nelson International chassis from ND State Bid, and install a chipper box from Minnesota State Contract. The chipper truck would cost \$111,672. The VW Settlement funds would reimburse Roads and Streets \$55,836. Forestry has \$26,318 available and Roads and Streets would contribute \$29,518. Since all funding recommendations are specific to projects authorized by the City Commission, approval is required for any change in the use of the funding. Therefore, I am requesting that the Commission authorize a change in project allocation in the 2020 Roads & Streets and Forestry budget.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

The City Forester along with the Fleet Manager applied for and received a VW Settlement grant to replace the chipper truck. Funds for the purchase would be from the Forestry and Roads and Streets 2020 operating budget. I do not plan to be present at the City Commission meeting due to COVID 19 social distancing protocol. Please contact me prior to the meeting if you have questions and or indicate if you would like me to be present during the meeting.

RECOMMENDED CITY COMMISSION ACTION

Approve the reallocation of funds for the purchase of a Forestry chipper truck using Forestry and Roads & Streets 2020 operating budget. Public Works Service Operations would receive a 50% reimbursement from the NDDEQ VW Settlement grant.

ITEM: Permission to apply for the North Dakota Forest Service – America the Beautiful – Tree Planting Grant.

REQUEST

Permission to apply for the North Dakota Forest Service – America the Beautiful – Tree Planting Grant.

Please place this item on the April 14, 2020 City Commission meeting.

BACKGROUND INFORMATION

The Forestry Division would like to request permission from the City Commission to apply for the NDFS America the Beautiful – Tree Planting Grant. The deadline for submittal is April 30, 2020. The maximum grant award is \$10,000 and at least 50% of the total cost of the project must be matched by the City. Match amount can be through in-kind contribution. We would like to request the full grant award of \$10,000 for a planting project on State Street, between Interstate 94 and Calgary Ave. Forestry intends to plant approximately 100 trees along this main corridor into the City.

RECOMMENDED CITY COMMISSION ACTION

Permission to apply for the North Dakota Forest Service – America the Beautiful – Tree Planting Grant.

Public Works Service Operations Department

DATE: April 8, 2020
FROM: Jeff Heintz, Service Operations Director
ITEM: Permission to Change Fleet Services Fueling Policy

REQUEST

Request Commission approval to change the Fleet Services Fueling Policy.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Public Works Service Operations has been working with the Fire Department to adjust the policy regarding fueling of diesel fire trucks. Historically, it was required to fuel fire trucks at Public Works or Solid Waste locations. Due to the distance from the north fire stations, operational capabilities are at risk. As a temporary solution, Building Maintenance staff have been driving the Fire Department pickup with a pony tank to each station, twice a week, to refuel the diesel fire trucks. This has become a 10-hour-a-week task which takes away from their City buildings.

After consultation with the fire chief, we recommend that the large diesel firefighting apparatus, ladder, truck, pumper trucks fuel at commercial sites near their respective fire stations. Fleet Services fuel markup is 10%, which would be an approximate \$3,500 loss of annual revenue. However, there is about \$0.54 difference between Fleet's diesel charge and the cost at the local pumps. This will likely impact the Fire Department's budget. If the majority of the tanks are filled at Public Works, then their added expense for filling at a commercial pump will be minimal.

Another area of consideration is with the small engines (generators, chainsaws, fire extraction devices) that need high octane fuel without ethanol. Currently, our lower octane gasoline with ethanol are not storing well in gas tanks and cans, which lead to starting and operating difficulties. These small engines are extremely important for life-saving devices. It is recommended to allow purchasing of high octane fuel without ethanol for small engines.

The revised Fleet Services Fuel Policy is attached for your review.

RECOMMENDED CITY COMMISSION ACTION

Approve the revised Fleet Services Fueling Services Policy regarding fuel purchases.

STAFF CONTACT INFORMATION

Jeff Heintz | Service Operations Director, 355-1700 or jheintz@bismarcknd.gov

FLEET SERVICES POLICY

It is the policy of the City of Bismarck to provide safe, dependable vehicles and equipment to City Employees for their use while performing the business of the City.

Purpose

The purpose of Fleet Services is to provide high quality service, maintenance, and repairs by centralizing management of vehicles and equipment, standardizing maintenance and repair practices, and providing vendors and manufacturers' representatives a single point of contact for conducting business with the City of Bismarck for vehicles, equipment and related items.

Mission

The mission of Fleet Services is to provide safe, dependable vehicles and equipment to City employees and to conserve vehicle and equipment value through a program of inspection, periodic preventative maintenance, and repair.

Vehicle/Equipment Acquisition

Fleet Services will assist City Departments in the development of specifications, request bids, track delivery status, accept delivery on behalf of Departments, inspect and prep new vehicles and equipment, and secure new titles and license plates as needed saving time and money for management staff.

Repairs & Maintenance

All repairs and maintenance will be scheduled with and accomplished by Fleet Services. All parts, accessories, and added equipment will be requested through Fleet Services Parts and installed by Fleet Services staff. Departments will be notified of any evidence of equipment misuse/abuse or other violations of policy. Fleet Services will insure that all record-keeping pertaining to repairs, fueling and fleet asset management is maintained on a fleet management information system. Vendors, suppliers, and manufacturer's representatives of equipment, vehicles, and repair parts should be directed to Fleet Services.

Fuel Purchases

~~Fuel for vehicles and equipment will be purchased from Fleet Services. Unleaded gas and diesel fuel is available at the Public Works Building. Diesel fuel may be purchased at the baling facility at the Landfill. Both sites allow fueling twenty-four (24) hours a day, seven (7) days a week through an automated fuel dispensing system.~~

Fuel for vehicles and equipment will be purchased from Fleet Services, unless it is intended for diesel firefighting apparatus or small engine use for any department in the City. Diesel firefighting apparatus may fuel at commercial fuel dispensaries that are within close proximity to a fire station. Off-site fueling records for diesel firefighting apparatus must be sent to Fleet Services to maintain the fleet asset information system. Unleaded, high octane fuel used in

small engines may be purchased at commercial fuel dispensaries. Unleaded gas and diesel fuel is available at the Public Works Building. Diesel fuel may also be purchased at the baling facility at the Landfill as a backup to the Public Works building. Both sites allow fueling twenty-four (24) hours a day, seven (7) days a week through an automated fuel dispensing system.

Vehicle/Equipment Disposal

Repair data, usage, repair cost, and other historical data will be made available to concerned departments as a tool to help make retention/disposal decisions. Fleet Services will make recommendations based on available fleet management data/records. Decisions to retain or dispose of vehicles and equipment will be made by the parent Department.

Utilization

To increase use of City-owned equipment, Fleet Services will establish rental rates for equipment and vehicles when used by other Departments. Departments are encouraged to rent City-owned equipment when the need for equipment arises.

Fleet Services Responsibilities

Fleet Services will:

- Only make repairs authorized by the customer at a competitive price.
- Recommend only necessary repairs.
- Use materials that are proven safe and recommended by the manufacturer.
- Provide estimates that are as accurate as possible when practical.

Customer Responsibilities

Customers of Fleet Services are expected to ensure that:

- Operators are trained and qualified to operate assigned vehicles/equipment.
- Operators perform daily pre-operational checks/maintenance prior to use.
- Equipment is cleaned and washed after use to prolong the life and provide for a professional appearance of Fleet assets.
- Needed repairs/defects are reported to Fleet Services immediately.
- Seat belt and smoking policies are followed.
- Fleet vehicles and equipment are used for official business only.

Public Works Utility Operations Department

DATE: April 3, 2020

FROM: Michelle Klose, Utility Operations Director

ITEM: Additional request for the State funding and approval of lead service line replacement cost share policy

REQUEST

Request approval for additional \$500,000 loan funding with the state along with approval of the lead service line cost share policy.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

In February 2020, the City approved application to the State for water infrastructure projects for \$4.5 million. The City has been notified by the State that it has loan forgiveness (grant) dollars in the amount of \$571,000 for work with property owners relating to replacement of lead service lines. Requesting Commission approval to add \$500,000 on the loan application to incorporate the additional forgiveness (grant) dollars. Even though the loan total would increase, the money drawn that relates to the lead service line replacements is written off and is not repaid. In consultation with the Finance Director, the debt service cost will be similar to the request in February and covered within the utility rate plan.

The Utility will establish and maintain a program for lead service line replacement. The Lead Service Line Replacement Cost Share Policy is attached for your review.

RECOMMENDED CITY COMMISSION ACTION

Approve the request for additional \$500,000 loan funding, adopt the resolution of governing body for the Clean Water State Revolving Fund and Drinking Water State Revolving Fund loan applications, authorizing Michelle Klose as designated official for the application and approve the lead service line replacement cost share policy.

STAFF CONTACT INFORMATION

Michelle Klose, PE | Utility Operations Director, 355-1700 or mklose@bismarcknd.gov.
I will be available at the meeting to respond to questions.

Public Works Utility Operations – Lead Service Line Replacement Cost Share Policy	Effective Date: April 14, 2020	Approved By: Michelle Klose
--	-----------------------------------	--------------------------------

Purpose:

Establish and maintain a reasonable program to provide property owners access to state grant funding for replacement of the property owner’s lead service lines. Encourage removal of lead service lines in locations with tested levels above 8 micrograms per liter, to assist Utility compliance with the federal Lead and Copper Rule.

Policy:

The Utility will maintain a list of properties for lead service line replacement. When the state funding is available the Utility will separate the list into three categories to prioritize the state funding. The state funding will be made available to reimburse property owners up to 90% of eligible contract cost for replacement of their lead service lines, from the water main to the meter. The categories and order of the funding priority:

- P1) Property owner assisting the Utility with lead testing where the home has lead levels detected at or above 8 micrograms per liter.
- P2) Property owners within the Utility’s current or prior years cast iron water main replacement project where the project has connection to their lead service line.
- P3) All other property owners who choose to replace their lead service line, listed in order of the date the property owner requested to be on the Utility list.

Interested property owners will need to follow the Utility procedures, state requirements, and work with contractors to estimate, schedule and complete the work.

Procedure:

The Utility will seek annual Drinking Water State Revolving Fund loan funding over the next several years for cast iron water main replacement projects in areas with lead service lines. As part of the loan funding package, the state DWSRF program provides loan forgiveness (grant funding) to encourage lead service line replacements. Available state funding will change each year.

When the Utility is informed on state funding availability for lead service line replacements, the Utility will provide an Information Packet to property owners. The Information Packet will contain the requirements and details for the program. Interested property owners will need to follow the Information Packet and the state requirements to ensure the costs they incur will be eligible for cost share.

The property owner will contact one or more contractors to receive an estimate of cost and a planned completion date, and provide that information to the Utility prior to starting the lead service line replacement work to confirm funding is still available. The contract costs for lead service line replacements will vary depending on many factors including the length of the service line, location of the water main, and access to the water meter. The Utility may require the property owner to receive an additional quote if cost per linear foot exceeds what has been determined reasonable by the Director of Utility Operations.

Following completion of the work, the property owner will submit the invoice to the Utility to request reimbursement of up to 90% of eligible contract costs. The property owner remains responsible for the balance.

Properties within the P1 and P2 categories will have an annual response deadline of August 1st. If an estimate of cost and planned completion date has not been submitted to the Utility by August 1, that property will no longer be eligible for current year funding. The property will remain on the list for the following year.

Properties within the P3 category will be on the Utility list in order of date when the property owner contacted the Utility with interest in replacement of their lead service line. To allow property owners in the P3 category to have access to the limited grant funding for replacement of their lead service lines, an August 1st deadline is placed on the properties within the P1 and P2 categories. As properties on the P3 list are advised of available remaining funding, they will have a deadline of three months to provide a contractor's estimated cost and schedule to be eligible for current year funding. If the property owner does not provide the information by the deadline, the property will be placed in order at the bottom of the P3 list with a new date starting in January of the following year.

The process will be refined by the Director of Utility Operations as needed to reduce delays in completing lead service line replacements and making funds available.

Responsibility:

Each division head is responsible for ensuring compliance with this administrative policy and procedure. This policy is subject to changes under the review of the Director.

RESOLUTION OF GOVERNING BODY OF APPLICANT

(Suggested Format)

RESOLUTION NO. _____

Resolution authorizing filing of application with the North Dakota Department of Environmental Quality for a loan under the Clean Water Act and/or the Safe Drinking Water Act.

WHEREAS, under the terms of the Clean Water Act and/or the Safe Drinking Water Act, the United States of America has authorized the making of loans to authorized applicants to aid in the construction of specific public projects: Now, Therefore, BE IT RESOLVED _____ (*Governing Body of Applicant*)

ITEM: Approval to upgrade Supervisory Control and Data Acquisition
Wonderware Software at the Wastewater Treatment Plant

REQUEST

Request for approval to upgrade Supervisory Control and Data Acquisition Wonderware software and hardware at the Wastewater Treatment Plant.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

The existing Supervisory Control and Data Acquisition (SCADA) system at the Wastewater Treatment Plant uses the Wonderware System Platform architecture. The update to the newest version means the coding for the SCADA application can continue to be used. The Wonderware software quote of \$33,630.00 is attached. The SCADA upgrade work is included in the 2020 budget.

RECOMMENDED CITY COMMISSION ACTION

Approve the request to purchase Wonderware software and hardware upgrades for the SCADA system for the Wastewater Treatment Plant.

DATE: March 31, 2020

FROM: Michelle Klose, Utility Operations Director

ITEM: Task Order No. 15 to the Agreement with AE2S for 2020 Water Distribution SCADA Upgrade I&C Commissioning Services

REQUEST

Request for approval to accept Task No. 15 to the Agreement with AE2S for 2020 Water Distribution SCADA upgrade and I&C commissioning services.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Task Order No. 15 will assist us with the I&C commissioning, programming and integration associated with the 2020 Water Distribution SCADA upgrade project. The total estimated fee for Task Order No. 15 is not to exceed \$53,500.00.

RECOMMENDED CITY COMMISSION ACTION

Approve Task Order No. 15 to the agreement with AE2S in the amount not to exceed \$53,500.00 for 2020 Water Distribution SCADA upgrade I&C commissioning services.

STAFF CONTACT INFORMATION

Michelle Klose, PE | Utility Operations Director, 355-1700 or mklose@bismarcknd.gov.
I will be available at the meeting to respond to questions.

Task Order

In accordance with Paragraph 1.02 of the Short Form of Task Order Agreement Between Owner and Engineer for Professional Services, dated May 8, 2018 ("Agreement"), Owner and Engineer agree as follows:

1. Background Data

- a. Effective Date of Task Order: April 14, 2020
- b. Owner: City of Bismarck
- c. Engineer: Advanced Engineering and Environmental Services, Inc.
- d. Specific Project (title): 2020 Water Distribution SCADA Upgrade I&C Commissioning Services
- e. Specific Project (description): I&C commissioning, programing and integration associated with the 2019 Water Distribution SCADA Upgrade project. Commissioning and programing services will be provided for new equipment installed at the Crocus valve, Hillside Reservoir, and Water Treatment Plant. Integration services will be provided for the West End to provide storage volume reading to the overall SCADA system

2. Services of Engineer

The specific services to be provided or furnished by Engineer under this Task Order are as follows:

A. Commissioning Phase

- 1. As Basic Services, Engineer shall:
 - a. Assist Owner in connection with the adjusting of Specific Project equipment and systems.
 - b. Assist Owner in training Owner's staff to operate and maintain Specific Project equipment and systems.
 - ~~e. Prepare operation and maintenance manuals.~~
 - d. Assist Owner in developing procedures for (a) control of the operation and maintenance of Specific Project equipment and systems, and (b) related record-keeping.
 - ~~e. Prepare and furnish to Owner, in the format agreed to, Record Drawings showing appropriate record information based on Project annotated record documents received from Contractor.~~

2. Other Services:

- a. Create PLC ladder logic and an HMI to monitor applicable digital and analog input and output points, alarm monitoring, automated process, and the commissioning and startup of those applications as well as the associated network and telemetry systems for the following locations:

- 1) Hillside Pump Station
- 2) Crocus Valve
- 3) Water Treatment Plant

- B. The following locations are not included in this Scope of Work and I&C Commissioning Services will be completed in conjunction with the Lockport Pump Station project:

1. Ash Coulee Water Tower (43rd Ave Water Tower)
2. Northwest Pump Station
3. Northwest Reservoir
4. 16th Street Pump Station
5. 16th Street Reservoir

3. Additional Services

- A. Additional Services that may be authorized or necessary under this Task Order are as follows: None Identified

4. Owner's Responsibilities

- A. Owner shall have those responsibilities set forth in the Agreement, subject to the following: None Identified

5. Task Order Schedule

- A. The parties shall meet the following schedule: Services will be rendered subsequent to the Contractor's installation of upgrade SCADA equipment at the facilities. Services under this Task Order are assumed to be completed in the 2020 calendar year.

6. Payments to Engineer

- A. Owner shall pay Engineer for services rendered under this Task Order as follows:
- a. An amount equal to the cumulative hours charged to the Project by each class of Engineer's employees times standard hourly rates for each applicable billing class for all services performed on the Specific Project, plus reimbursable expenses and Engineer's consultants' charges, if any.
 - b. Engineer's Standard 2020 Hourly Rates are as shown in Appendix 1.
 - c. The total compensation for services and reimbursable expenses will not exceed \$53,500.

B. The terms of payment are set forth in the Agreement.

7. Consultants retained as of the Effective Date of the Task Order: None

8. Other Modifications to Agreement: None

9. Attachments: None

10. Other Documents Incorporated by Reference: None

11. Terms and Conditions

Execution of this Task Order by Owner and Engineer shall make it subject to the terms and conditions of the Agreement (as modified above), which Agreement is incorporated by this reference. Engineer is authorized to begin performance upon its receipt of a copy of this Task Order signed by Owner.

The Effective Date of this Task Order is April 14, 2020.

PUBLIC WORKS – UTILITY OPERATIONS

DATE: March 31, 2020

FROM: Michelle Klose, P.E., Director of Utility Operations

ITEM: Approval to submit planning level flood protection information to State Water Commission

REQUEST

Approval to submit planning level flood protection information to the State Water Commission for inclusion in the biennial Water Development Plan.

Please place this item on the April 14, 2020 City Commission meeting.

BACKGROUND INFORMATION

The State Water Commission is developing a Water Development Plan for the 2021-2023 biennium and beyond. Public Works Utility Operations is requesting approval to submit a flood protection project with the State Water Commission to seek cost-share assistance. The State Water Commission has supported an initial phase of flood protection on the south side of Bismarck through the Tavis structure, road raises, and embankments. This second phase provides protection to the Wastewater Treatment Plant through changes to the outfall and protection of Southport through embankment raises and bay closure structure. The planning level cost estimate is \$3.5 million with \$1million needed for the plant and \$2.5 million for Southport. The submission of this project will allow a determination by the State if there is available cost share.

Application for funding and completion of a cost benefit analysis would be future steps if these projects are supported within the State approval of State Water Commission biennial budget for water projects.

RECOMMENDED CITY COMMISSION ACTION

Approval to submit a phase two flood protection project with the State Water Commission to be included in the Water Development Plan, to seek cost share for the Wastewater Treatment Plant outfall improvements and protection of Southport.

Community Development Department

DATE: April 7, 2020

FROM: Ben Ehreth, AICP, Community Development Director

ITEM: Apple Meadows Third Subdivision – Zoning Change (A to RR) & Final Plat

REQUEST

Sattler Family, LLLP is requesting approval of a zoning change from the A – Agricultural zoning district to the RR – Residential zoning district and a major subdivision final plat for Apple Meadows Third Subdivision. The proposed plat and zoning change would allow the construction of 28 single-family rural residential homes.

The property is located east of Bismarck, along the east side of 80th Street SE between County Highway 10 and Apple Creek Road (part of the SW $\frac{1}{4}$ of Section 4, T138N-R79W/Apple Creek Township).

Please place this item on the March 10, 2020 City Commission meeting agenda and the March 24, 2020 City Commission meeting agenda.

Given federal and state recommendations related to limiting gatherings of 10 or more individuals, and that it was possible that multiple members of the public may have wished to attend and provide testimony at the March 24, 2020 meeting, staff requested continuation of the items to limit potential exposure of COVID-19 consistent with federal and state guidance. The public hearing scheduled for March 24, 2020 was continued to the next meeting of the City Commission, which is the meeting of April 14, 2020.

BACKGROUND INFORMATION

The Planning & Zoning Commission held a public hearing on these requests on February 26, 2020.

One resident spoke at the public hearing and several other residents submitted written comments prior to the meeting. The concerns expressed included the impact of ground water on stormwater management, the management of stormwater on the property in general and the desire of adjacent residents to have 4th Street NE paved to the eastern end of this roadway rather than to the eastern edge of the proposed Fuji Drive.

Assistant County Engineer Casey Einrem also appeared and responded to questions about stormwater management in the area, as well as the County's policies regarding paving of roadways adjacent to plats and roadway maintenance and plowing.

At the conclusion of the public hearing, and based on the findings contained in the staff report, the Planning & Zoning Commission unanimously recommended approval of the zoning change from the A – Agricultural zoning district to the RR – Residential zoning district and the major subdivision final plat for Apple Meadows Third Subdivision.

RECOMMENDED CITY COMMISSION ACTION

March 10th meeting of the Board of City Commissioners – consider the zoning change as outlined in Ordinance 6413 call for a public hearing on this item for the March 24th meeting of the Board of City Commissioners.

March 24th meeting of the Board of City Commissioners – staff requested continuation of these items to the next meeting of the Board of City Commissioners.

April 14th meeting of the Board of City Commissioners - hold a public hearing on the zoning change as outlined in Ordinance 6413; consider the request for approval of the major subdivision final plat for Apple Creek Third Subdivision; and take final action on the two related requests.

ORDINANCE NO. 6413

<i>Introduced by</i>	_____
<i>First Reading</i>	_____
<i>Second Reading</i>	_____
<i>Final Passage and Adoption</i>	_____
<i>Publication Date</i>	_____

AN ORDINANCE TO AMEND AND RE-ENACT SECTION 14-03-02 OF THE 1986 CODE OF ORDINANCES, OF THE CITY OF BISMARCK, NORTH DAKOTA, AS AMENDED, RELATING TO THE BOUNDARIES OF ZONING DISTRICTS.

BE IT ORDAINED BY THE BOARD OF CITY COMMISSIONERS OF BISMARCK, NORTH DAKOTA:

Section 1. Amendment. Section 14-03-02 of the Code of Ordinances of the City of Bismarck, North Dakota is hereby amended to read as follows:

The following described property shall be excluded from the A-Agricultural zoning district and included in the RR-Residential zoning district:

Lots 1-14, Block 1 and Lots 1-14, Block 2, Apple Meadows Third Subdivision.

Section 2. Repeal. All ordinances or parts of ordinances in conflict with this ordinance are hereby repealed.

Section 3. Taking Effect. This ordinance shall take effect upon final passage, adoption and publication.

Staff Analysis

Sattler Family, LLLP is requesting approval of a zoning change from the A – Agriculture zoning district to the RR

– Residential zoning district and a major subdivision final plat for Apple Meadows Third Subdivision.

(continued)

The Planning and Zoning Commission at their meeting of December 19, 2019 tentatively approved the proposed plat and called for a public hearing on the proposed zoning change.

Adjacent uses include rural residential to the north across 4th Avenue SE, to the west across 80th Street SE, and to the south, and agriculturally-zoned residential uses to the east.

Future Land Use Plan

The Future Land Use Plan in the 2014 Growth Management Plan, as amended, identifies the majority of the area in the proposed plat as Rural Residential (RR) and a smaller area in the southeastern portion of the plat identified as Conservation (C).

The Rural Residential land use designation allows for single-family residential uses and calls for densities of less than one unit per acre. The Conservation land use designation allows for areas such as streams, greenways, and wetlands maintained as permanent open space. This conservation area is also located within the Special Flood Hazard Area (SFHA) or 100-year floodplain. The proposed zoning change conforms to the Future Land Use Plan.

Fringe Area Road Master Plan

The 2014 Fringe Area Road Master Plan identifies 80th Street SE along the west side of the proposed plat as an arterial roadway and 4th Avenue SE, along the north side of the proposed plat as a collector roadway. Eighty feet of right-of-way is proposed to be dedicated for 4th Avenue SE and 4th Avenue SE is proposed to be paved in accordance with Burleigh County standards from 80th Street SE to the eastern portion of the intersection of 4th Avenue SE and Fuji Drive, the north-south roadway in the proposed plat. The proposed plat conforms to the Fringe Area Road Master Plan.

Required Findings of Fact (relating to land use)

Zoning Change

1. The proposed zoning change generally conforms to the Future Land Use Plan in the 2014 Growth Management Plan, as amended;

2. The proposed zoning change is compatible with adjacent land uses and zoning;
3. The City of Bismarck and/or other agencies would be able to provide necessary public services, facilities and programs to serve any development allowed by the new zoning classification at the time the property is developed;
4. The Apple Creek Township Board of Supervisors has received notification of the proposed zoning change; however, they have not yet made a recommendation for the proposed zoning change;
5. The proposed zoning change is justified by a change in conditions since the previous zoning classification was established or by an error in the zoning map;
6. The zoning change is in the public interest and is not solely for the benefit of a single property owner;
7. The proposed zoning change is consistent with the general intent and purpose of the zoning ordinance;
8. The proposed zoning change is consistent with the master plan, other adopted plans, policies and accepted planning practice; and
9. The proposed zoning change would not adversely affect the public health, safety, and general welfare.

Final Plat

1. All technical requirements for approval of a final plat have been met;
2. The final plat generally conforms to the preliminary plat for the proposed subdivision that was tentatively approved by the Planning and Zoning Commission;
3. The proposed subdivision generally conforms to the 2014 Fringe Area Road Master Plan, as amended;
4. The City Engineer has conditionally approved the Post-Construction Stormwater Management Permit (PCSMP) with written concurrence from the County Engineer;

(continued)

5. The provision of neighborhood parks and open space is not needed because the proposed final plat is not an urban subdivision with residential zoning districts;
6. The Apple Creek Township Board of Supervisors has received notification of the proposed final plat; however, they have not yet made a recommendation for the proposed final plat;
7. The proposed subdivision plat includes sufficient easements and rights-of-way to provide for orderly development and provision of municipal services beyond the boundaries of the subdivision.
8. The City of Bismarck and/or other agencies would be able to provide necessary public services, facilities and programs to serve any development allowed by the proposed subdivision at the time the property is developed;
9. Portions of the proposed subdivision is located within the Special Flood Hazard Area (SFHA), also known as the 100-year floodplain. However, the subdivision is proposed to be developed according to existing ordinance requirements pertaining to development in the floodplain and therefore, the proposed development would not adversely impact water quality and/or environmentally sensitive lands,
10. The proposed subdivision is consistent with the general intent and purpose of the zoning ordinance;
11. The proposed subdivision is consistent with the master plan, other adopted plans, policies and accepted planning practice; and
12. The proposed subdivision would not adversely affect the public health, safety and general welfare.

Staff Recommendation

Based on the above findings, staff recommends approval of the zoning change from the A – Agriculture zoning district to the RR – Residential zoning district and the major subdivision final plat for Apple Meadows Third Subdivision.

DATE: April 6, 2020
FROM: Gabe Schell, City Engineer
ITEM: Street Improvement District No. 531

REQUEST

Request for Resolution Determining Insufficiency of Protests on Resolution of Necessity for Street Improvement District SI 531.

Request for Resolution Receiving Bids and Ordering Preparation of the Engineer's Statement for SI 531A and SI 531B.

Request for Resolution Awarding Contracts for SI 531A and SI 531B.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Street Improvement District No. 531 consists of eight units (205 blocks) of asphalt resurfacing (patch, level, mill, overlay, chip seal, curb repair, alley repair), reconstruction and related items and one unit (2 blocks) converting gravel alleys to asphalt pavement. Given the size of the district, it will bid in two parts, Part A and Part B, to allow for two separate contracts under one assessment district. Additionally, two units were added to the project which includes the water main replacement for Unit 6 (Unit 10) and the water main replacement for Unit 8 (Unit 11). The water main replacement works is funded by the Public Works Water Utility Fund.

The Resolution of Necessity was published in the newspaper on January 20, 2020 and January 27, 2020 at the board's request. Letters were sent to property owners on or before January 20, 2020. At the board's request on March 3, 2020 the Resolution of Necessity was published in the newspaper on March 9, 2020 and March 16, 2020. Letters were sent to property owners notifying them that the protest period was still open until April 8, 2020 and all previous protests would be honored. The summary of protest received as of April 8, 2020 are attached. All units, except unit 8, are below the

50% threshold for protests as per NDCC 40-22. Staff is currently verifying the threshold needed for Unit 8 as it relates to NDCC 40-56. Should Unit 8 not be awarded due to sufficient protests, staff recommends Unit 11 also not be awarded.

Two bids were received on April 7, 2020 for SI 531A. The engineer's estimate was \$3,540,986.04 and the low bid of \$ 3,282,409.04 was received from Strata Corporation. The bid summary is attached. The project budget will be distributed prior to the Commission meeting.

Two bids were received on April 6, 2020 for SI 531B. The engineer's estimate was \$6,025,362.90 and the low bid of \$5,676,827.51 was received from Northern Improvement Company (includes Units 8 and 11). If Units 8 and 11 are not included in SI 531B, the engineer's estimate would be \$4,531,688.65 and Northern Improvement Company remained the low bidder with a bid of \$4,163,214.81.

The bid summary for all units and the bid summary excluding Units 8 and 11 are attached. The project budget will be distributed prior to the Commission meeting.

PART A (78 Blocks Roadway Maintenance and 2 Blocks Alleys)

Unit No. 1

Buckskin Avenue – Longhorn Drive to 130' east
Eagles View Lane – High Creek Road to Cul-De-Sac
Eagles View Place – Eagles View Lane to Cul-De-Sac
High Creek Road – Valley Drive to 80' south of Eagles View Lane
Longhorn Drive – Valley Drive to 135' south of Saddle Ridge Drive
Mustang Drive – Valley Drive to 575' east
Saddle Ridge Road – Longhorn Drive to Cul-De-Sac
Valley Drive – 30' south of Stagecoach Circle to 120' south of Longhorn Drive

Unit No. 2

Valley Drive – Tyler Parkway to 209' west of Mesquite Loop (W)

Unit No. 3

9th Street – Capitol Avenue to Central Avenue
11th Street – Capitol Avenue to Divide Avenue
Constitution Drive – 9th Street to Central Avenue
Central Avenue – 9th Street to Owens Avenue
Owens Avenue – 9th Street to 11th Street

Unit No. 4

Mandan Street – Cherokee Avenue to Sioux Avenue
1st Street – Mandan Street to Sioux Avenue
Meredith Drive – Divide Avenue to Arikara Avenue

2nd Street – Divide Avenue to Arikara Avenue
Apache Street – Divide Avenue to 2nd Street
Mohawk Street – Divide Avenue to Teton Avenue
3rd Street – Divide Avenue to Boulevard Avenue
Osage Avenue – Washington Street to Meredith Drive
Cherokee Ave – Washington Street to Meredith Drive
Teton Avenue – Meredith Drive to 4th Street
Cheyenne Avenue – 2nd Street to 3rd Street

To whom it may concern,

We are writing to protest the street repair/resurfacing of the streets along Valley Drive from Longhorn to Ash Coulee.

We live on the corner of Longhorn Drive and Valley Drive and had several weeks last summer of congestion and they tore up both Valley Drive and bottom of Longhorn Drive to resurface after running the utility lines from the park.

I drive that section of street every work day and don't feel that it is full of pot holes or any worse than many of the newer subdivisions out west on Ash Coulee. There are many streets heading downtown which are much worse with pot holes and dips.

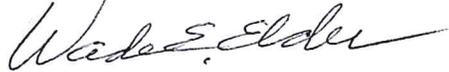

Especially during this time when we are facing a state of emergency due to the CVD-19 crisis, many families are not going to be able to afford their house payments, much less added on specials assessments for repairs that are not necessary right now.

I really think the city needs to look at areas which are in much greater need of street repairs and repair those while keeping in mind that we are all encouraged to be fiscally responsible until we know how long this health crisis is going to last.

Sincerely,

Susan and Wade Elder
920 Longhorn Drive

Michael and Jaycee Urbanec
4104 East Valley Drive
Bismarck, ND 58503

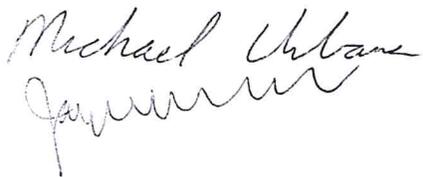

MAR 16 2020

To Whom this may Concern,

The City Engineering Department has determined that road work needs to be done to areas around Valley Drive. This is a major road that people use to drop off and pick up their children from Horizon as well as take their kids to the New Generations Park. The New Generations Park had the ice rink and splash pad added recently and now people can host birthday partys at this park. We have so many people using this road because of this and Valley drive is now a major artery road in Bismarck and because of this I don't feel it is appropriate to assess a special assessment on this road. This should be covered by the city of Bismarck and the improvements for this road are not health related so I am protesting this improvement to Valley Drive.

Respectfully,

Michael and Jaycee Urbanec

Street Improvement District No. 531

City's Fiscal Services Office

221 N. 5th Street

Bismarck, ND 58501

To whom it may concern:

I am in protest of the proposed street maintenance project for street improvement district No. 531. The street is not currently in actual need of repair to the level of significance described within the received notice.

Additionally, the maintenance of the street should be maintained by the city utilizing property tax.

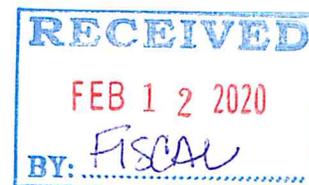

This protest is regarding district SI531, Unit 1.

Thank you.

Timothy and Autumn Smith

To: Bismarck City Engineer, Gabe Schell, PE

Subject: Proposed Tax Increase for Street Repairs, 1908 Valley Drive, Darrin and Denise Anderson, S1531, Unit 2

We understand that your office recently sent out letters inform us and our neighbors that you intend to raise our taxes to improve the street in front of our houses.

Our property is located at 1908 Valley Drive, Bismarck, ND, and we agree, that our street needs improvement, but would suggest to you and your office that the city needs to impose taxes on those responsible for the denegation of our street, which is not necessarily those persons living on our street.

Tire size and axle weights of homeowner transportation, located at our address or those of our neighbors, does not support the idea that we are the ones that are responsible for the degradation of Valley Drive, and should be solely responsible to shoulder the costs of repairing our street. The proposed tax increase should be imposed on those whose use of our road led to its degradation.

As you (a PE) should know, the moment of force created by light vehicles driven by homeowners in our neighborhood had limited impact regarding those damages incurred. Rather it was the construction vehicles, driven by contractors that have been building on Promontory Point for the last seven years. In particular cement trucks, trucks hauling large loads of lumber, and trucks hauling construction equipment would have been those vehicles that created a moment of force that exceeded the capacity of the road's surface structure to support.

For the past six years we have not once seen any municipal official slowing down construction vehicles (which increase moment of force) or weighing axle weight of construction vehicles.

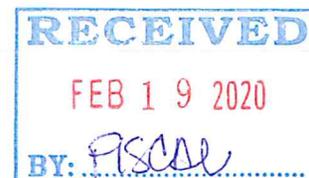

The demand for construction on Promontory Point was the reason why construction vehicles were traveling our street, so the tax should have already been an implied responsibility of those that employed construction workers traveling this street; homeowners on Promontory Point.

As we have outlined, neither our household nor our local neighbors should be the only households taxed for these street repairs, rather these proposed taxes should be expanded to include those persons that are responsible for these damages, which are those persons that either directly or indirectly employed contractors to travel our street and now own property on Promontory Point. To include homeowners of property located on Promontory Point would more accurately align fair use and wear and tear with taxation.

Respectfully,

Darrin Anderson

April 2, 2020

To Whom this may concern.

I - (Marla D Leno) live at 909 E. Central Ave, Bismark, ND 58501. (S1531-unit 3)

I am protesting the street improvement that was posted in the Bis. Tribune.

I have had several different hardships in my life the last 2 years. My husband passed away in August of 2018. And then last June 2019 my hours at my job were decreased from 40hr to 32hr a week.

I just can't afford the \$2400⁰⁰ to \$3300⁰⁰ + other add ons should it be necessary. My Burleigh County Taxes had gone way up this last time and that was hard paying those. Can't afford another increase on those.

Thank you for letting me protest This.

Sincerely,

Marla D Leno

To Whom It May concern,

My name is Jordan Peterson. My wife and I own a house at 213 Teton Avenue.

My daughter lives there and last summer was a mess what with work in the street, pipes lying on the ground, and trees being removed. We really don't need another summer of that so soon.

Therefore I have written to protest!
Your attention would be appreciated.

Sincerely,

Jordan Peterson

2/19/2020

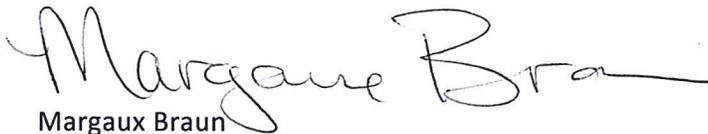

Board of City Commissioners
City Engineering Department
221 N 5th St.
Bismarck, ND 58503

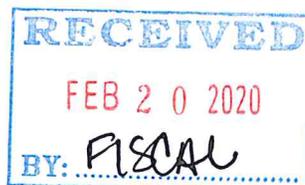

Dear Board of City Commissioners:

I would like to protest the street improvement project proposed for our home. The home address is 202 Teton Avenue, and the district number and unit are SI531, Unit 4. We are protesting the project because of the inconvenience experienced last summer/fall and the cost. The cost of special assessments has been very large in our time owning the home (currently a rental), in fact they have been much larger than our personal home. We have had continued special assessments at this property and are hoping that the proposed project is eliminated, delayed, or that another bid is pursued.

Please let me know if you have any questions or concerns. I may be contacted at (970) 988-4686 or margaux.braun@yahoo.com.

Thank you,

Margaux Braun

Re: Street Improvement District No. 531
Proposed Street Maintenance Project

To Whom It May Concern,

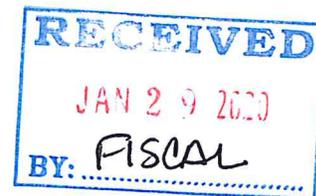

I am writing in response to a letter I received which outlines a proposed street improvement project in my neighborhood and would affect my property at :

1211 N Mandan St.

While I certainly understand the need to maintain and improve our city streets as well as the burden we as property owners saddle for our localized roadways; I do not see the need for improvements to the streets in question at this time. I see roads in much worse condition in Bismarck on a daily basis and the proposed improvements at this time seem fiscally irresponsible and unnecessary. I also find the timing very unfortunate as our neighborhood spent most of the 2019 summer patiently dealing with the city's water main project. Thank you for your consideration of my viewpoints as you move forward with this process.

Sincerely,

Benjamin M Aull

Bismarck City Engineering Dept.
221 N 5th St
Bismarck, ND 58501

Dear Engineering Dept.,

I am writing this letter to you because I am against the special assessments 531 this is being assigned to Unit 4.

I am against this special assessment because our household is on a fixed income and cannot afford the specials. This would put a strain on our household, and we would not be able to afford special assessments being added to our neighborhood. Also, I am asking to delay this project until 2021 because of the pandemic that is currently happening in our country and not wanting it to spread more in a mostly elderly neighborhood.

I suggest that you and the city find other resources to fulfill this project. These could include Bismarck Transit paying more than their fair share do to them using the roads more than anyone else. Or another possible suggestion would be taking out of the Prairie Dog Fund, Commissioner Funds or any other type of funds the city may have.

Sincerely,

Gary Roller

Gabe Schell, City Engineer
Bismarck Engineering Department
221 North 5th Street
Bismarck ND 58501

Dear Mr. Schell,

I received your recent letter regarding a possible special assessment on my property on Sioux Avenue. I would like to submit this letter as a protest against the special assessment. Although your letter contains no address to send the letter of protest, I am hoping this will get to you.

I do not believe that the road on Sioux Avenue is in need of repair. The only damage that has been done to it was by the contractors who worked on our street last year. Yesterday I was on 2nd street just north of Arrowhead and that road is completely full of deep holes and is very much need of repairs but our street does not need repair. Most of the residents on this street are elderly and certainly cannot afford a special assessment when it is not needed.

If there is anything else I need to do in regard to this protest, please let me know.

Subject: Formal submission of protest of SI-531 2020

Good afternoon.

I am writing to protest the Street Improvement Asphalt Re-Surfacing project SI-531 2020.

My name is Brandon Clayson and am homeowner at 113 Sioux Ave. 58501. Phone # 701.516.7034

I don't find a resurfacing project necessary at this time. In our area of the proposed project, we do not have evident potholes or rough roads that warrant improvement especially in consideration of the low volume of traffic (not thru-street) and slow speeds vehicles drive at on these roads. Some sections of road have been pulled out due to the recent water pipe replacement project, but these areas have been rebuilt and surfaced by the contractor.

Thank you for your consideration.

Brandon Clayson.

Subject: PROTEST Street Improvement Dist. 531 Unit 4

PROTEST COST TO HOMEOWNER

SI 531 UNIT 4

MARY LADUKE
1327 MEREDITH DRIVE
BISMARCK, ND 58501

I moved to this residence in June of 2007. I should be paid to live here. It is a very busy street.

When part of Washington St. was repaired in 2011, every truck with concrete removal contents went past my house on their way to Divide. I cringed at all that weight on my little street. I had my blinds closed that whole summer of 2011. The Detour route also went past my house and people from out of town would ask me for directions to get to certain places. It was hell.

During the summer of 2019, the city water department used my residence and the residences of my neighbors on either side to park their equipment which included culverts, back hoes, golf carts, a big pepsi truck, and various other motorized vehicles. I called it the water department's playground. They zipped in on their back hoes and out all day long. We were the keepers of their equipment. I won't even go into the porta potty story. Yes, we were nice guys, but shouldn't there be some compensation?

The huge church, Good Shepherd, is across the street. They bring in a lot of traffic for their services, funerals, weddings, and Wednesday youth night.

Drivers will often turn off of Washington St. onto Osage and then past my house on the way to Divide, just to avoid the lights at Washington and Divide. Even gigantic fire trucks, not on a service call, will do that.

Because the wear and tear on my street is VERY ABNORMAL, not the wear and tear of an average street, I am protesting the cost to me, the homeowner.

I would appreciate being exempted from the special assessment because the city has used my street for its projects which have caused nearly all of the deterioration.

Sincerely,

Mary LaDuke
1327 Meredith Drive.

Reference: Special Assessment
District S1531 Unit 4

My property address: 1111 North 1st Street, 4A

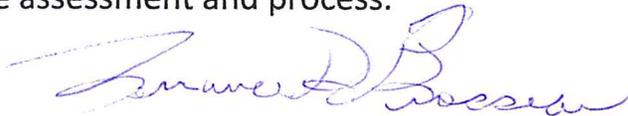

Plaza Towers probably has 100 to 150 feet of property bordering North First Street.

Your information indicates that private property will be assessed on a "parcel basis". I am not sure what that means but assume that it means "every condo" will be assessed on the same basis as each home owner that has 75 to 100 feet bordering the street in the proposed assessed area.

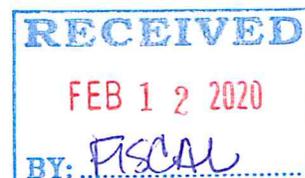

In other words, 40 condos in Plaza Tower will **each** be assessed approximately the same as each house with 75 to 100 feet frontage, even though, all of Plaza Tower has street frontage equal to one or two houses. **THIS IS NOT A FAIR ASSESSMENT.**

Plaza Tower has several residents who are retired; on fixed incomes and many choose this living concept in order to reduce living costs such as special assessments.

If this "parcel assessment concept" is what I have described, I vigorously oppose the assessment and process.

Project: Unit 5 - Improving the Alley
adjacent to property by paving
the gravel surface with Asphalt.

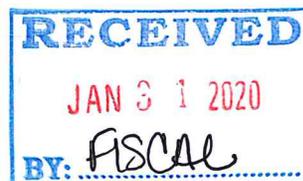

1. I say NO -

2. I've lived at 1200 N 4th for over
25 yrs and I see the Alley once
a week, to take out the
garbage. The garbage truck
comes once a week 52 time
a year. It drives well on the
gravel road.

3. The Maintainer - Grader Plow comes
by to remove snow, push
gravel in place - GOOD to go.

4. Slows Speeders (car going to fast)
down on gravel road. Asphalt

Bismarck, ND 58501

(2)

1-31-20

4. cont.

Surface makes road smooth for picking up Speed. Gravel Roads slows the speed of the driver.

5. Asphalt Roads have huge costs.

Weather - Winter + Summer in North Dakota will crack, create pot holes on asphalt roads. During Summers the asphalt heats up and heavy loads will press down a track making asphalt weak on surface - repairs will cost money again, for all homeowners.

6. The water main, sewer system, gas line, Phone + Electric lines are all below the gravel Road. When any one of the systems breaks down it is easy to repair or fix.

A. Dig in area of repair.

B. Close gravel hole when repair has been made

W

Geraldine Wald
1200 N. 4th St.
Bismarck, ND 58501

(3)

1-31-20

6. cont

C. Place a little gravel on surface
and pack it down.

D. Project of repair is done. The
repair bill to Homeowner only.

7. There has been a lot of repairs
of water breaks over the years.

Next month February 2020.

There will be work on the
Sewer System which is located
in the Alley, Unit 5. Why
would I want an Asphalt Alley
when ~~as~~ I as a property owner
never use alley way to drive on?

8. Gravel VS Asphalt

I was raised on a Dairy/Grain
farm. We had Combines, heavy
grain trucks, Tractors etc.

Gravel on these roads have
lasted over 100 yrs!

Thank you
Geraldine Wald

February 14, 2020

To Whom It May Concern:

I, Richard Neigum, am writing to protest the proposed special assessment project that will affect my property, SI531, Unit 5. I have lived at 1216 North 4th Street, Bismarck ND 58501, since 2007 and to propose "paving" the alley adjacent to my property seems to be a waste of resources for many reasons.

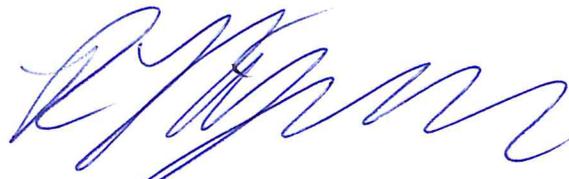

The alley is a high traffic area and the pave work that would be done I'm sure will not hold up, judging by how the pave work holds up in other parts of town. Maintaining the gravel road with routine fills/sanding/grating is more important. The expense of that verse paving I'm sure is much more cost effective. The work that's recently done on 4th street in 2019 was very sloppy. The concrete curbing was executed poorly and there was damage done to our boulevard yard. I don't have very high expectations that the alley will be done better, in fact since it is not visible to many, it may even be looked at with less importance. If that is the kind of work they do by the prestigious capitol grounds, do you think they will do better job in an alley?

Heavy dumpster trucks run through the alley which will create more wear and tear on a paved surface. In turn there will be a constant upkeep of re-paving year after year, or much worse **NO UPKEEP** which will be most burdensome to the neighborhood. This type of activity will disrupt many homeowner's access to their garages/property.

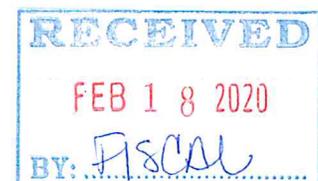

My largest concern is witnessing cars speeding through the alley which poses a huge risk to my 3 children, pets and others in the neighborhood. Having a paved alley will give drivers *even more* grounds to speed don't you think? Gravel roads typically make driver's travel slower which is safer for everyone living here.

I am very opposed to this specific work being done. I take pride in my property and favor improvements; however, they need to be done with common sense and executed with quality materials and workmanship.

Regards,

Richard Neigum

February 3, 2020

Bismarck Fiscal Services
P.O. Box 5503
Bismarck, ND 58506

I am sending this letter to officially protest the special assessment which is proposed for my area.

Name: Nickolas Lindvall
Property Address: 1401 N 23rd ST, Bismarck ND, 58501
District Number: SI531
Unit: 6
Signature: below

I do not feel that most of the work suggested is necessary. Most of it appears to be street resurfacing, when the streets in my neighborhood are in good condition. I admit there are a few problem areas but these are few and far between (patching seems more appropriate). I would suggest changing the proposed work to not include unnecessary resurfacing work.

I am in favor of repair/maintenance of the utilities, however since I cannot protest part of this assessment I must protest it completely.

Thank you,

Nickolas Lindvall

RE: Street Improvement District # 531

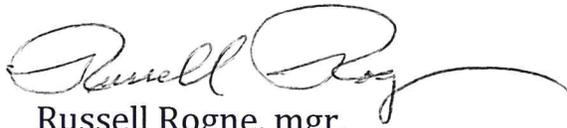

Dear City Engineer,

This letter is written to protest the above listed project for these reasons:

- 1) I don't think the repave is necessary.
- 2) The cost is extreme for my building.

Thank You,

Sincerely,

Russell Rogne, mgr.

Please select which department you would like to report a concern or issue to:: Engineering

Please give a brief description of your concern, issue and recommendation:: Street improvement Dt No 531
I want to protest the proposed work for this summer.

We do have some cracks ton our streets that are a concern, but not like some of the holes in streets where you feel like you could loose a wheel when you hit them!

Another point, the city has never come up our street to try and repair the cracks to prolong the life of the street. Why not?

I am not in favor of tearing up the street as a fix. Not to mention the added access meant cost to each home owner. Taxes are high enough.

Marion Houn

Unit #6 - DIVIDE AVE. Project

1. 2 years ago, tax payers voted to increase the sales tax to pay for "major" street projects. My questions is, why was the Divide Avenue project not included on the sales tax assessment? it's a major thorough fare used by thousands of vehicles per day.

Why place a major street project on the backs of a carved out area of owners called unit #6?

2. If residential property assessments are based on "per parcel" called frontage footage. how can you justify East Bluff Association paying up to \$52,800.00, when we have at best 90 feet to 110 feet of frontage on Divide Avenue?

Yet a single family residential unit on a street within unit #6 that may have 150 feet of frontage only pays \$3300.00

3. We now know Sleepy Hollow Park has a special assessment liability over \$200,000.00 related to the unit #6 project, based on square footage.

No one gets a free ride, that's fair. Yet, Eastbluffs share is based on per parcel (frontage) and has a liability of over \$50,000.00. ~~00~~ which

really comes to one fourth the amount Sleepy Hollow Park pays. Is this fair or just?

4. Should at anytime before February 25, 2020 you capitulate with Sleepy Hollow Park allowing a special assessment reduction, Eastbluff

will strongly demand an equal reduction!

5. Should everything move forward with no changes within unit #6. it will be the position of the Eastbluff owners based on the fact we receive no

public works services, we have very limited frontage facing E. Divide Ave., that as individual owners we're assessed at the lowest

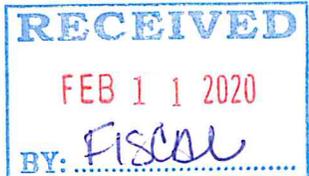

level outlined in the letters we each received dated January 17, 2020.

RE: **For Property Address: 615 N 7th St.
Street Improvement District No. 531
(SI531, Unit7)
Proposed Street Maintenance Project**

Dear Engineering Department,

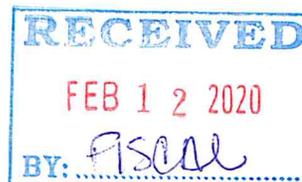

I am writing to object the **Proposed Street Maintenance Project** that my property is currently adjacent to an alley that is requiring maintenance. This objection is based on several important factors that I hope the Engineering Department will take into consideration.

Firstly, I would like to express that I am not opposed to street maintenance repairs, overall it seems to be a great idea. However:

1. The cost of the project for this alley repair is way too high
2. The reconstruction would leave the adjoining driveways still in disrepair.
3. The alley is used for Commercial Business via Ronald McDonald House and the large volume of traffic created by that should absorb the majority of this upgrade project.

Sincerely,
Scott Kautzman

0020-043-040

Zent, Gary

To: City Of Bismarck
City Fiscal Services Office
221-N 5th Street

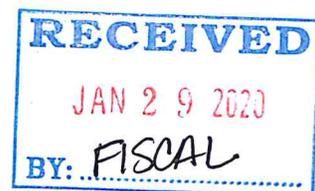

To Whom this may Concern:

My Name is Gary Zent and my wife and I own Property at 700- N 6th Street in Bismarck. I am writing in concern of the proposed District Improvement Project #SI531, unit 7 planned for this area. Our Property is on the west end of this improvement, specifically the resurfacing of E- C Ave, and I am opposed to this project. I am opposed as I see this Ave as not only an emergency route but also a lot of commercial traffic from people either traveling into or out of the downtown district. There is also a lot of traffic from the schools in the surrounding areas, as this is a major thoroughfare for people. At times with all this we cannot even park on the street here because it is always filled up with vehicles I believe because of the schools and businesses downtown for people to park and walk to work. Because of this reason we had to install a driveway on our Property to park off the street, as we enter and exit from the alley, and with this traffic and the busy Avenue it can be challenging at times.

In conclusion, we are against the special assessment plan, and we feel if and when improvements are made to this avenue the special assessments should also include the downtown areas as well as the people whom have children attending the nearby schools, and not be passed on to just the adjacent Property Owners. Thanks for your time.

To whom it may concern,

I am submitting this protest letter on or before the deadline of 5 p.m., April 8, 2020.

I protest the street improvement project SI531 Unit 8 because this project places an unfair burden on the property owners whose properties merely touch Washington Street vs. the many hundreds or thousands of drivers from other properties who benefit much more greatly as an overall percentage of drivers on the street.

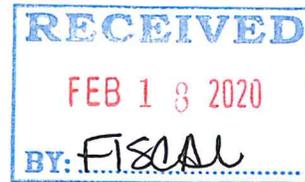

Sincerely,

Sharon Baennise

SI531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

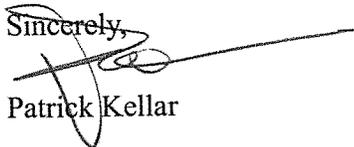

- 1) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
 - In a 2017 report from the US Dept of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home - it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc).
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in **Exhibit 3**, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (Washington Street and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem - a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.
 - In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought "feedback from our South Bismarck

residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street - 97.3% of drivers from outside of Unit 8 to be exact.

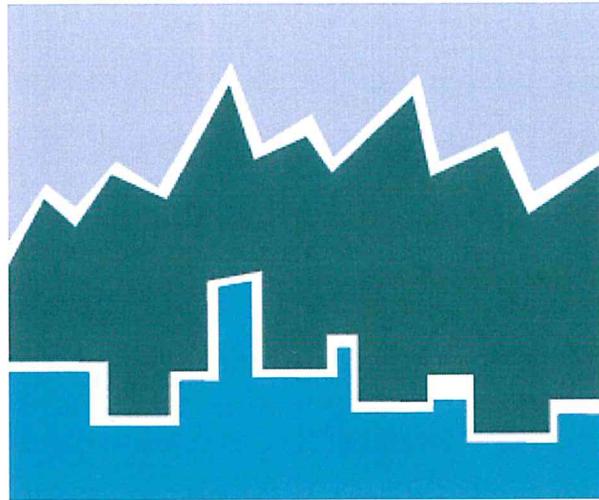

- 2) As noted on the water and sewer mockup in **Exhibit 5**, my home at 303 Easy Street has water and sewer lines connecting to the main lines on Easy Street - not to Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street - just like mine - which also connects to the water and sewer lines on Washington Street.
- 3) Lastly, during the Bismarck flood of 2011, the city suspended restrictions on south Washington Street to allow for dozens of National Guard heavy equipment vehicles to make hundreds of trips with tons of material in the effort of dyke building. And, while I am grateful for the effort that saved thousands of people’s homes, it is a certainty that decision by the city to allow the equipment led to the early demise and destruction of the street and that all of those homes that were spared benefited from that, not just properties touching south Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

Patrick Kellar

Summary of Travel Trends

**2017 National Household
Travel Survey**

U.S. Department
of Transportation

**Federal Highway
Administration**

Exhibit 1

The 2017 NHTS obtained larger households with more workers compared to the 2009 survey, possibly because the 2017 address-based sample included about 45 percent cell phone only (CPO) households, which are more likely younger and working. CPO households were not included in the sample in 2009 (see Appendix B).

The data series in Tables 2a and 2b show that over the last five decades, American households acquired more vehicles and drivers. In the United States in 1969, there were as many vehicles as workers. By 1990 and continuing to the present, there are as many vehicles as drivers.

As average household size has stabilized, average vehicles per household, licensed drivers per household, and workers per household have all remained rather stable over the last decade or so.

There are important differences between the census regions listed in Table 2b (the states in each census region are listed in Appendix C). The West continues to have the highest household size, vehicle ownership, and driver rates in the country. The Midwest has smaller households on average, and fewer workers per household. The Northeast has fewer vehicles and drivers per household.

Table 2a. Major Travel Indicators by Survey Year

Major Travel Indicators by Year								
Travel Indicator	1969	1977	1983	1990	1995	2001	2009	2017
Persons per Household	3.16	2.83	2.69	2.56	2.63	2.58	2.50	2.55
Vehicles per Household	1.16	1.59	1.68	1.77	1.78	1.89	1.86	1.88
Licensed drivers per Household	1.65	1.69	1.72	1.75	1.78	1.77	1.88	1.89
Vehicles per Licensed Driver	0.70	0.94	0.98	1.01	1.00	1.06	0.99	1.00
Workers per Household	1.21	1.23	1.21	1.27	1.33	1.35	1.34	1.33
Vehicles per Worker	0.96	1.29	1.39	1.40	1.34	1.39	1.39	1.42

Note:

- 1990 NPTS data were adjusted to make them more comparable with later surveys.
- 2001 NHTS sample included children 0 to 4 in the survey. The data shown here exclude them to be comparable with other survey years.
- 2009 NHTS sample did not include households without landlines telephones (CPO households).
- 2017 NHTS sample was address-based and included more urban and CPO households. This and other methods changes in the data series are outlined in Appendix B.
- In 1969, household vehicles did not include pickups or other light trucks.

Table 3b. Summary of Person Travel Statistics

Survey Year:	Person Statistics					
	Daily Person Trips per Person	Daily PMT per Person	Daily Vehicle Trips per Driver	Daily VMT per Driver	Average Person Trip Length (miles)	Average Vehicle Trip Length (miles)
1969	2.02	19.51	2.32	20.64	9.67	8.89
1977	2.92	25.95	2.34	19.49	8.87	8.34
1983	2.89	25.05	2.36	18.68	8.68	7.90
1990	3.76	34.91	3.26	28.49	9.47	8.85
1995	4.30	38.67	3.57	32.14	9.13	9.06
2001	4.09	36.89	3.35	32.73	10.04	9.87

2017 adj.		38.98		28.49	11.57	10.53
2017 adj. MOE		1.41		1.16	0.41	0.42

Note:

- 1990 NPTS data were adjusted to make them more comparable with later surveys.
- 2001 NHTS sample included children 0 to 4 in the survey. The data shown here excludes them to be comparable with other survey years.
- 2009 NHTS sample did not include households without landlines telephones (CPO households).
- 2017 NHTS sample was address-based and included more urban and CPO households. This and other methods changes in the data series are outlined in Appendix B.
- Household VMT and PMT "adjusted" includes estimates of miles in all vehicles, including "18" Rental Car.

National Household Travel Survey Daily Travel Quick Facts

Daily Travel is a trip from one point to another on a single day. = Trip

HOW WE TRAVEL

- 87 percent of daily trips take place in personal vehicles
- 91 percent of people commuting to work use personal vehicles

HOW MANY TRIPS WE TAKE EVERY DAY

- Americans take 1.1 billion trips a day — four for every person in the U.S
- U.S. daily travel averages 11 billion miles a day — almost 40 miles per person per day

HOW MANY TRIPS WE TAKE IN A YEAR

- Americans take 411 billion daily trips a year or about 1,500 trips per person
- U.S. daily travel totals about 4 trillion miles — 14,500 miles per person

WHY WE TRAVEL

- 45 percent of daily trips are taken for shopping and errands
- 27 percent of daily trips are social and recreational, such as visiting a friend
- 15 percent of daily trips are taken for commuting

WHAT WE DRIVE

- There are 204 million personal vehicles available for regular use
 - 57 percent are cars or station wagons
 - 21 percent are vans or SUVs
 - 19 percent are light trucks

WHEN WE TRAVEL

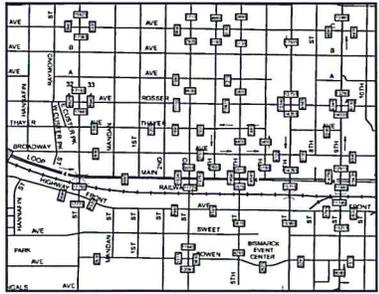

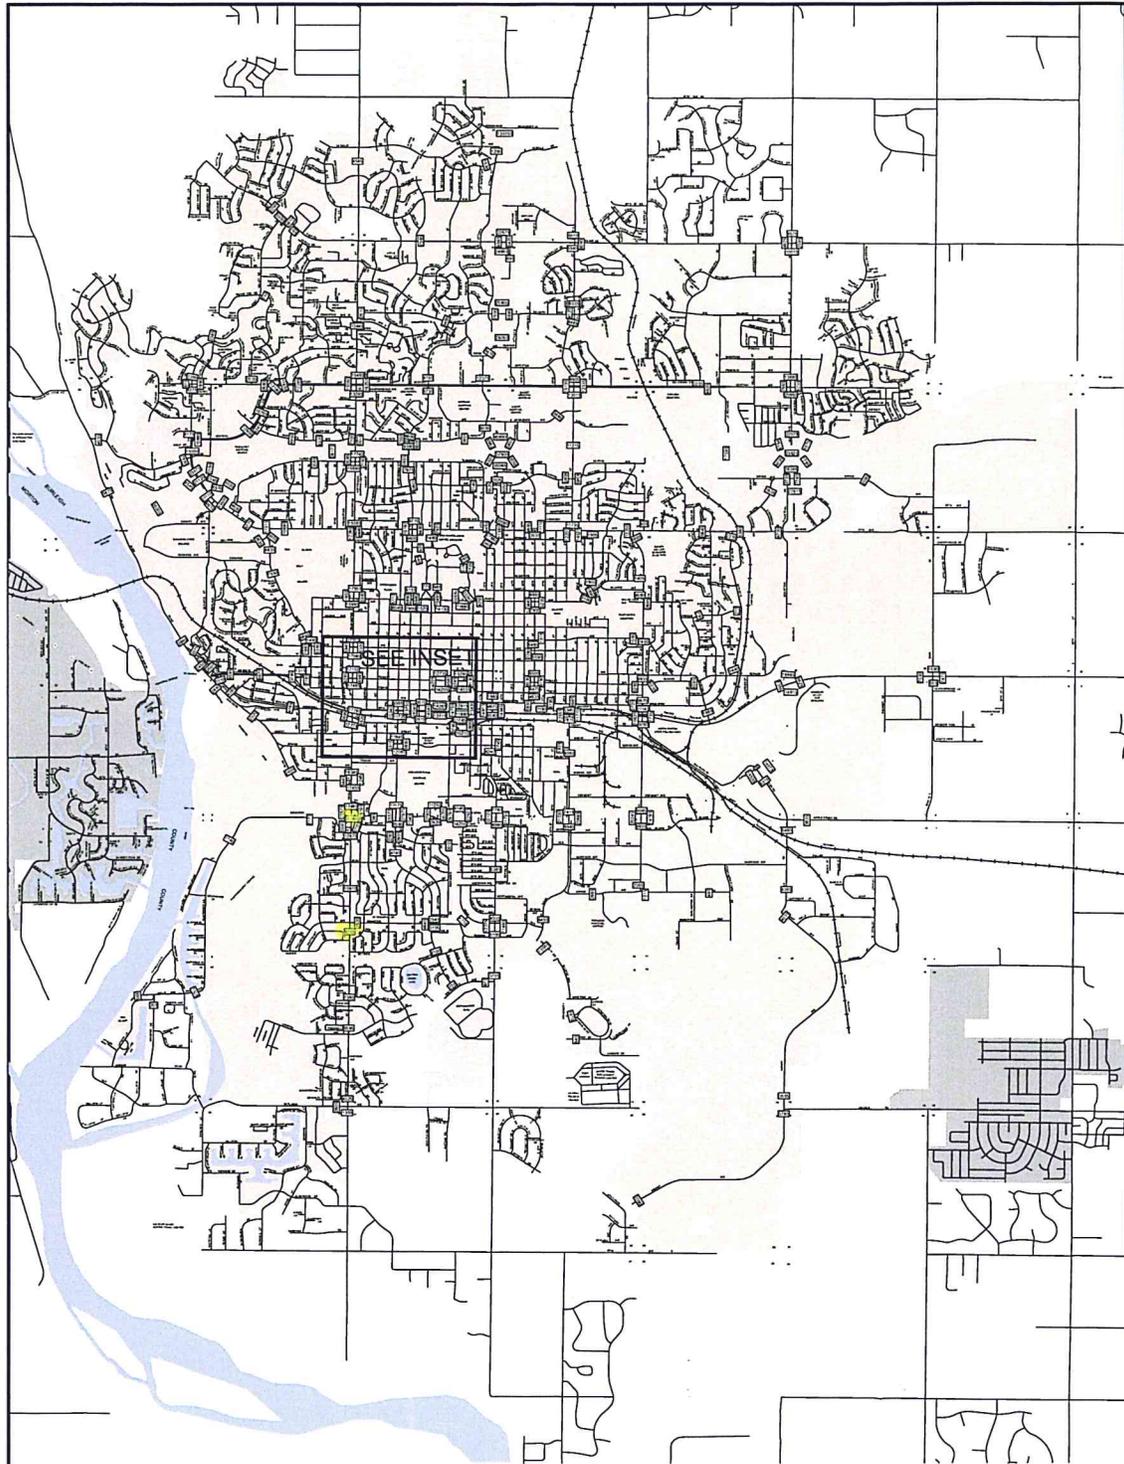

- The most daily trips are made on Friday (16 percent)
- The fewest daily trips are made on Sunday (13 percent)
- More daily trips are taken between noon and 1 p.m. (7.4 percent) than between 8 a.m. - 9 a.m. (5.5 percent)

THE AVERAGE DRIVER

- Spends 55 minutes a day behind the wheel
- Drives 29 miles a day

MEN VS. WOMEN

- Women drive less (21 to 38 miles per day)
- Men drive longer (67 to 44 minutes per day)

Looking for some feedback from our south Bismarck residents. On Tuesday the idea on changing the lane configuration on Washington Street from the drainage ditch to Expressway was proposed. I have my opinions, but would love to hear yours.

South Washington Street from Bismarck Expressway to the south Bismarck drainage ditch is recommended to be reconfigured to a "Two Way Left Turn Lane (TWLTL)" which will consist of one 12'-lane in each direction for north/south through traffic along with a center left turn lane for left turning traffic. The reconfiguration of lanes will not reduce the roadway capacity. The center left turn lane creates a refuge for left turning traffic and potentially reduces rear end crashes. The remaining 6-feet on each side of the roadway would be signed as a "share the road" bicycle facility. These bike facilities would provide a link between the existing trail paralleling Bismarck Expressway and the trail on South Washington Street beginning at Wachter Avenue. Since there is no existing parking on Washington Street, there would be no impacts to parking.

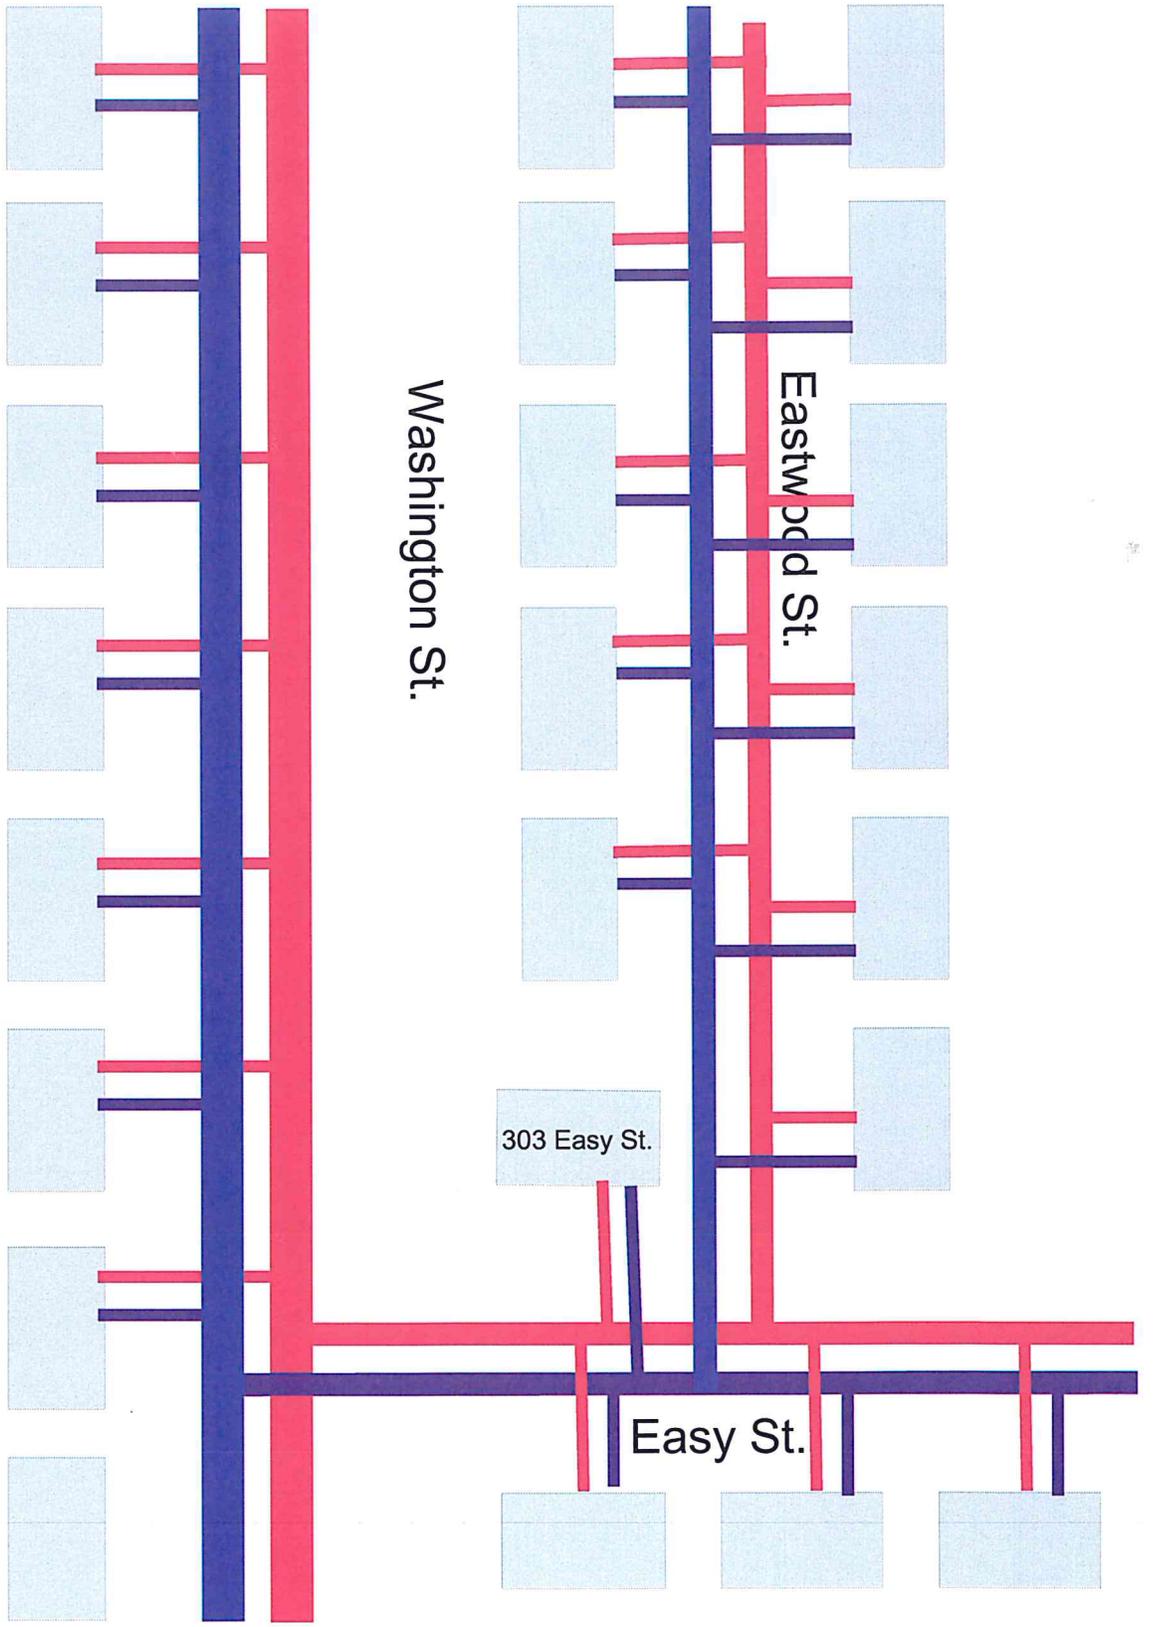

The following figure graphically displays the the project area and its proximity to existing multi use facilities. Please note that there are no changes to any parking restrictions along South Washington Street between Bismarck Expressway and Wachter Drainage Ditch.

Letter of Protest to project in district
SI 531 unit 8.

Hello,

I have received a letter from the city stating their plans for both road work and utility, water, and sewer work. I believe that the city is unfairly assessing special balance for this proposed project.

If this project is done many more people will benefit than the people who will be responsible for paying for the project.

I would like to see a broader scope of residents assessed for this project. I live at 307 Willow Lane and will receive the same benefit as other homeowners living on a side street to South Washington.

Because South Washington is a main access route for everyone from the river to 3rd St and expressway South I feel the special balance should be shared by all residents, not just those who adjoin Washington.

Helen Stark
1309 Eastwood St.
Bismarck, ND 58504 *SI 531, unit 8*

To Whom It May Concern:

I am writing this letter to protest the street improvement project of Unit 8. As such, I am submitting my protest for the following reasons:

1. A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
 - In a 2017 report from the US Dept. of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. Vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept. of transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (the intersection of Washington St and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents

0497-022-006

a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.

- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97% of drivers from outside of Unit 8 to be exact.
2. As noted on the water and sewer mockup in **Exhibit 5**, my home at **1309 Eastwood St.** has water and sewer lines connecting to the main lines on **Easy Street** – not to Washington Street. Therefore, as water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. Vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept. of transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (the intersection of Washington St and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents

#0497-022-008

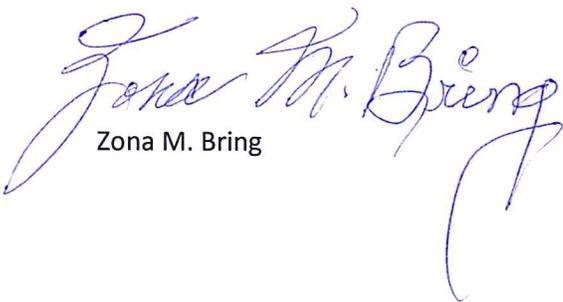

a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.

- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97% of drivers from outside of Unit 8 to be exact.
2. As noted on the water and sewer mockup in **Exhibit 5**, my home at **1313 Eastwood St.** has water and sewer lines connecting to the main lines on **Easy Street** – not to Washington Street. Therefore, as water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

Zona M. Bring

Janice Bond
1317 Eastwood St.
Bismarck, ND 58504 *SI 531, Unit 8*

To Whom It May Concern:

I am writing this letter to protest the street improvement project of Unit 8. As such, I am submitting my protest for the following reasons:

1. A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
 - In a 2017 report from the US Dept. of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. Vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept. of transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (the intersection of Washington St and Billings). Feb. 17, 2020

Jeremy Fonkert
312 W. Reno Ave
Bismarck, ND 58504

51531, Unit 8

To Whom It May Concern:

I am writing this letter to protest the street improvement project of Unit 8. As such, I am submitting my protest for the following reasons:

1. A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
 - In a 2017 report from the US Dept. of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. Vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept. of transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (the intersection of Washington St and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents

#0497-022-014

a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.

- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97% of drivers from outside of Unit 8 to be exact.
2. As noted on the water and sewer mockup in **Exhibit 5**, my home at 312 W. Reno Ave. has water and sewer lines connecting to the main lines on Easy Street – not to Washington Street. Therefore, as water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

Jeremy Fonkert

Jennifer Otto
316 W. Reno Ave
Bismarck, ND 58504

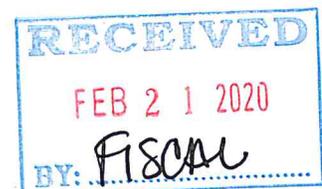

51531, Unit 8

To Whom It May Concern:

I am writing this letter to protest the street improvement project of Unit 8. As such, I am submitting my protest for the following reasons:

1. A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
 - In a 2017 report from the US Dept. of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. Vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept. of transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (the intersection of Washington St and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents

#0497-022-016

a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.

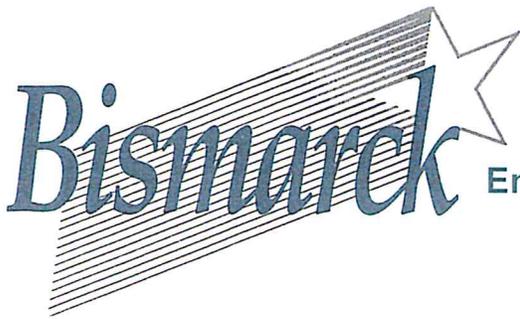

- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97% of drivers from outside of Unit 8 to be exact.
2. As noted on the water and sewer mockup in **Exhibit 5**, my home at **316 W. Reno Ave.** has water and sewer lines connecting to the main lines on **Easy Street** – not to Washington Street. Therefore, as water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

March 5, 2020

Re: Street Improvement District No. 531
Proposed Street Maintenance Project

Dear Property Owner:

In January 2020 you were sent a letter explaining that the Board of City Commissioners (the Board) had created a special assessment district consisting of nine units for a street improvement project which included property owned by you. The letter also outlined the estimated cost for your property, the special assessment process including information on protesting the district and a public hearing.

Although insufficient property owner protests were presented to the Board, they initially elected not to approve the Resolution of Necessity as required by ND Century Code where special assessments are used to fund the project. At a subsequent meeting, the Board authorized a new Resolution of Necessity and called for a new public hearing on this project.

The new Resolution of Necessity will be printed in the Bismarck Tribune on March 9th and March 16th which will start a new protest period for this district. All previously submitted protests will be honored and no additional documentation will need to be provided. The protest period for this project will expire on April 8, 2020 at 5:00 pm. The Board of City Commissioners will conduct a public hearing at their meeting scheduled to be held at 5:15 pm on Tuesday, April 14, 2020.

Additional aspects of the proposed street improvement district communicated in the letter you received in January are still valid with the exception of the dates of the public hearing which has been updated in this letter.

We apologize for any confusion this may cause. Please direct questions you may have to the City Engineering Department at 701.355.1505 or bisengd@bismarcknd.gov. A list of frequently asked questions may be found at <http://www.bismarcknd.gov/streets>.

Sincerely,

BY: _____

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

- 1) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.

 - In a 2017 report from the US Dept of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home - it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc).
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in **Exhibit 3**, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (Washington Street and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem - a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.
 - In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought "feedback from our South Bismarck

#0497-024-014

residents" regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street - 97.3% of drivers from outside of Unit 8 to be exact.

- 1421 Eastwood St - your street ← your address
- 2) As noted on the water and sewer mockup in Exhibit 5, my home at [REDACTED] has water and sewer lines connecting to the main lines on [REDACTED] - not to Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street - just like mine - which also connects to the water and sewer lines on Washington Street.

In conclusion, the city's use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

1421 Eastwood St.
Bismarck, N.D. 58504

Your property is among those being asked to pay for **43% of the cost** on a road improvement project where assessed dwellings only have **4% of the total use**

This letter is to urge you to submit a letter of protest regarding the Washington Street improvement project about which the city recently sent you notification. The reason I urge you to do so is due to the excessive proportion of funding being expected from the homeowners located along Washington Street in what has been designated as “Unit 8” of the 9-unit street improvement project.

Our goal is to have 100% of the residents who are in “Unit 8” protest this project.

According to supplemental information requested from the city, homeowners located within the Unit 8 project area will be responsible for \$640,000 of the estimated \$1.5 million project specific to Unit 8, or 43% of the estimated project cost. You will be responsible through paying special assessments on your property. (The remaining 57% will come from city sales tax and the city's 'special deficiency' fund; while that is appreciated, it is grossly insufficient). **This means only those property owners located on Washington Street in this Unit 8 project will be directly responsible for the cost.**

This percentage of cost that you are responsible for is very important because, according to average trip data from the Bureau of Transportation, the average household has an average total daily trip count of 8. For the estimated 92 dwelling units contained in Unit 8, this amounts to 736 trips per day.

Comparatively, the average daily traffic count on Washington Street, using 2016 data from the City of Bismarck, for the particular street section in question (from Bismarck Expressway to Billings Drive) has a high of 20,065 daily traffic count at the north end to a low of 9,255 traffic count at the south end. Accounting for dwelling unit construction between 2016 and 2019 for south Bismarck of an additional 6% growth per year, it can be estimated **the traffic counts have since grown by an additional 18% - so 23,676 and 10,921, respectively, (or, 17,299 vehicle passages on the street daily as an average).**

What this means is, although Unit 8 dwellings account for just 736 of the average 17,299 daily trips on the main arterial road of the Washington Street section in question (or 4% of the total traffic volume), it is being proposed to **task you with paying 43% of the cost of the improvement**. This is equivalent to asking farmers to pay for nearly half of highway road construction costs because their land happens to be located along a highway – even though they benefit only a tiny percentage of the use of the highway. Or, for you to pay for everyone’s groceries at the grocery store because your home is a home on a street by the grocery store.

Additionally, if main water and sewer lines are also replaced, **all of the homes in south Bismarck who have water and sewer lines that feed into Washington Street main lines benefit from the replacement** – not just the immediately adjacent property owners who are being proposed to carry the tax burden. In fact, many homes included in the Unit 8 project do not even have a Washington Street address – it is beside or behind their home and **their water and sewer from their home would NOT even be linked directly to the Washington Street main lines** – they would first connect to the main water and sewer lines on the residential street of their non-Washington Street address, meaning those homes do not **directly benefit** from water and sewer construction any more than the homes across the street from you who are NOT included in the responsibility of the special assessment.

In the city's notice to you explaining why only homes on Washington Street are solely bearing the direct expense via special assessment, the answer to Question 7 of their frequently asked questions section reads: “Special assessments are used to fund street improvement projects so that the benefitting properties pay for the cost of improvements.”

As noted, this project does not meet their criteria of special assessment as only the properties touching Washington Street are burdened with paying for 43% of the costs yet those homes collectively only receive 4% of the street's benefit – the vast majority of the benefit of that street serves the 96% of other property owners using the main arterial street who then attribute a much larger burden of wear and tear on the street, in addition to all south Bismarck homes who have water and sewer lines feeding into the main line on Washington Street,

and therefore the cost should be adjusted accordingly to be proportionate. **Putting 43% of the cost on only the properties who abut Washington Street is a grossly disproportionate application of special assessment.**

In any case, it's clear the city must acknowledge it does not treat the street as a traditional residential street worthy of special assessment as the posted speed limit is 35 MPH – not the 25 MPH that residential streets should be. This street improvement project is timely since the city is also looking at altering the lane setup on Washington Street with the intent to deter the number of accidents. To deter the number of accidents, they need to address the root cause: The unfettered, excessive speed of drivers on the street. It will be important to include in your protest letter that if the city proceeds with a street improvement project on Washington Street, that **it would be negligent to not also implement controls to deter the issues of rampant speed on the street.** City police, a former mayor and other city officials have acknowledged that the straightaway design, along with a history of a lack of consistent speed enforcement, are main contributors to the speed problem on the street. It should also be noted that because the posted speed limit is 35 MPH, and because the city has a policy of allowing vehicles to travel up to 9 MPH over the speed limit before law enforcement is mandated to issue a citation – **this places an allowable speed limit on the street of 44 MPH.** Why is speed control important? If a pedestrian is hit by a vehicle at 20 MPH, they have a 90% chance of survival. At 30 MPH, there is a 50% chance of survival and at 40 MPH there is only a 10% chance of survival. Our homes reside in a residential area – there should not be Expressway speeds on a residential street.

The city's notice to you requires you to submit your written protest on or before 5 p.m., Feb. 20, to the Fiscal Services office on the 3rd floor of the City-County Building located at 221 N. 5th St. We recommend you hand deliver your protest to insure it does not get lost or delayed in the mail.

Please note: Your letter of protest must contain the your name, your property address, the district and unit (SI531, Unit 8), your signature and a statement of your protesting the district as presented.

Further, the Board of City Commissioners will also be conducting a hearing at 5:15 p.m. on Tuesday, Feb. 25, in the Tom Baker Meeting Room of the City-County Building at 221 N. 5th St.

Some final notes:

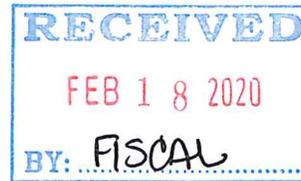

- **Speed complaints unaddressed:** If you have called the police department or a city council member in the past and complained about speeding drivers on Washington Street and are frustrated the city hasn't addressed this issue, please email me information about that – your full name and address, approximate dates when you called and/or number of times you've complained, names of police department officers or city council members you spoke with, etc.
- **Noisy muffler and/or stereo complaints unaddressed:** If you have called the police department or a city council member in the past and complained about noisy mufflers or noisy stereos on Washington Street and are frustrated the city hasn't addressed this issue, please email me information about that – your full name and address, approximate dates when you called and/or number of times you've complained, names of police department officers or city council members you spoke with, etc.

Please email information about speed and noisy muffler complaints you made in the past and felt went unaddressed to: aric.mcdonald83@gmail.com; this information will be compiled and used in future communication with city officials to address speed and noise issues on the street.

unable to deliver - I don't drive
I do not want - this improvement
we have too much traffic - to go to 2 lanes

S1531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, it was learned that property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

- 1) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined below, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7 % of the street's benefit.
 - In a 2017 report from the US Dept of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household X 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another within a day (24-hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip, etc.).
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (ex: the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in **Exhibit 3**, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington Street and Bismarck Expressway) to a low of 9,255 on the south end (Washington Street and Billings). Accounting for Bismarck annual dwelling growth of 6% from 2017 – 2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost, yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trips estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.
 - In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on January 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought "feedback from our South Bismarck residents" regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in

#0497-024-015

south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly large proportion of drivers outside of Unit 8 benefit from the street – 97.3% of drivers from outside of Unit 8 to be exact.

- 2) In addition, if main water and sewer lines are also replaced, all of the homes in south Bismarck – not just those in Unit 8 that are immediately adjacent property owners who are being proposed to carry the tax burden - who have water and sewer lines that feed into Washington Street main lines benefit from the replacement. Many of the residents in Unit 8 do not have a Washington Street address, nor are their water and sewer lines directly linked to the Washington Street main lines any more than other residents located outside of Unit 8.

In conclusion, the city's use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street. Please accept my letter of protest regarding the street improvement project of Unit 8.

Sincerely,

Lenora Woehl, Terry Woehl AL-Woehl
1435 EAST Wood St.
BISMARCK, ND 58504
SI531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

- 1) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
 - In a 2017 report from the US Dept of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home - it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc).
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in **Exhibit 3**, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (Washington Street and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem - a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.
 - In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought "feedback from our South Bismarck

residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street - 97.3% of drivers from outside of Unit 8 to be exact.

- 2) As noted on the water and sewer mockup in Exhibit 5, my home at 1435 EASTWOOD has water and sewer lines connecting to the main lines on EASTWOOD not to Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street - just like mine - which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

Jenoca Washl

Joan L. Weber

1206 Portland Drive

Bismarck, ND 58504

SI531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the City, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8.

A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. It is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.

Certain properties like mine have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

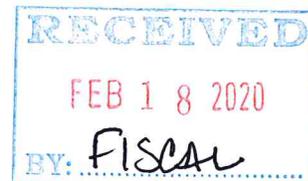

As such, I submit my protest.

Sincerely,

Joan L. Weber

RE: Street Improvement #531
Mary Schwede - 1249 S. Washington Street, Bismarck, ND 58504 - District #SI531 Unit #8

I would like to protest the Proposed Street Maintenance Project for South Washington Street in Bismarck ND.

Maintenance improvements were completed a few years ago with all of the the local residents paying for these at a rate of \$1500 - \$1800 per unit. I don't feel it is our responsibility to cover these improvements costs again. Washington Street is a very high traffic street used by many residents of the Bismarck Community.

Thank you for your consideration on this project.

Bismarck, ND

Gabe,

I am the owner of 1233 South Washington st. which is in the proposed Street improvement District No.531 Unit8. Please accept this as my protest to this project. I am not protesting the project, i am protesting to the manner in which this project will be paid. It is not equitable for the residents of this area to be liable for 100% of this project. Washington st. is a Major artery and would dare guess that most residents of Bismarck use this street. Bismarck has several of these streets and feel that they all should be looked as main arteries and the maintenance should be prorated and paid for by the entire cities residents. Residents living of these streets should pay their fair share. These streets are not unlike the Event Center, Airport, Court House, Police station , Landfill or another public facilities . WE as the public have access and use all of the facilities. There are many streets within the city that the majority of our residents have never driven or been on. Please revisit the expense breakout on this project on others throughout our city

Thank You

Re: Street Improvement Project, SI 531, Unit 8

I am writing in protest of the street improvement project of Unit 8. I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

- 1) Special Assessments are applicable to those properties that receive special benefits from the improvement. It is clear that the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit. Clearly this does not meet the criteria of Special Assessment. The vast majority of that street serves the 96% of other property owners using the main arterial street who then attribute a much larger burden of wear and tear on Washington Street.
- 2) We are retired and handicapped on a limited budget. A lot of the residents are retired as well and go south for the winter months. Why would this unit be singled out, when Washington Street is the main road of travel for all the housing developments in the area surrounding Washington Street? This street is traveled on a daily basis by not just the residents but others as well. There are thousands of people or companies using this street such as those attending a church across from our residence, parents taking children to a school nearby or daycare, school buses, Bismarck Transit/Cat Bus, large commercial trucks due to the ongoing construction in south Bismarck as well as snow removal by the City.
- 3) In addition, if water and sewer lines are being repaired or replaced, it would benefit all of south Bismarck whose water and sewer lines ultimately connect to the main water and sewer on our street. Not just the immediate adjacent property owners on Washington Street Unit 8, who are to carry the complete tax burden. Therefore, it should be adjusted accordingly to be proportionate. Not the 43% of the cost to those only on Unit 8.

0605-030-097

It is also my understanding that they want to make Washington Street a two lane left turn lane rather than a four lane street by leaving enough room on the side for a bike trail. From what I see there are not that many bicycles on our street to warrant this addition. Presently bicycles are utilizing the sidewalks which I feel is sufficient. Changing to a two lane would only slow down the traffic which is already over congested. Also who will be responsible for the cost of this project and the maintenance?

Lastly the street lights in this area are deplorable. It is so dark in the area, we miss our own driveway not to mention those who want to visit us. They took our street light down 4 to 5 months ago. After numerous calls to the city, we gave up....yet we are still paying for the street lights every month! Again we are paying for something that we don't have. There are Group homes on our block and elderly that may need emergency health services. They will be unable to see addresses which is very dangerous due to time restraints getting an ambulance to the correct address in a timely manner for a medical emergency. This is of a great concern to not only our family but others in the neighborhood.

James Christianson

1669 Cologne Dr.

Bismarck, ND

SI531, Unit 8

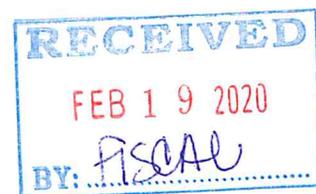

I am writing to protest the proposed street improvement project of unit 8. Living next to S. Washington ST it is obvious there would be way more residents benefiting from the repair. How would any of the residents living to the west of me benefit any less, they use the same road as much as I do. While speaking to various neighbors about this proposal I realize I'm not the only one that thinks this is a ridiculous assessment, even the neighbors not included on the map say they use Washington as much as we do. Anyway I am hoping you can take another look at this assessment and make it fair for all who benefit from it, after all it is a main arterial road.

Sincerely,

James Christianson

RE: Proposed Special Assessment to my property located at 1681 Cologne Drive
shown on Exhibit 4 to be within Unit 8 of Street Improvement District 531.

Dear Sirs:

I am writing this letter to protest the Street Improvement Project of Unit 8. In obtaining information from the city, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million or 43% project specific to Unit 8. My protest is based upon the following reasons outlined below:

1. A special assessment is applicable when applied to those properties which receive a special benefit from the improvements. As outlined in the series of points below it is very clear the 92 or so private taxable properties are being asked to incur 43% of the cost in Unit 8 and are only receiving a maximum of 2.7% of the street's benefit.
 - a. In a 2017 report from the US Department of Transportation, labeled EXHIBIT 1, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you will note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars/household X 2.7 trips/day = 4.86 trips/household/day).
 - b. EXHIBIT 2, also from the USDOT further explains that a trip is defined as travel from any one point to another within a day (24 hr. period) These trips are not restricted to those to-and-from the home but a measure of ALL tips in that 24-hr. day.
 - c. Using the data from the U.S. DOT report the approximately 92 households in Unit 8 would account for only about 460 trips/day.
 - d. Comparatively, in EXHIBIT 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (at the intersection of S. Washington and Bismarck Expressway) to a low of 9255 on the south end (S. Washington and Billings Ave.) Assuming a Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic count can be estimated to have grown by at least 18% - or to 23,676 and 10,291 respectively for a daily average of 17,299. With this in mind the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only

0009-002-045

responsible for a maximum of 2.7% of the street's daily use (460 daily trips versus the 17,299 daily trips estimated value). AS DEMONSTRATED, THE MUCH LARGER TRAFFIC VOLUMES FROM OUTSIDE UNIT 8 PROPERTIES REPRESENTS A MUCH LARGER PROBLEM THAT BEING 97.3% PROPORTION OF THE WEAR AND TEAR ON S. WASHINGTON STREET VERSUS THE PROPERTIES WITHIN UNIT 8.

- e. The Bis-Man MPO classifies S. Washington Street as a major ARTERIAL street providing service to almost all of southwest and south-central Bismarck. As the traffic counts indicate the vast majority of drivers using Washington street, 97.3% are from outside of Unit 8.
- f. Upon reviewing the city's policy titled "BASIS OF SPECIAL ASSESSMENTS" the previously stated information falls in line with the outlined policy for SPECIAL ASSESSMENT DISTRICTS which states in paragraph 4, page 1 "The following policy is the basis for special assessments when the public improvement is petitioned by a developer or initiated by the city". Further the policy states the following:
Section 2, Arterial Streets, Subsection a - New Pavement/Reconstruction –
Bullet point 2 states "District boundaries are drawn to include properties that benefit from the improvement (direct benefit) and properties in the area half-way to the next north-south or east-west assessed arterial street (secondary benefit)".
Subsection b – Resurfacing, patch, level, mill & overlay, seal coat, concrete pavement repair - **Bullet Point 2 states: "Boundaries are drawn to include properties that benefit from the improvement",**
- g. My final point for consideration is that you should follow the City's written policy regarding special assessment for an ARTERIAL STREET such as south Washington. In addition to following the policy perhaps an area **bounded on the east by Washington St, on the south by the flood drainage ditch, on the west by all properties within the city limits and on the north by Bismarck Expressway should be contained in Unit 8.** All of the properties contained in this suggested area use Washington street in one manner or another almost daily! In addition, numerous property owners south and west of Washington not within the city limits also use this main arterial street daily.
- h. Only one property on the west side of Unit 8 derives any direct benefit, that being a Lutheran Church. About 30 properties, made up mostly of twin homes, on the east boundary of Unit 8 derive a direct shared access to south Washington street.

My final comments relate to my location of 1681 Cologne Drive - Repair, replacement and maintenance of Washington Street is of minimal benefit to my property as access to my street is onto Cologne Drive (the backline of my lot abuts Washington) Because my lot abuts 2 streets I am subject to special assessments twice as often as property owners with only one property line abutting a street. Additionally, my water and sewer connections for my house come from Cologne Drive so again I would not benefit from a change or repair of such on Washington Street.

Thank you for the opportunity to provide my comments for your consideration regarding Special Improvement District 531, Unit 8 proposed Special Assessment for 1681 Cologne Drive.

Sincerely,

RE: Protest of the Unit 8 street improvement funding proposal

We are writing this letter to protest the street improvement project of Unit 8. Although we feel street improvements may be necessary, the proposed special assessments for these improvements are unfairly and disproportionately penalizing households that border south Washington Street as outlined in your Unit 8 boundary map. This application of the Special Assessment financing for Unit 8 is in direct contradiction to the City Special Assessment policy which states:

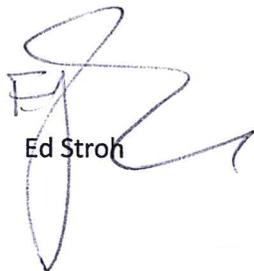

“Special Assessment is the method the City of Bismarck (the City) uses to pay for public improvements that affect benefiting properties. Improvements in the public right-of-way and dedicated public easements funded by a developer are considered public improvements if they meet the City’s design standards. The costs of the improvement are allocated to the parcels/lots that benefit from these improvements.”

You don’t need to be inundated with statistics on traffic flow to prove that the benefits of improvements to south Washington benefit many more households than simply the 98 or so households outlined in your Unit 8 boundary map. You only need to apply common sense to realize that residents’ particularly west of south Washington street all benefit equally from Washington street improvements, especially since there are no other traffic options to get to Expressway from the south, other than Washington street. Granted there may be a few drivers that opt to go up 3rd street, etc. but that still requires them to at the very least cross south Washington street.

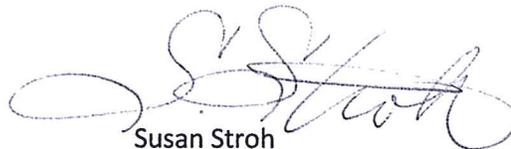

To imply, by your application of the Special Assessment to a limited number of households that border south Washington street, that our residents somehow benefit more than our neighbor and any other household to the east or west of our residence from this improvement project, is at the very least absurd and clearly unsubstantiated.

It is for the reasons stated above that we are protesting the Unit 8 street improvement project.

Thank you for your consideration in this matter.

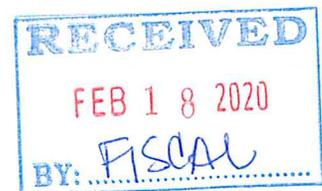

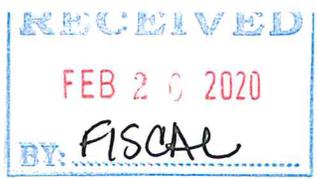

Ed Stroh

To: Whom It May Concern,

From: Linda L. Hausle, 1447 Eastwood, Bismarck, ND 58509

Bismarck, ND
SI531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

- 1) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street's benefit.
- In a 2017 report from the US Dept of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
- **Exhibit 2**, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home - it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc).
- As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
- Comparatively, in **Exhibit 3**, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (Washington Street and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem - a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.
- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought "feedback from our South Bismarck

#0990 - 002-002

residents" regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street - 97.3% of drivers from outside of Unit 8 to be exact.

2) As noted on the water and sewer mockup in Exhibit 5, my home at _____ has water and sewer lines connecting to the main lines on _____ not to Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street - just like mine - which also connects to the water and sewer lines on Washington Street.

In conclusion, the city's use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

André L. Hawck

I do not use Washington St. and do not have direct access to it.

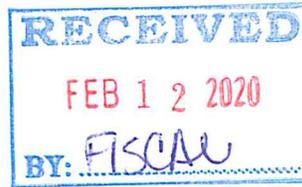

I have lived here for 30 years. I have always paid my taxes and specials.

Personally, I think it is ridiculous that you would want to have me pay specials on Washington Street. I just or am still paying my specials for Eastwood.

I might have to sell my home if you charge me double specials. This is wrong | I am retired and on a fixed income as are many residents in the area.

February 14, 2020

Janitda Muller
1453 Eastwood St
Bismarck, ND 58504
SI531, Unit 8

I am writing to protest the proposed costs to Unit 8 regarding the recently announced street improvement project. In requesting additional information from the city, our neighborhood has learned property owners will be responsible for an estimated \$640,000 of the proposed \$1.5M cost.

A special assessment is warranted when applied to those properties receiving unique benefits from the improvements. There are fewer than 100 private taxable properties proposed to incur 43% of the cost in Unit 8. These homeowners stand to receive less than three percent of the street's benefit. Note, in particular, the included exhibits as summarized here:

- Exhibit 1: 2017 US DOT report provides an average of five vehicular trips per day per household
- Exhibit 2: Continues US DOT estimations of household vehicular trips, leading to a conclusion that fewer than 500 daily trips are associated with Unit 8 residents
- Exhibit 3: 2016 Bismarck traffic map detailing 97.3% of Washington Street use is by those from outside of Unit 8
- Exhibit 4: Recent online post by a city commissioner reinforcing that Washington Street's use is intended for a larger portion of the city than Unit 8

The proposed main water and sewer replacement portion of the project will similarly unfairly place a burden on Unit 8 homeowners. For example, my address, 1453 Eastwood Street, connects to lines on Eastwood Street and not directly to the Washington Street system. My home will benefit no more from that portion of the project than any others in adjacent areas of the city.

Infrastructure improvements are important, and I appreciate the intent to maintain and improve the city's systems. Please recognize that a 43% portion of special assessments attributed to Unit 8 property owners is disproportional in this project. Your careful reconsideration to correct this project's funding plan is needed and will be appreciated.

Sincerely,

Janitda Muller

Bismarck, ND 58504
SI531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, I learned property owners will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

1. A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the street benefits.
 - In a 2017 report from the US Dept of Transportation, labeled Exhibit 1 on the page numbered as 9, the average U.S. Household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per US vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars x 2.7 trips per day = 4.86 trips per household per day).
 - Exhibit 2, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another with a day (24 hr period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (ie including those from work to daycare which would count as one trip, from daycare to the grocery store is another trip, from the grocery store to the gas station is another trip, etc)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (ie, the trips from work to daycare, etc), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day.)
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (Washington and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017 – 2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost, yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs the 17,299 daily trip estimated average.) As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem – a 97.3% proportion of the wear and tear on the street vs the properties within Unit 8.
 - In Exhibit 4, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck city

1030-007-025

commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south “Washington Street as a main arterial road from which a multiple of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97.3% of drivers from outside of Unit 8 to be exact.

2. As noted on the water and sewer mockup in Exhibit 5, my home at 1622 Portland Dr has water and sewer lines connecting to the main lines on Portland Dr. – not to Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties, like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street, and like, mine, which also do not connect directly to Washington Street directly from my home. Lastly, my home, like many others in Unit 8 doesn’t even have direct access to Washington Street.

Sincerely,

Lisa Miller

Accounting for Bismarck annual dwelling unit growth of 6% from 2017 – 2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost, yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs the 17,299 daily trip estimated average.) As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem – a 97.3% proportion of the wear and tear on the street vs the properties within Unit 8.
 - In Exhibit 4, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck city

1030- 007-030

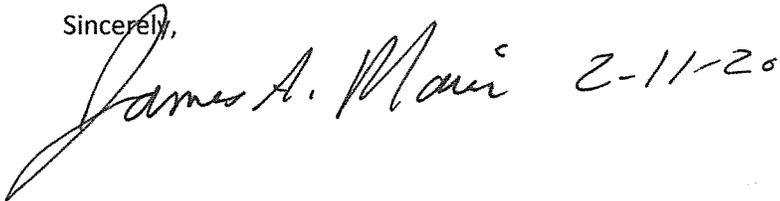

commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south “Washington Street as a main arterial road from which a multiple of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97.3% of drivers from outside of Unit 8 to be exact.

2. As noted on the water and sewer mockup in Exhibit 5, my home at 1628 Portland Dr has water and sewer lines connecting to the main lines on Portland Dr. – not to Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties, like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street, and like, mine, which also do not connect directly to Washington Street directly from my home. Lastly, my home, like many others in Unit 8 doesn’t even have direct access to Washington Street.

Sincerely,

A handwritten signature in black ink that reads "James A. Maier" followed by the date "2-11-20". The signature is written in a cursive style.

To whom it may concern,

I am submitting this protest letter on or before the deadline of 5 p.m., April 8, 2020.

I protest the street improvement project SI531 Unit 8 because this project places an unfair burden on the property owners whose properties merely touch Washington Street vs. the many hundreds or thousands of drivers from other properties who benefit much more greatly as an overall percentage of drivers on the street.

Sincerely,

David Thompson

To Whom it Concerns:

We are writing to protest Street Improvement District No. 531, Unit 8. We object to the inclusion of property in this district that would not receive a special benefit from the improvement. Specifically, property which is located on another street and has its backyard on Washington Street. For example, there are approximately 75 homes on Portland Drive that would equally benefit from improved road conditions on Washington Street, yet only 6 of those homes are subject to the assessments under SI531, Unit 8.

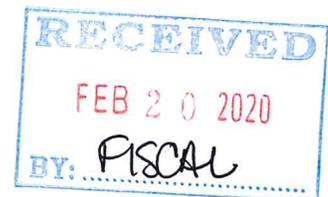

Also, Washington Street is a major thoroughfare in Bismarck, and the clear majority of those that drive regularly on this section of roadway are not subject to the special assessment. Our family rarely drives on the section of South Washington Street that borders our property, yet we're being asked to pay more for this project than those that use it every day.

For the above reasons, we would respectfully ask that my property, 1646 Portland Drive, be excluded from SI531, Unit 8. Barring that possibility, we formally protest the Street Improvement District No 531, Unit 8.

Thank you for your time and consideration.

Sincerely,

Justin & Michelle Dever

February 17, 2020

Steve and Francine Johnson
1652 Portland Drive
Bismarck, ND 58504
SI531, Unit 8

We are writing this letter to protest the street improvement project of Unit 8. In reviewing additional information provided by a neighbor and other concerned citizens, we learned property owners will be responsible for an estimated \$640,000 (43%) of a proposed \$1.5 million project specific to Unit 8. As such, we are submitting this letter of protest.

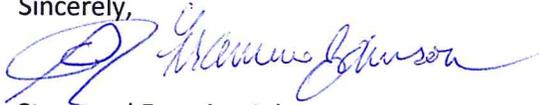

It is our understanding that a special assessment is applicable when applied to those properties which receive a special benefit from the improvement. It is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a fractional benefit of the street's benefits.

While our backyard butts up against Washington Street, we don't have vehicular access to Washington. Thus, for our exit and entrance to our property, we use Portland Drive, which was subject to a special assessment in 2019, to Reno and then Third Street to the northern part of the city. While we don't dispute that Washington Street is probably in need of repair, it appears logical that residents occupying the homes and numerous apartment complexes south of Wachter Avenue aren't incurring their respective share even though they in all likelihood use Washington Street multiple times daily. In short, being assessed a disproportionate share of a special assessment just because our property adjoins the street being repaired defies logic. How are we directly benefiting from the improvement when we don't even have access to Washington Street off our property at 1652 Portland Drive?

In addition, our home has water and sewer lines connecting to the main lines on Portland Drive, not on Washington Street. Therefore, any water and sewer work on Washington Street will bring no greater benefit to our home than it will to any and all other homes in south Bismarck whose water and sewer lines on their property first connect to the mainlines on their street which also then connect to the water and sewer lines on Washington Street.

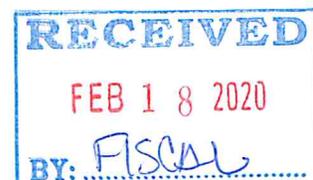

In conclusion, the city's use of a special assessment placing 43% of the cost of the street and water and sewer lines associated with the Washington Street improvement project on the property owners in Unit 8 is a grossly disproportionate burden on those properties relative to the large number of users from the general public who undoubtedly use Washington Street far more often than we do.

Sincerely,

Steve and Francine Johnson

SI5321, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. I have learned that properties will be responsible for an estimated \$640,000 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such I am submitting my protest for the following reasons:

(1) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the following bullet points, it is clear to me that the 92 or so private taxable properties are being proposed to incur 43% of the cost in Unit 8 and only receive a maximum of 2.7% of the street's benefit.

* Looking at Exhibits 1, page 9 and 13, Exhibit 2 and Exhibit 3, you will see the average house hold has 1.8 vehicles, with daily trips per vehicle is 2.7. This makes the average per day for Unit 8, with 92 households of only 460 trips(2.7%) per day out of the 20,065 trips, North end and 9,255 trips(97.3%) on the South end per day of Washington Street.

* In other words why are 92 property owners, in Unit 8, responsible for 43% of the cost when they are only responsible for 2.7% of the streets daily use?

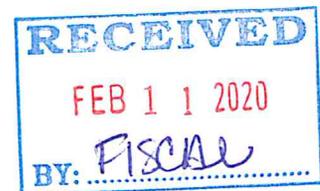

(2) Also my home, on 1936 Oakland Drive, has water and sewer lines connecting to the main line on Oakland Drive - not to Washington Street, so there is no benefit to me, but it would certainly benefit any and all homes farther South of my location, that ultimately connect to the main line, on Washington Street.

In conclusion, the city's use of special assessment on the property owners, in Unit 8, incurring 43% of the cost of the street improvement is a disproportionate burden on those properties relative to the larger volume of users from the general public, that use it every day, to get to and from there homes South of us, off Washington Street. We have traffic driving on Washington Street from 5:30 AM, in the morning, to 2:00 AM, the following morning, at 45 miles per hour or faster every day and night. Let them pay their fair share, not Unit 8.

Sincerely,

Dennis Grueneich

February 16, 2020

Garry and Janice Fuhrman
1944 Oakland Drive
Bismarck, ND 58504
SI531, Unit 8

I am writing this letter to protest the street improvement project of Unit 8. In requesting additional information from the city, I learned property owners will be responsible for an estimated \$640,000.00 of a proposed \$1.5 million, or 43%, project specific to Unit 8. As such, I am submitting my protest for the following reasons:

- 1.) A special assessment is applicable when applied to those properties which receive a special benefit from the improvement. As outlined in the next series of bullet points, it is clear the 92 or so private taxable properties who are being proposed to incur 43% of the cost in Unit 8 are only receiving a maximum of 2.7% of the streets benefit.
- In a 2017 report from the US Dept of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
- **Exhibit 2**, also from the US Dept of Transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.).
- As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
- Comparatively, in **Exhibit 3**, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington Street and Bismarck Expressway) to a low of 9,255 on the south end (Washington Street and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the streets daily use (460 daily trips vs. the 17,299 daily trips estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.
- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan. 15, 2020, in official capacity as Bismarck City Commissioner using his City Commissioner (non-personal) designated Facebook page, sought "feedback from our south Bismarck residents" regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8 to be exact.

 - In a 2017 report from the US Dept. of Transportation, labeled **Exhibit 1**, on the page numbered as 9, the average U.S. household has 1.8 vehicles. On the page numbered 13 of that exhibit, you'll also note the average daily trips per U.S. Vehicle is 2.7. This means the average household completes about 5 trips per day (1.8 cars per household x 2.7 trips per day = 4.86 trips per household per day).
 - **Exhibit 2**, also from the US Dept. of transportation, further explains that a trip is defined as travel from any one point to another within a day (24 hour period). These trips are not restricted to those to-and-from the home – it is a measure of ALL trips (i.e., including those from work to daycare which would count as one trip; from daycare to the grocery store is another trip; from the grocery store to the gas station is another trip; etc.)
 - As such, even when not accounting for the average daily trips that aren't on south Washington Street (i.e., the trips from work to daycare, etc.), the maximum total average of daily trips from homes in Unit 8 is therefore a maximum of 460 (92 households x 5 trips per day = 460 trips per day).
 - Comparatively, in Exhibit 3, the city's traffic volume map data from 2016 shows daily traffic that year varied from a high of 20,065 on the north end (the intersection of Washington St. and Bismarck Expressway) to a low of 9,255 on the south end (the intersection of Washington St and Billings). Accounting for Bismarck annual dwelling unit growth of 6% from 2017-2019, the annual traffic counts can be estimated to have grown by at least an additional 18% - or to 23,676 and 10,291, respectively, or 17,299 as an average between those two. In other words, the 92 property owners in Unit 8 will be responsible for 43% of the cost yet they are only responsible for a maximum of 2.7% of the street's daily use (460 daily trips vs. the 17,299 daily trip estimated average). As demonstrated, the much larger traffic volume from outside Unit 8 properties represents

a much larger problem – a 97.3% proportion of the wear and tear on the street vs. the properties within Unit 8.

- In **Exhibit 4**, regarding a recent lane change proposal the city introduced for south Washington Street, Shawn Oban, on Jan 15, 2020, in official capacity as Bismarck city commissioner using his city commissioner (non-personal) designated Facebook page, sought “feedback from our South Bismarck residents” regarding the lane change proposal. His callout for feedback on that portion of the street from among all residents who reside in south Bismarck clearly classified south Washington Street as a main arterial road from which a multitude of south Bismarck residents benefit far beyond the limited number of properties included in Unit 8. In fact, as demonstrated and substantiated with the traffic counts, a vastly largely proportion of drivers outside of Unit 8 benefit from the street – 97% of drivers from outside of Unit 8 to be exact.

2. As noted on the water and sewer mockup in **Exhibit 5**, my home at 316 W. Reno Ave. has water and sewer lines connecting to the main lines on Easy Street – not to Washington Street. Therefore, as water and sewer work on Washington Street will bring no greater benefit to my home than it would to any and all other homes in south Bismarck whose water and sewer lines on their properties first connect to the main lines on their street – just like mine – which also connects to the water and sewer lines on Washington Street.

In conclusion, the city’s use of special assessment on the property owners in Unit 8 incurring 43% of the cost of the street improvement is a grossly disproportionate burden on those properties relative to the large volume of users from the general public. In addition, certain properties like mine also have no greater benefit to the water and sewer line work that may be performed on Washington Street than any other property owner in south Bismarck who is also served by their water and sewer lines that ultimately connect to the water and sewer lines on south Washington Street and, like mine, which also do not connect directly to Washington Street directly from my home.

Sincerely,

A handwritten signature in black ink, appearing to read "Ryan Otto". The signature is stylized and cursive, with a large initial "R" and "O".

Ryan Otto

Bismarck, ND 58504
Project # SI 531 Unit 8

To whom it my concern,

It has been brought to our attention; a meeting is to be held, April 14, 2020 to reopen planning on the S1531 Unit 8, Street Construction Repair, sewer and asphalt. Our intention of this letter is not to protest the project, as we know that the improvements will be a benefit to the city and residence, but rather to state our concerns with the impact of the project.

We are greatly concerned of how we are going to pay for the new Special Assessments when we already have been paying on the last repair since 2017. We currently have a balance of \$10,807.31. We understand that this project assessment period will not begin this year but it will have a large impact on our church's finances as the two special assessment will be overlapping compounding the strain on our church.

With the current economic impact due to the Covid19 pandemic our ministry has had to close its doors to the community not knowing when we can reopen. We are doing everything we can think of to keep our ministry alive in the community outside of our building but the impact we feel will be long lasting. We have already seen a decrease in funding due to this and we need to be mindful of future expenditures.

We would like the City Engineering Department to consider alternative funding mechanisms that could help the property owners to spread the cost out more. South Washington St. is such a high traffic zone that we feel this needs to be addressed as a main arterial road project. The other recommendation would be to postpone this project to spread out the mounting specials and let the dust settle from the impacts of the pandemic.

Thank you for taking the time to hear our concerns. We appreciate all that you do for the city.

Sincerely yours,

Keith Zhorela

RE: Written Testimony
April 14, 2020 Commission Meeting
Special Improvement District 531
Special Assessment UNIT 8

DUPLICATE

Dear Mr. Schell,

I am submitting the following written testimony for the Public Hearing pertaining to Special Improvement District 531, specifically UNIT 8. I AM HOPEFUL THAT YOU AND THE COMMISSIONERS WILL READ MY TESTIMONY WITH AN OPEN MIND AS IT RELATES TO A **MAJOR ARTERIAL STREET, THAT BEING WASHINGTON STREET**. I HAVE SENT SIMILAR INFORMATION TO EACH OF THE COMMISSIONERS FOR THEIR REVIEW.

MY NAME IS CURTIS BLOHM. I RESIDE AT 1681 COLOGNE DRIVE WHICH IS ONE OF THE PROPERTIES LOCATED WITHIN PROPOSED UNIT 8 OF SPECIAL IMPROVEMENT DISTRICT 531. UNIT 8 EMCOMPASSES A PORTION OF WASHINGTON STREET FROM THE INTERSECTION AT BISMARCK EXPRESSWAY ON THE NORTH AND THE DRAINAGE DITCH ON THE SOUTH SHOWN ON ATTACHMENT "A".

I AM AGAINST THE SPECIAL ASSESSMENT FOR MY PROPERTY AS PROPOSED.

BECAUSE OF THE BOUNDARIES OF UNIT 8 I AM ASSUMING THAT THE PERSONNEL THAT DREW UP THIS UNIT CONSIDERED WASHINGTON STREET AS A LOCAL OR NEIGHBORHOOD STREET. I BELIEVE THIS TO BE A GROSS ERROR BY THOSE STAFF PEOPLE.

THE BIS-MAN MPO AND THE CITY OF BISMARCK HAVE DESIGNATED WASHINGTON STREET AN "ARTERIAL STREET". THAT DESIGNATION REQUIRES A DIFFERENT APPROACH TO AN ASSESSMENT UNIT ACCORDING TO THE CITY POLICY STATED IN ITS DOCUMENT TITLED "BASIS OF SPECIAL ASSESSMENTS".

UNDER SECTION 2, SUBSECTION a BULLET POINT 2 IT STATES – 'DISTRICT BOUNDARIES ARE DRAWN TO INCLUDE PROPERTIES THAT BENEFIT FROM THE IMPROVEMENT (DIRECT BENEFIT) AND PROPERTIES IN THE AREA HALF-WAY TO THE NEXT NORTH-SOUTH OR EAST-WEST ASSESSED ARTERIAL STREET (SECONDARY BENEFIT). '

SUBSECTION b, BULLET POINT 2 STATES "BOUNDARIES ARE DRAWN TO INCLUDE PROPERTIES THAT BENEFIT FROM THE IMPROVEMENTS". (SEE ATTACHMENT "C")

I DO NOT SEE ANY DIRECT BENEFIT TO MY PROPERTY ON COLOGNE DRIVE AS THE BACKYARD IS THE ONLY PORTION THAT ABUTTS WASHINGTON STREET. ALMOST ALL OF THE PROPERTIES ON THE WEST BOUNDARY OF PROPOSED UNIT 8 SHARE THE SAME WITH ME IN THAT THE BACKYARD IS THE ONLY PORTION ABUTTING WASHINGTON STREET. ADDITIONALLY, APPROXIMATELY 25 OR SO PROPERTIES ON THE EAST BOUNDARY HAVE NO DIRECT ACCESS TO WASHINGTON STREET NOR ANY DIRECT BENEFIT.

MY INTERPRETATION OF THOSE POLICY STATEMENTS TELL ME THAT THE CURRENT BOUNDARIES OF UNIT 8 ARE DRAWN IN CONFLICT WITH THE "BASIS OF SPECIAL ASSESSMENTS" POLICY USED BY THE ENGINEERING AND FINANCE DEPARTMENTS.

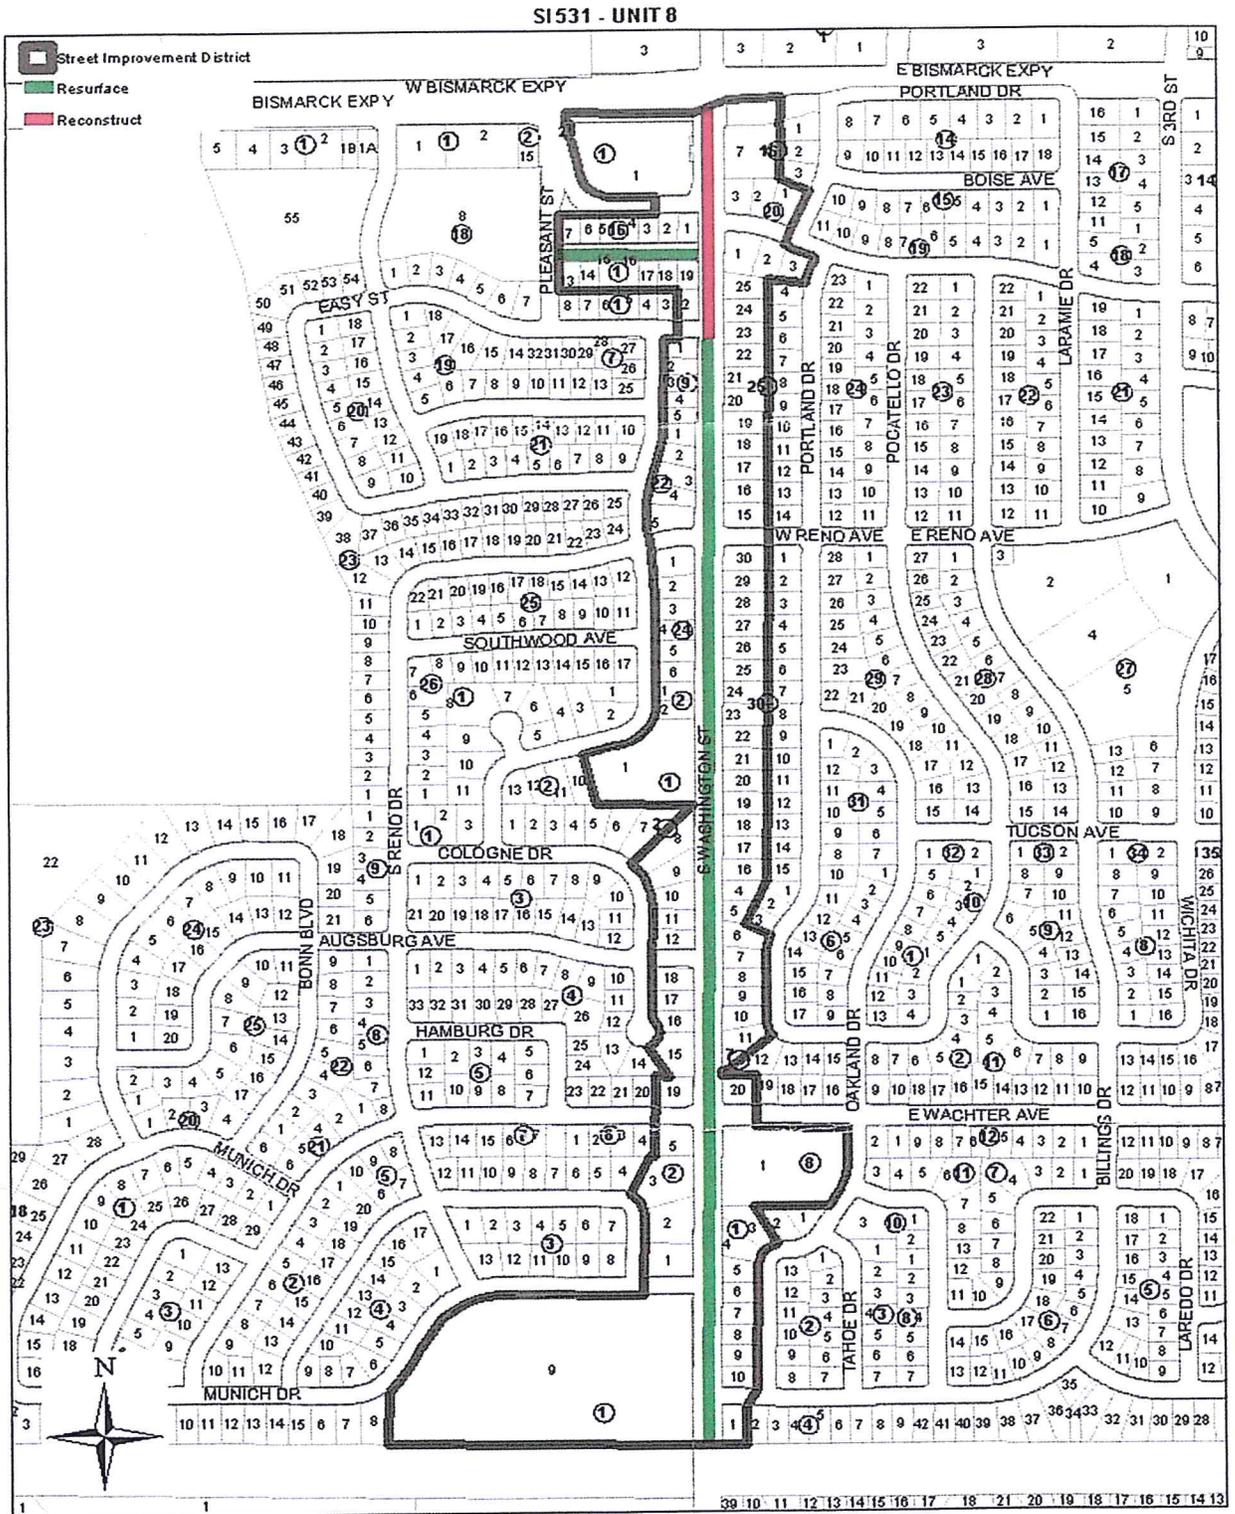

THE BOUNDARIES OF ANY SPECIAL ASSESSMENT UNIT FOR THAT PORTION OF WASHINGTON STREET INCLUDED IN PROPOSED UNIT 8 SHOULD BE EXPANDED TO INCLUDE ALL PROPERTIES TO THE WEST OF WASHINGTON AND THOSE APPROXIMATELY HALF-WAY TO THE NEXT

ARTERIAL STREET TO THE EAST WHICH IS UNIVERSITY DRIVE! (REVIEW MY PROPOSED BOUNDARY MAP- ATTACHMENT "B" FOR THE ARTERIAL STREET ASSESSMENT FOR UNIT 8)

BY THE POLICY STATEMENTS CONTAINED IN THE "BASIS OF SPECIAL ASSESSMENTS" ASSESSMENTS FOR WASHINGTON STREET AS A DESIGNATED ARTERIAL STREET YOU COULD PROBABLY INCLUDE ALL PROPERTIES WITHIN THE CITY LIMITS WEST OF WASHINGTON STREET AND SOUTH TO BURLEIGH AVENUE.

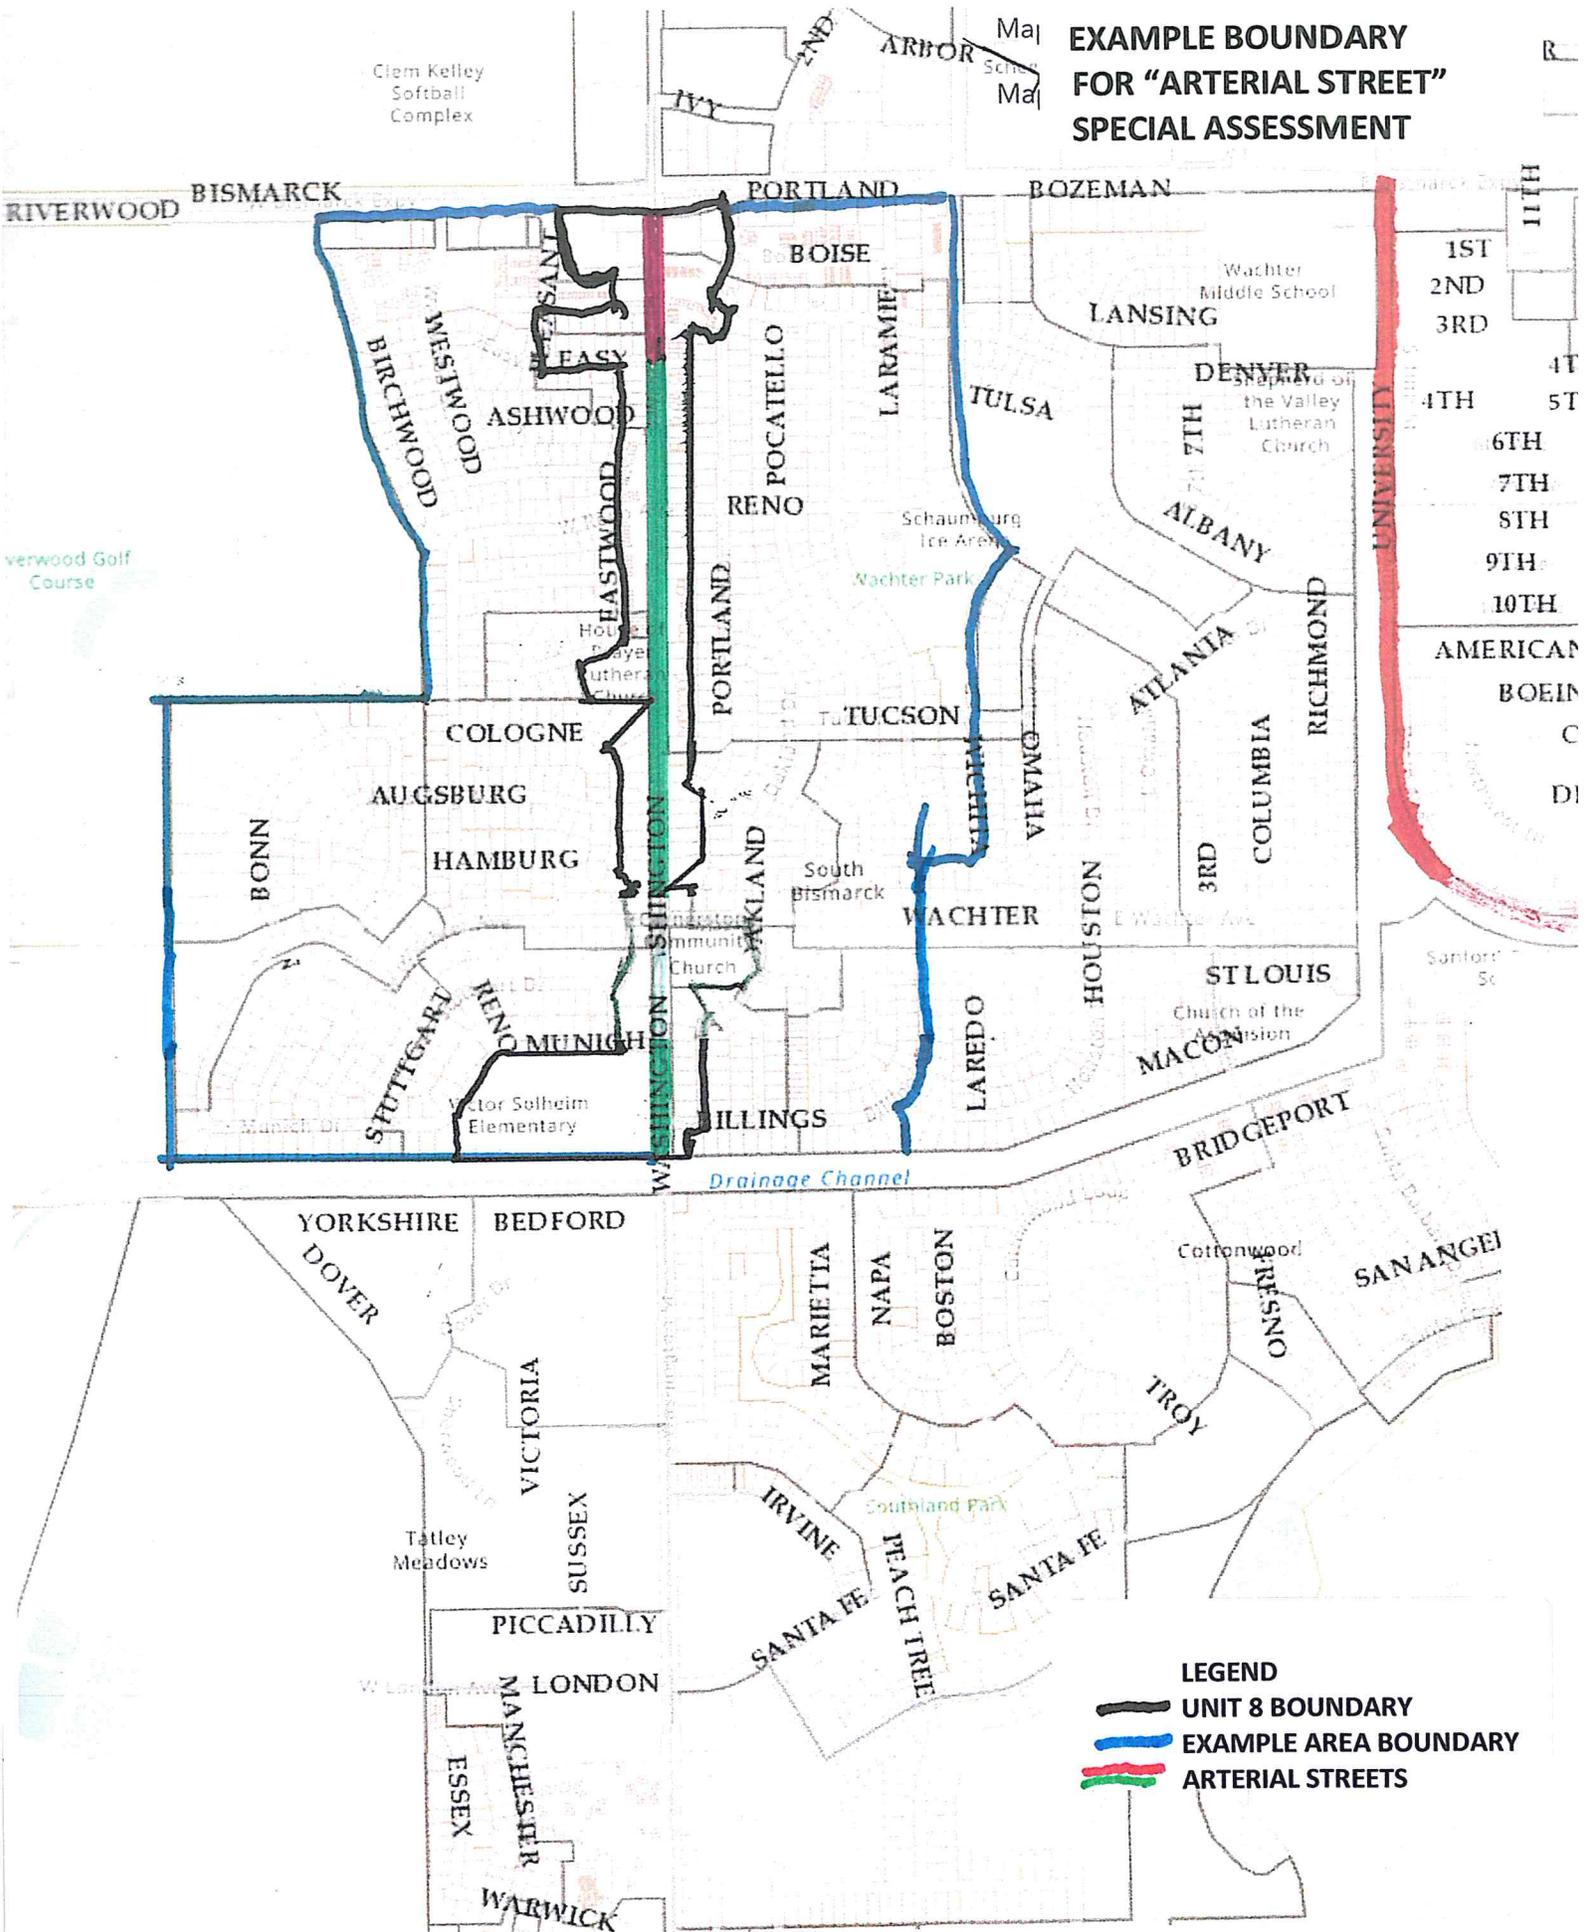

LASTLY, I DON'T LIKE SPECIAL ASSESSMENTS BUT I DO UNDERSTAND THEY ARE A NECESSARY EVIL IF WE ARE TO HAVE GOOD STREETS FOR OUR DAILY TRAVEL. HOWEVER, LET'S BE FAIR AND EQUITABLE WHEN ASSESSING FOR PROJECTS ON DESIGNATED "ARTERIAL STREETS" AND ASSESS A MUCH LARGER AREA (PERHAPS EVEN LARGER THAN I HAVE PROPOSED) THAT INCLUDES A MAJORITY OF THE PROPERTY OWNERS THAT USE WASHINGTON STREET.

SINCE YOU HAVE A POLICY FOR GUIDANCE ON SPECIAL ASSESSMENTS, I SUGGEST THAT YOU AS A COMMISSIONER TAKE A GOOD LOOK AT THE POLICY AS IT RELATES TO ARTERIAL STREETS AND NOT LEAVE IT UP TO THE STAFF PERSONNEL TO CARRY ON AS USUAL. THANK YOU.

**BOUNDARY MAP
UNIT 8
SI DISTRICT 531**

EXAMPLE BOUNDARY FOR "ARTERIAL STREET" SPECIAL ASSESSMENT

- LEGEND**
-  UNIT 8 BOUNDARY
 -  EXAMPLE AREA BOUNDARY
 -  ARTERIAL STREETS

Approval Date: 3/10/2009

Revised: 5/25/10; 2/14/12; 2/12/13; 3/11/14;
12/22/15; 3/8/16; 1/23/18; 1/8/19; 1/14/20**BASIS OF SPECIAL ASSESSMENTS**

Special Assessment is the method the City of Bismarck (the City) uses to pay for public improvements that affect benefiting properties. Improvements in the public right-of-way and dedicated public easements funded by a developer are considered public improvements if they meet the City's design standards. The costs of the improvement are allocated to the parcels/lots that benefit from these improvements.

All properties will be assessed for a local street and proportionate share of an arterial street unless the developer pays the cost of the local street and/or arterial streets under a three-way agreement with the City.

Notification letters are sent to non-petitioning property owners included in a special assessment district. The letters identify the proposed improvement project and provide an estimated cost range of the property assessment. Letters for non-petitioned projects are sent before the project is approved by the City Commission. Letters for petitioned projects are sent to non-petitioning properties after the bids for the project are received.

The following policy is the basis for special assessments when the public improvement is petitioned by a developer or initiated by the City. This policy has been developed in accordance with North Dakota Century Code, Title 40, that relates to municipal government.

1. Special Assessment Districts

● Storm Water

- Cost allocation based on parcel/lot square footage.
- District boundaries are determined by watershed areas.
- Coulees, detention ponds, and other nondevelopable lots are not assessed for storm water.
- For regional storm water districts, the Public Works Utility Operations Department assumes the cost for unannexed property via assessment to a City-owned parcel. This cost is held in abeyance and assessed in a continuous district to previously unannexed land when the land is subsequently annexed. This only applies to remaining masterplanned projects in North Washington Street, Carufel's and Tyler Coulee watersheds (see Continuous Districts below).
 - Factor applied to unannexed property shall coincide with the Comprehensive Land Use Plan.

● Street Lights

- Cost allocation is based on a per parcel/lot for residential and square foot for commercial.
- Boundaries are drawn to include properties that benefit from the improvement.
- City may consider installing street lights when 50% of lots are either permitted or contain building structures or if transportation safety issues exist.
- Corner lots only pay a 1/2 street light assessment for each side of the lot.

- **Streets**

- 1. **Local & Collector Streets**

- New Pavement/Reconstruction/Resurfacing - patch, level, mill & overlay, seal coat, concrete pavement repair*

- Cost allocation is based on a per parcel/lot for residential and square foot for commercial.
 - Boundaries are drawn to include properties that benefit from the improvement.
 - Multi-street properties are those with more than one street adjacent to the property. Multi-street properties are assessed based on the street(s) being improved.
 - For residential multi-street properties with two adjacent streets, 1/2 of the assessment is allocated to each street.
 - For residential multi-street properties with three adjacent streets, 1/3 of the assessment is allocated to each street.
 - For commercial multi-street properties, the portion of the adjacent street footage within the district relative to the parcel's total adjacent street footage is allocated.
 - In non-commercial parcels/lots with reconstruction/resurfacing, the City assumes cost to construct a street wider than 37 feet and pavement depth greater than local roadway design. Commercial parcels/lots are assessed full width and depth costs.
 - City subsidizes 25% for resurfacing projects.
 - City subsidizes 70% for reconstruction projects.
 - Balance of remaining cost is assessed unless other City resources are identified and approved.

- 2. **Arterial Streets**

- a. *New Pavement/Reconstruction*

- Cost allocation is based on a per parcel/lot for residential and square foot for commercial.
 - District boundaries are drawn to include properties that benefit from the improvement (direct benefit) and properties in the area half-way to the next north-south or east-west assessed arterial street (secondary benefit).
 - Direct benefit would be an assessment equivalent to new pavement assessment on a local street plus a share of secondary benefit as all parcels/lots pay for a local street plus a portion of the arterial streets.
 - Secondary benefit would be a proportionate amount of the direct benefit.
 - Multi-street properties are those with more than one street adjacent to the property. Multi-street properties are assessed based on the street(s) being improved.
 - For residential multi-street properties with two adjacent streets*, 1/2 of the assessment is allocated to each street.
 - For residential multi-street properties with three adjacent streets*, 1/3 of the assessment is allocated to each street.
 - For commercial multi-street properties, the portion of the adjacent street* footage within the district relative to the parcel's total adjacent street* footage is allocated.
 - *ND Dept. of Transportation Regional Highways are excluded from multi-street allocations (Effective for all assessment districts confirmed by the City Commission after December 31, 2020). In non-commercial parcels/lots, the City assumes cost to construct a street wider than 37 feet and pavement depth greater than local roadway design. Commercial parcels/lots are assessed full width and depth costs.
 - City subsidizes 70% for reconstruction projects.
 - Balance of remaining cost is assessed unless other City resources are identified and approved.

b. **Resurfacing - patch, level, mill & overlay, seal coat, concrete pavement repair**

- Cost allocation is based on a per parcel/lot for residential and square foot for commercial.
- Boundaries are drawn to include properties that benefit from the improvement.
- Special Assessments are proportionate with costs for typical local street resurfacing. Generally, arterial streets require resurfacing more frequently than local streets. Lots on arterial streets will have their special assessment adjusted to be proportionate to a local street special assessment.
- Multi-street properties are those with more than one street adjacent to the property. Multi-street properties are assessed based on the street(s) being improved.
 - For residential multi-street properties with two adjacent streets*, 1/2 of the assessment is allocated to each street.
 - For residential multi-street properties with three adjacent streets*, 1/3 of the assessment is allocated to each street.
 - For commercial multi-street properties, the portion of the adjacent street* footage within the district relative to the parcel's total adjacent street* footage is allocated.
 - *ND Dept. of Transportation Regional Highways are excluded from multi-street allocations (Effective for all assessment districts confirmed by the City Commission after December 31, 2020).
- In non-commercial parcels/lots, the City assumes the cost to construct a street wider than 37 feet and thicker than local roadway design. Commercial parcels/lots are assessed full width and depth costs.
- City subsidizes 25% for resurfacing projects.
- Balance of remaining cost is assessed unless other City resources are identified and approved.

3. **Alleys (public alleys with asphalt or concrete pavement)**

- The full cost to pave, resurface, or reconstruct public alleys will be assessed proportionately, without subsidy, based on a per parcel/lot for residential property and square foot for commercial property, to properties that either abuts the alley or have access to their property via the public alley.
- **Concrete Curb & Gutter/Sidewalk/Driveways (New and Repairs)**
 - New Pavement/Reconstruction/Resurfacing
 - Sidewalk and Driveways are assessed to individual parcels/lots.
 - Curb and Gutter and ADA Ramps are included as project costs.
 - Owner-Elected Improvement
 - Total costs are assessed directly to individual parcels/lots.
- **Federal/State/Local Aid Projects**
 - Parcels/lots included in Federal/State/Local Aid projects are assessed equivalent to the method used for a local roadway (Refer to Arterial Streets section above).

2. **Continuous Districts**

- Regional Trunk Infrastructure Fee (only applied to property annexed prior to Feb 1, 2019, if applicable)**
 - Apply special assessments policy in effect at the time of annexation.
- Main Lines Built by City Prior to Annexation (Not over-sized mains) (only applied to property annexed prior to Feb 1, 2019, if applicable)**
 - Apply special assessments policy in effect at the time of annexation.
- Storm Water - Regional projects that included unannexed property**
 - Costs held in abeyance are assessed upon annexation of those parcels.
 - Cost allocation is based on parcel/lot square footage of the previous project(s).

D. Rural Road Usage Policy

- a. The improvement cost for streets or street lights for property not annexed that benefit from the improvement will be held in abeyance until those properties are annexed to the City in accordance with the City Commission Rural Road Usage Policy.

3. Factors

A. The following factors are applied to all special assessment districts, except Continuous

Districts:

- Factors applied are:
 - Commercial - 2.0; Residential - 1.0
 - Agricultural - Factor applied shall coincide with Comprehensive Land Use Plan.
 - Public Park Property - if the property contains a revenue producing facility (i.e. pool), then Commercial - 2.0; otherwise, same application as Residential - 1.0.
 - Schools & Churches - Commercial - 2.0.
- Stormwater Lots - 0.5
 - Stormwater lots are subject only to paving and street lighting assessments on a per parcel/lot residential basis.

4. Parcels with Access via Private Drives

- Private drives are named roadways that lead from a public street to more than one property and are owned and maintained by private individuals or organizations rather than the City.
- Commercial properties that gain access to their property from a public street via a private drive are assessed for pavement and street lighting improvements to the public street based on 75% of their lot square footage or adjusted square footage, if applicable.
- Residential properties that access their property from a public street via a private drive are assessed for pavement and street lighting improvements to non-arterial public streets based on 50% of their parcel/lot or adjusted parcel/lot, if applicable.
- Actual costs of concrete repairs to driveway aprons or sidewalk on the private drive will be assessed proportionately to all parcels utilizing the private drive.

5. Adjustments

- Adjustments may be made if the literal application of the policies result in an inequitable assessment and to achieve a more equitable assessment.

6. Errors or Omissions

- Corrections may be made to existing special assessments if errors or omissions of the applicable policy are determined at the time the error is identified.

Shepherd of the Valley Lutheran Church-LCMS

February 19, 2020

Finance Department
City of Bismarck
221 N 5th St.
Bismarck, ND 58501

To Whom it May Concern:

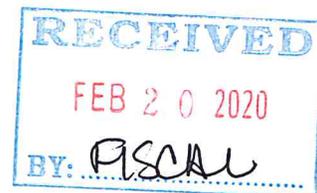

I am writing on behalf of Shepherd of the Valley Lutheran Church to protest Street Improvement District No. 531, Unit 9. We were dismayed when we received a letter indicating that Shepherd of the Valley could be responsible for paying as much as \$95,900 plus the cost of concrete repairs to our driveway, as part of SI531, Unit 9. Shepherd of the Valley has a relatively small congregation with about 50-60 families attending worship on a weekly basis. As a non-profit church, we rely solely on the generosity of our members and do not have the revenue generation ability of a commercial enterprise.

Shepherd of the Valley is proud to be a part of the Bismarck community and would like to pay its fair share. However, the proposed level of special assessments is simply more than we can afford.

Sincerely,

Justin Dever
Congregational President
Shepherd of the Valley Lutheran Church

Re: Street Improvement District # 531
Proposed Street Maintenance Project
Unit 9

RECEIVED

MAR 24 2020

My husband & I submit ~~a~~ protest
to a NO on proposed project.

The same reasons for a no vote
cited in the initial meeting of the
Board still stand. There still
remains the possibility of some
legislature relief as opposed to
special assessments. Special
assessments would be a hardship
to us @ this time. If assess-
ments are not paid in full,
they accrue an interest rate of
over 3%. What bank is giving
even 3% interest on savings or
Money market funds

We are living in very uncertain
times & I strongly believe this
is not the time to do this
improvement to our unit.

#0592-006-110

Sincerely yours,
Fred & Myrna Zankoff

ITEM: Street Improvement District No. 533

REQUEST

Request for Resolution Determining Insufficiency of Protests on Resolution of Necessity for Street Improvement District SI 533.

Request for Resolution Receiving Bids and Ordering Preparation of the Engineer's Statement for SI 533.

Please place this item on the 4/14/2020 City Commission meeting agenda.

BACKGROUND INFORMATION

Street Improvement District No. 533 consists of one (1) unit of concrete pavement repair including full and partial depth pavement repairs, curb and gutter, driveways, ADA curb ramps, sealing and related work. The overall length of this project is approximately 4131 lineal feet.

The Resolution of Necessity was published in the newspaper on January 20, 2020 and January 27, 2020 at the board's request. Letters were sent to property owners on or before January 20, 2020. At the board's request on March 3, 2020 the Resolution of Necessity was published in the newspaper on March 9, 2020 and March 16, 2020. Letters were sent to property owners notifying them that the protest period was open until April 8, 2020 and all previous protests would be honored. The summary of protest received are attached.

Three bids were received on April 7, 2020 for SI 533. The engineer's estimate was \$820,570.70 and the low bid of \$789,944.10 was received from Knife River Corporation. The bid summary and project budget are attached.

Unit No. 1

Washington Street – Rosser Avenue to 295' north of Ingals Avenue
Memorial Highway –Hannifin Street to Washington Street
Front Avenue – Washington Street to Mandan Street

Project Schedule

Protest Period Ended:	April 8, 2020
Receipt and Opening of Bids:	April 7, 2020
Public Reading of Insufficiency of Protest:	April 14, 2020
Award of Bid:	April 14, 2020
Project Completion:	Fall 2020

RECOMMENDED CITY COMMISSION ACTION

Resolution Determining Insufficiency of Protests on Resolution of Necessity for Street Improvement District SI 533 for which staff may proceed with the project for those units not protested out.

Resolution Receiving Bids and Ordering Preparation of the Engineer’s Statement for SI 533.

Resolution Awarding Contract for SI 533 to Knife River Corporation in the amount \$789,944.10.

RE: Street Improvement District No. 533, Unit 1
207 S. Washington St.
230 W. Sweet Ave

To whom it may concern:

I am writing to protest SI533, Unit 1. Washington Street serves the City of Bismarck as a major thoroughfare moving vehicles from one part of the city to another. Most of the tens of thousands of cars that pass my properties are not and never will be customers of my business. The cost of this project should be born by more taxpayers than those property holders along the street.

Thank you.

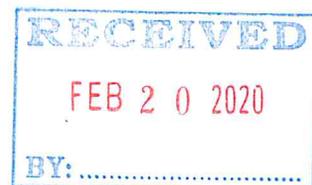

Sincerely,

Howard L. Malloy

City Administration

DATE: April 7, 2020
FROM: Jason Tomanek, Assistant City Administrator
ITEM: Retail Sale of Alcoholic Beverages - Discussion

REQUEST

Consider discussion regarding a retail sale of alcoholic beverages.

Please place this item on the April 14, 2020 City Commission meeting agenda.

BACKGROUND INFORMATION

City staff has been contacted by various restaurants owners/managers in the community requesting consideration to modify the current alcohol licenses to allow for the sale of beer/alcoholic beverages with to-go food orders. Current alcohol licenses do not allow for off-sale beer by establishments other than bars, liquor stores, (Class D license), convenience stores (Class E license), or microbreweries (Class O license). Staff sent an email requesting comments from all the liquor license holders for which we had an e-mail address. That information was provided to you previously and is attached.

Other cities in North Dakota, including Mandan, have taken steps to allow restaurants the sale of sealed cans or bottles of alcoholic beverages to customers taking delivery of prepared food or meals from the restaurant on a "take-out," "curbside delivery," or "drive-through" basis. The common action taken by these cities is a moratorium pertaining to the sale of alcoholic beverages. We have attached a schedule of what other cities in North Dakota have done.

RECOMMENDED CITY COMMISSION ACTION

Consider discussion regarding the retail sale of alcoholic beverages.

STAFF CONTACT INFORMATION

Jason Tomanek | Assistant City Administrator, 355-1300 or jtomanek@bismarcknd.gov

Exhibit 1 - Dickinson

RESOLUTION NO. 12 - 2020

RESOLUTION REGARDING THE MORATORIUM PERTAINING TO THE RETAIL SALE OF ALCOHOLIC BEVERAGES

WHEREAS, The Governor of the State of North Dakota, declared, by executive order of March 19, 2020, that, “[e]ffective at 12:00 p.m., Friday, March 20, all restaurants, bars, breweries, cafes and similar on-site dining establishments are closed to on-sale/on-site patrons; take-out, delivery, curbside, drive-through or off-sale services may continue; this requirement will continue through Monday, April 6, 2020; and

WHEREAS, North Dakota cities are authorized to enact or adopt all such ordinances, resolutions, and regulations, not repugnant to the constitution and laws of this state, as may be proper and necessary to carry into effect the powers granted to such [cities] . . . as the general welfare of the municipality may require . . .” including the power “[t]o regulate the use and . . . sale of alcoholic beverages . . .” [N.D.C.C. §40-05-01 subd. 1 and 29]; and

WHEREAS, the Dickinson Municipal Code identifies various regulations regarding the sale of alcoholic beverages within City limits; and

WHEREAS, It is hereby found and declared that the health, safety and welfare of the City and its occupants will be benefited by providing appropriate means for the delivery of meals, including beverages, to individuals and families that fosters appropriate social distancing for the curbing of the COVID-19 pandemic;

NOW, THEREFORE, BE IT HEREBY RESOLVED:

1. **MORATORIUM ESTABLISHED.** A moratorium is hereby established as to the enforcement within the jurisdictional limits of the City of Dickinson of Article 4 of the Dickinson Municipal Code, as follows:
 - a) **On-sales.** As to licensed restaurants within the City of Dickinson that are also licensed for on-sale serving of alcoholic beverages, the sale of sealed cans or bottles of alcoholic beverages including sealed growlers to customers taking delivery of prepared food or meals from the restaurant on a “take-out”, “curbside delivery”, “drive-through” or employees of said restaurant or by other lawful means of delivery shall be deemed to be “on-sale” service or sale of such beverages. A licensed restaurant must ensure that an employee twenty-one years of age who is server trained checks the identification of any customer utilizing the “take-out” or “curbside deliver” option. Delivery of meals only—without any accompanied sale of alcoholic beverages—may be delivered by agents or 3rd party meal-delivery-services.
 - i) For purposes of this moratorium, the definition of the term "on-sale", as set forth in Section 4.04.010 of the Dickinson Municipal Code, limiting the “. . . sale of alcoholic beverages for consumption only on the licensed premises . . .” shall be enforced such that sealed cans or bottles of alcoholic beverages along with such food or meals sold by the restaurant and served or delivered by means of such “take-out”, “curbside delivery”, “drive-through” or other such lawful means are hereby deemed to have been consumed on the licensed premises so long as said beverages are accompanied by food purchased from the restaurant.
 - b) **Drive Thru Sales:** Liquor stores within the City of Dickinson that have existing drive thru windows as of the date of this Resolution shall be allowed to sell of sealed cans or bottles of alcoholic beverages through existing drive thru windows.
2. **City Authorized to Implement by Further Resolution or Resolutions.** The City is hereby authorized to promulgate and issue one or more resolutions as may be necessary to implement and clarify the terms of this moratorium.
3. **Effect of Moratorium – Limitation of Enforcement.** This moratorium as to the enforcement of certain regulations or ordinances of the City shall be serve to instruct, order and limit the police officers and prosecutors of the City or any other law enforcement officers

Exhibit 1 - Dickinson

or agents to refrain from enforcing City Ordinances contrary to the terms hereof and to refrain from charging or citing persons, firms or other entities accordingly and, furthermore, said instruction, order and limitation in enforcement shall survive the termination of this moratorium, whether such termination occurs by lapse of time or by affirmative act.

4. **Effective Date and Term.** This moratorium shall take effect immediately upon the adoption hereof [the “Effective Date”] and shall run concurrently with the Governor’s Executive Order dated March 19, 2020 and terminate when the Executive Order terminates. The Board of City Commissioners reserve the right to terminate or extend this Resolution by resolution or motion.

Dated this 26th day of March, 2020.

Fargo City Commission Temporarily Approves To-Go, Delivery & Curbside Beer & Wine Sale During Restaurant Sit-Down Closures

03/23/2020

The Fargo City Commission has approved the curbside, to-go sale and delivery of alcohol within Fargo city limits for a period of 30 days beginning Monday, March 23. Proof of age and open container laws are not affected by the temporary policy change and businesses will remain held to a high standard of conduct pertaining responsible service.

Fargo Commissioner Tony Grindberg, the proposer of the temporary policy change, stated “We must support our community’s small businesses, while respecting the advice of health professionals and doing our part to flatten the curve of COVID-19 infections. It is crucial we find creative and responsible methods of bolstering our local economy. The North Dakota Hospitality Association fully supports this temporary policy and continued efforts in support of our small businesses.”

“I have received many calls from the public expressing how important a topic this is to them. A lot of people are looking for ways to help small businesses and allowing curbside and delivery sales of liquor is one way of doing that,” said Fargo City Auditor Steve Sprague.

Exhibit 3 - Grand Forks

**MAYOR MICHAEL R. BROWN
GRAND FORKS, NORTH DAKOTA**

EMERGENCY ORDER 2020-12

Pursuant to the Declaration of Public Health Emergency dated March 16, 2020 and the authority set forth in Grand Forks City Code Section 2-0301, I, Michael R. Brown, Mayor of the City of Grand Forks, North Dakota, hereby order as follows:

1. The provisions of Grand Forks City Code Section 21-0205 relating to licenses for Class 1 (General On- and Off-Sale Alcoholic Beverages) and Class 4 (Food and Beverage Establishment) are hereby temporarily modified as provided in this Order.
2. The provisions of Grand Forks City Code Section 21-0224 relating to the prohibition of the delivery of alcoholic beverages are hereby temporarily modified as provided in this Order.
3. Class 1 (General On- and Off-Sale Alcoholic Beverage) license holders and Class 4 (Food and Beverage Establishment) license holders may sell alcoholic beverages in the form of mixed drinks or cocktails in sealed bottles or cans to those customers purchasing prepared food or meals at the licensed establishment on a takeout, curbside delivery, or delivery basis as provided in this Order.
4. For purposes of this Order, the definition of the term "on sale" as defined in Chapter XXI, Article 2 of the Grand Forks City Code shall include the sale of mixed drinks or cocktails in sealed bottles or cans when sold with food or meals prepared and sold by the license holder on site and served through the means of "takeout", "curbside delivery" or "delivery". Mixed drinks or cocktails sold in this manner shall be deemed to have been consumed on the licensed premises.
5. The sale of mixed drinks or cocktails under this Order is expressly limited to those customers purchasing prepared food or meals from the licensed establishment.
6. Only employees of the licensed establishment having completed server training may make delivery of any alcoholic beverages authorized under this Order or Emergency Order 2020-8.
7. No third party delivery services or agents are allowed to make delivery of alcoholic beverages authorized under this Order or Emergency Order 2020-8.
8. Individuals making orders for the delivery of alcoholic beverages in the form of mixed drinks or cocktails with prepared food or meals must be over the age of 21.

Exhibit 3 - Grand Forks

9. Delivery of sealed bottles or cans of alcoholic beverages in the form of mixed drinks or cocktails under this Order may only be made by an individual over the age of 21.
10. Sealed bottles or cans of alcoholic beverages in the form of mixed drinks or cocktails under this Order may only be delivered to an individual over the age of 21.
11. Delivery of sealed bottles or cans of alcoholic beverages in the form of mixed drinks or cocktails under this Order may occur only between the hours of 11:00 a.m. and 11:00 p.m. daily.
12. As utilized in this Order, the terms "sealed bottles or cans" mean a reusable or single use container or vessel, including what is commonly known as a growler, provided that such container shall not be larger in capacity than 64 US fluid ounces. Such container or vessel shall be corked or sealed by the licensed retailer at the point of sale.
13. This Order does not waive the application of any prohibition under state or local laws regarding open containers.
14. This Order does not waive the application of any prohibition under state or local laws regarding consumption in public parks, public streets or alleys, or other public rights-of-way.
15. The following quantity limits are hereby imposed upon the sale of all alcoholic beverages including wine, beer, spirits or liquors:
 - No more than 144 U.S. fluid oz. of beer shall be sold to any single person or in any single transaction.
 - No more than 1.5 liters of wine shall be sold to any single person or in any single transaction.
 - No more than 64 oz. of any mixed drink or cocktail may be sold to any one person or in any one transaction for takeout, curbside delivery, or delivery.
 - No more than one (1) liter of spirits or liquor may be sold to any one person or in one transaction.
16. Businesses offering food and alcoholic beverages under this Emergency Order or Emergency Orders 2020-6 and 2020-8 using takeout or curbside delivery shall use precaution in doing so to mitigate the potential transmission of COVID-19 including social distancing. In offering food and alcoholic beverages subject to this Order, a license holder may permit up to five (5) members of the public at one time in the licensed premises for the purposes of picking up food and alcoholic beverages ordered through takeout or curbside delivery so long as those individuals are at least six (6) feet apart from one another while on the licensed premises.

Exhibit 3 - Grand Forks

17. All other requirements of Chapter XXI, Article 2 relating to the licensing and sale of alcoholic beverages remain in full force and effect.
18. All terms, provisions and conditions of Emergency Order 2020-6 and/or Emergency Order 2020-8 not amended or modified by the provisions of this Emergency Order shall remain in full force and effect.
19. If any provision of this Order conflict with any of the provisions, terms, and/or conditions of Emergency Order 2020-6 and/or Emergency Order 2020-8, the terms, provisions and conditions of this Emergency Order shall govern.

If any provision of this Order or the application thereof to any person or circumstance is held to be invalid by a court of competent jurisdiction, the remainder of the Order, including the application of such part or provision to other persons or circumstances should not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

This Order shall be effective upon its issuance and continue until modified, suspended or revoked by further order.

Date: 4/3/2020

MICHAEL R. BROWN, Mayor

Exhibit 4 - Mandan

RESOLUTION

WHEREAS, the City Commission of the City of Mandan has adopted Mandan Code of Ordinances, Article 4-2 pertaining to the retail sale of alcoholic beverages; and

WHEREAS, the City Commission of the City of Mandan hereby adopts the following policy pursuant to said Ordinance:

WHEREAS, the Mayor has declared a state of emergency as a result of the COVID-19 pandemic, by order and proclamation of March _____, 2020; and,

WHEREAS, the Governor of the state of North Dakota, declared, by executive order of March 19, 2020, that “effective at 12:00 p.m., Friday, March 20th, all restaurants, bars, breweries, cafes and similar on-site dining establishments are closed to on-sale/on-site patrons; take-out, delivery, curbside, drive-through or off-sale services may continue; this requirement will continue through Monday, April 6, 2020, which Order was thereafter extended to April 30; and,

WHEREAS, the City’s “state of emergency” ordinance authorizes the Mayor and City Commission to, among other things, “. . . prohibit or limit the movement of persons or hours of operation of businesses, by curfew or otherwise, within the designated disaster or emergency area, and the occupancy of premises therein” and to “. . . limit or prohibit the sale, dispensing or transportation of alcoholic beverages . . .” ; and,

WHEREAS, North Dakota cities are authorized to enact or adopt all such ordinances, resolutions, and regulations, not repugnant to the constitution and laws of this state, as may be proper and necessary to carry into effect the powers granted to such [cities] . . . as the general welfare of the municipality may require . . . “including the power” [t]o regulate the use and sale of alcoholic beverages . . . [N.D.C.C. §40-04-01 subd.1 and 29]; and,

WHEREAS, it is hereby found and declared that the health, safety and welfare of the City and its occupants will be benefited by providing appropriate means for the delivery of meals, including beverages, to individuals and families that fosters appropriate social distancing for the curbing of the COVID-19 pandemic;

NOW, THEREFORE, BE IT HEREBY RESOLVED:

1. **MORATORIUM ESTABLISHED.** A moratorium is hereby established as to the enforcement within the jurisdictional limits of the City of Mandan of Section 4-2-4(7)(b) of the Mandan Code of Ordinances, as follows:

- a) **On-sales.** As to licensed restaurants within the city of Mandan that are also licensed for on-sale serving of alcoholic beverages, the sale of sealed cans or bottles of alcoholic beverages to customers taking delivery of prepared food or meals from the restaurant on a “take-out”, “curbside delivery”, “drive-through” or delivery by agents

Exhibit 4 - Mandan

or employees of said restaurant or by other lawful means of delivery shall be deemed to be “on-sale” service or sale of such beverages.

- i) For purposes of this moratorium, the definition of the term “on-sale”, as set forth in Section 4-2-4(7)(b) of the Mandan Municipal Code, limited the “. . . sale of alcoholic beverages for consumption only on the licensed premises” shall be enforced such that sealed cans or bottles of alcoholic beverages along with such food or meals sold by the restaurant and served or delivered by means of such “take-out”, “curbside delivery”, “drive-through” or such lawful means are hereby deemed to have been consumed on the licensed premises so long as said beverages are accompanied by food purchased from the restaurant.

2. **Mayor Authorized to Implement by Further Order or Orders.** The Mayor of the City is hereby authorized to promulgate and issue one or more executive orders as may be necessary to implement and clarify the terms of this moratorium, under the authority of Mandan Code of Ordinances Section 8-1-7 and hereof, which executive orders may be further ratified or amended by the board of city commissioners as may be necessary or appropriate.

3. **Effect of Moratorium – Limitation of Enforcement.** This moratorium as to the enforcement of certain regulations or ordinances of the City shall serve to instruct, order and limit the police officers and prosecutors of the City or any other law enforcement officers or agents to refrain from enforcing City ordinances contrary to the terms hereof and to refrain from charging or citing persons, firms or other entities accordingly and, furthermore, said instruction, order and limitation in enforcement shall survive the termination of this moratorium, whether such termination occurs by lapse of time or by affirmative act.

4. **Effective Date and Term.** This moratorium shall take effect immediately upon the adoption hereof [the “Effective Date”] and shall extend until the _____ day of April, 2020, unless it is otherwise terminated or extended by resolution or motion of the board of city commissioners of the City of Mandan.

Resolution approved the _____ day of April, 2020.

Tim Helbling, Mayor

Liquor license changes during COVID-19 for major North Dakota cities—all clarify that it must comply with selling and delivering by appropriate age individuals and open container (must not have a seal broken or contents partially emptied in the vehicle).

1. Dickinson-Moratorium on enforcement to allow licensed restaurant to sell sealed cans or bottles of alcoholic beverages if customers are taking delivery of food and liquor stores that have existing drive thru windows can sell sealed cans or bottles of alcohol. See Exhibit 1.
2. Fargo- Moratorium on enforcement to change the definition of on-sale to include the curbside, to-go sale and delivery of alcohol within Fargo city limits for a period of 30 days beginning Monday, March 23. See Exhibit 2.
3. Grand Forks- Emergency Order that temporarily modifies Class 4 Food and Beverage Establishment On Sale Alcoholic Beverage License. Class 1, 3, 4 and 16 license holders shall be allowed to deliver sealed bottles or cans of wine or beer to those customers purchasing prepared food or meals from the licensed establishment for delivery. Delivery of sealed bottles or cans of wine and beer under this Order may occur only between the hours of 11:00 a.m. and 11:00 p.m. daily. See Exhibit 3.
4. Mandan-Moratorium on enforcement to allow sale of sealed cans or bottles of alcoholic beverages with delivery of prepared foods/meals. See Exhibit 4.
5. Minot-. Offering the ability to temporarily amend license to allow retail sales of beer or beer & wine. See Exhibit 5.
6. Williston-Nothing official yet.

Here is a summary of the city liquor license laws from the November 2018 Commission meeting (I have not verified if they are updated):

1. Dickinson—on/off-sale licenses-17 and no additional until another 3,000 people above 21,000 “may be determined in the sole discretion of the City Commission from time to time, based upon annexations, household units, census projections, census results, or other methods of estimated population. If additional licenses have been granted because of an increase in population, said licenses will be eliminated when the population falls below the population level that authorized the additional license. In addition, if the population of the city falls below twenty-one thousand, one on/off-sale license shall be eliminated from the number authorized under this section. However, said licenses shall not be eliminated until such time as a license is vacated.”
2. Fargo-Class AB (general on and off-sale--22); Class A (on-sale only-10); Class B (off-sale only-12); Class C (beer only on-sale-10); Class D (beer only off-sale-2).
3. Grand Forks-Class 1 (general on and off-sale-no limit cost is \$69,160); Class 2 (off-sale all-no limit cost is \$42,560); Class 3 (off and on-sale wine and beer-no limit cost is \$5,320)
4. Mandan—Class A (general retail-no limit and have 16 cost is \$3,900); Class D (off-sale all-no limit and have 3 cost is \$3,900), D-1 (off-sale beer and wine-no limit and have 8 cost is \$780)
5. Minot-Class 1 (retail beer-no limit); Class 2 (full on and off-sale-“The total number of retail liquor licenses in force in any one (1) year shall not exceed one (1) for each one thousand five hundred (1,500) persons, or major fraction thereof, of the total population of the city. The city council may issue such additional licenses as it deems warranted by the change in population. Before the official 2020 United States Census, this population of the city shall be determined by the most recent official federal, regular, or special census. After the official 2020 United States Census, this population of the city shall be determined by the most recent official federal, regular, or special census or by the annual official United States Census Bureau population estimate.”); Class 3 (on-sale beer and wine-no limit).
6. Williston-Class 1 (on-sale beer—1 for every 2,000 people); Class 2 (on-sale liquor-1 for every 4,000 people); Class 3 (off-sale beer-1 for every 2000 people); Class 4 (off-sale liquor-1 for every 3000 people); Class 17 (on-sale beer and wine only-).

Considerations for opening delivery of off sale:

1. Choose which options are allowed:
 - a. Beer,
 - b. Wine,
 - c. Liquors, and/or
 - d. Mixed drinks
2. If a restaurant has a license for only beer or beer and wine, will they be allowed to sell more than the license they chose?
3. Is a food component a requirement? (For restaurants, this is a common definition: Food prepared onsite by at least an indoor grill). Or can Class D or E also deliver off sale?
4. Can it be delivered or just curbside? Commission can only allow delivery within the city of Bismarck, not ETA, not Lincoln or Mandan.
 - a. Can ubereats/Food Dude deliver or must it be staff from a licensed business?
 - b. Is there a limit to how much can be sold curbside or delivery to each person?
 - c. Is it 21 and up only can sell as the liquor stores require?
5. Can Class D and E also do curbside without the requirement for the payment to be inside the licensed premises? Right now they can do curbside or parking lot if paid for inside.

Verification of age still applies in all other cities.

Open container laws will still apply (a bottle or receptacle containing alcoholic beverages which has been opened, or the seal broken, or the contents of which have been partially removed). Some cities say in a growler or similar vessel with a seal on contents that cannot be partially removed.

April 8, 2020
Mayor Bakken
Bismarck City Commissioners

The Downtowners Association Board of Directors unanimously approved a motion of support for the City of Bismarck to temporarily allow off-sale beer, wine and spirits while the Governor's on-sale closure is in effect. Similar resolutions have been adopted in Grand Forks, Minot, Fargo, Dickinson and yesterday Mandan. Our board urges your speedy support for this temporary allowance.

Benefits:

- Allows businesses to bring back staff under the Paycheck Protection Program
- Allow sale of already purchased perishable alcohol items for bars without food or off-sale abilities
- Allow off-sale beer, wine, and spirits with a prepared food purchase for already licensed restaurants
- Benefits for secondary businesses selling containers and product

Restrictions & Process:

- Whether through curbside pick-up or delivery, a transaction including alcohol has to be made by an employee of the business trained to check IDs (not a 3rd party service)
- All alcohol delivery and curbside pickup containers should be sealed after being filled
- This would be a temporary measure only while the Governor's on-sale restrictions are in effect
- This should allow most license types some relief while the Governor's on-sale restrictions are in place
- Details on maximum number of ounces by license types vary, 64oz being a standard growler container.

It's critical for our members that the City of Bismarck adopt this temporary measure to assist businesses in this challenging time. With the above allowances, almost all license types are afforded some relief. Thank you for your consideration,

Kate Herzog, COO

Whitnie, I am not really sure if this would help, it may or may not. as of today our busyness is virtually at a standstill, temporary delivery would put another tool in our tool box. These are uncertain and uncharted times for me as a winery for 15 years. I am willing to try anything that is permissible!

Thank you for your concern.

Subject: Attention Liquor License Holders

Dear liquor license holder:

There have been requests from restaurant license holders in Bismarck to sell off-sale beer, wine and liquor. Fargo has not changed their law but they are not enforcing some of the liquor license ordinances for 30 days. In Bismarck, Class D and E licenses along with microbrewery and winery licenses can continue selling off-sale as well as limited delivery under the current ordinance in Bismarck under Governor Burgum's restriction for on-site dining.

Please provide your response to these issues in an email directly to Whitnie at wolsen@bismarcknd.gov, and we will compile them for the Commission. If possible, please provide your response no later than 8am CT Thursday, March 26th. We can forward the comments to the Commission for their direction.

Thank you,

Whitnie,

I'm wondering since we are shut down and have zero income coming in, if the city would consider us class D liquor holders the right to sell off sale to 18 and up?

Maybe we could cook and make pick up meals from our homes and sell them from our garages? (I'm sure all the local food places would love that)

Maybe us class D holders can do deliveries and sell alcohol from our homes so people don't have to drive so far?

SOUNDS ABSOLUTELY ABSURD CORRECT ?

I'm being passive aggressive and I apologize for that, but the law is the law...period! We all are hurting! I don't think it is fair to let just anyone sell off sale or for anyone to change a law

.

Where does a stop???

Subject: Growlers

Hello Jason,

Shawn Sanford is cc'd on this email. He is the beer and wine manager at The Walrus.

I just got off the phone with Steve Bakken. He told me he was going to call you and I said that I would also email you. He is most certainly seeking you for answers on how this could work. I am inquiring about loosening the restrictions on growlers. I see Fargo and Minot have done some sort of work to help these bars. I am not familiar with the particulars.

Jason, we have about 10,000 sitting in coolers of keg beer.

It would be such a relief to sell what we have in inventory.

Shawn is far more likely to be able to answer any questions you may have.

I wont speak for Steve but he didnt seem to hate the idea.

Thank you sir!

Subject: Restaurant "off sale"
Date: Tuesday, March 24, 2020 2:46:18 PM

Hi Whitnie,

We feel that following Fargo's suit makes sense for Bismarck. By allowing our customers to also purchase unopened beer and wine from us we can prevent them from making a secondary stop, thereby reducing the number of people they come into contact with. The boost to sales speaks for itself, which would also allow us to generate more revenue as business reduces dramatically.

Best regards,
Kenny Howard

Hi Whitnie

I think following suit similarly to Fargo makes sense. Any extra sales right now for any of the restaurants is needed. For our store in Fargo it allows us to do some package specials, burger basket & a beer or box of burgers and a 6 pak, for example. Easy for us to do and convenient for the customers.

Thanks

Hi Whitnie,

Kobe's Japanese Steakhouse would like to see the possibility if we are qualified to sell off sale beer, wine and liquor? If so, is it for temporary under the current ordinance in Bismarck under Governor Burgum's restriction for on-site dining? or is it entirely up to us?

Please let me know if we could sell an off sale our beer, wine, sake and liquor during the on-site dining restriction.

Thank you!

Sincerely,

Kiky Rizky

From: [Mark Fetch](#)
To: [Whitnie Olsen](#)
Subject: Mark Fetch 2 Re: Attention Liquor License Holders
Date: Wednesday, March 25, 2020 11:17:12 PM

Whitnie,

In short, I am 100% against this. Here are a few of my reasons.

1. The Class D and E off sale business are open and fully stocked. It makes no sense to infringe on them when they are able to do business as usual.
2. If you allow this, class F licenses will continue doing this after the shutdown. Its proven and acknowledged there is no enforcement on them to follow the rules. (55/45 rule, dances and so on)
3. Not enforcing laws? Really? What other laws are the allowed to break? Can they now sell marijuana? Prescription Drugs?
4. Would you allow food trucks to park in front of these restaurants? I'm sure the food truck guys would like to break some of those rules.
5. We are all hurting, The city would be taking from a legally licensed business and giving to a non-licensed business. Horrible precedence.
6. In essence the city is telling me that I just paid them \$255,100 for something that I didn't need. Would the city refund that money?
7. The class D license is the most expensive to purchase and to renew. The city constantly tries to infringe on what they sold us. Why is this?

These are just a few of the reasons I have time to list. Dropping something on us like this in a time like this very concerning. Hopefully you can understand we are working very hard at this time trying to keep our employees paid and comforted that things will get better soon. Coming up with the proper response in such a short time is unrealistic.

Further more. I think requests like this need to be public. Who is requesting it. Which commissioners have indicated this is a good ideal. Why would any of this need to be anonymous? The lack of transparency with these issues is causing a great divide. It proved itself out just like when there were a "bunch" of people looking to purchase a new class D, one that we had to hurry up and get out there... only 1 bid!!!

Mark

I'm 100% against it. I think most off sale shops (including every gas station that sells beer) are open at this time. This is no time for the city to come in and under cut those trying their best to stay open. If its time to start changing laws, let Class D deliver and sell curb side. I have put some of my out of work bar employees (from both Main and Luckys) to work in the Liquor Store so they are able to keep an income. I would love to let them deliver and keep putting food on their tables. I can't state this strong enough. BAD IDEAL!!! Bad to even bring this up in these times. Why is every ideal the city comes up with have to do with infringing on Class D licenses?? YOU CHARGE US THE MOST and continually try to under cut us.

There are plenty of Laws I would like to not obey (not paying city taxes) . Allowing this is absolutely irresponsible for any city to allow. Does our city really think its a good ideal not to obey laws?

This will not be my only statement, but this is the best I can compose while trying to be polite after reading this email.

Good Evening Ms. Olsen,

Could you please forward this email along to the commission?

Members of the City Commission,

This email is in regards to the above-mentioned restaurants humbly requesting the temporary sale of alcohol using our pick-up and delivery services. We believe that sharing a warm meal with the ones you love can improve morale in these trying times. We desire to continue to serve our communities with the most complete dining experience we can provide. Combining food and beverages provides a great convenience to our guests. By allowing these privileges, you will be providing our restaurants and employees with additional resources to weather this emergency. In addition to benefiting the guest and employees, increasing our sales brings money back to the community and provides a higher revenue for the collecting agency.

Our restaurants take the responsibility that comes with serving alcohol very seriously. Upon approval, the person making the to-go sale or delivering the order will be 21 or older. Also, we will take the necessary steps to ensure that any alcohol sold for pick-up or delivery is handed off only to individuals that have been age verified as 21 or older.

This is an unprecedented situation and we thank you for your consideration in making these temporary modifications within your community. Please let me know if you have any questions.

Thank you,

Sarah C. Wood | Legal Specialist

The liquor licenses are what they are. They should not be messed with for a few weeks while we are having this “crisis”. It is not an emergency for somebody to be able to pick up wine and food from the same place.

Hello Miss Olsen

The Walrus Restaurant, going forward, would appreciate greatly to have the ability to temporarily sell off-sale until our inventory is depleted. For us it is a handful of sealed bottles but more importantly over 50 kegs that the ability to sell growlers would greatly help reduce our keg inventory. I would also suggest not setting a set time, but revisit this 30 days from passing and see where we and other businesses are at with their inventories. Thank you for your time and effort.

* temporary off-sale for those without D and E license

* growlers for those that need kegs depleted

*revisit in 30 days to reassess...not a set time.

Thanks

Shawn Sanford

Dear Miss Olsen

Thanks for the response. JL Beers does growlers and I'm quite sure(I certainly could be wrong) that they don't have an E lincense. I would place a bet on a F license for them. However my concern is that as manager of The Walrus Restaurant here in Bismarck, Governor Burgums executive order to close all dining room leaving us to curbside and delivery only. This order excludes out beer sales and draft in particular. I have quite a few thousand dollars worth of inventory that I would like to sell off. Growlers would help do that for us. We are only looking to sell down inventory. Once gone...I'm good. My question then is, the city council would probably need to make that temporary inclusion. Do you know who has that portfolio? And when do they meet next. Thanks Miss Olsen.

Dear Jason Tomanek,

We are voicing our support of the motion to approve the off-sale allowance for restaurants. We believe that it will help us generate more revenue to allow us to operate and reopen with our full staff to continue to enrich our downtown community. It will also help prevent product loss and waste of perishable products, and keep stimulating the economy all the way back up the supply chain to the producers; who are facing the same challenges we are with retaining staff. We believe the best route is to require a prepared food purchase, for the aforementioned reasons. Compliance with existing ID check laws and safety measures will be strictly enforced by staff. We appreciate the consideration of the council, and hope that our community continues to thrive when we return to normal.

Regards,
Kenny and Kendra Howard

Subject: Support for temporary off-sale

Jason,

It has been brought to our attention that the City of Bismarck is considering allowing off-sale beer, wine and spirits while the Governor's on-sale closure is in effect. My wife Cheryl and I own Pirogue Grille in downtown Bismarck and would like to encourage the passage of such a measure.

Presently, Pirogue Grille is operating for take-out. The ability to offer temporary off-sale would be helpful to those businesses such as ours by increasing our sales. In addition, it will increase the number of staff members needed on a weekly basis. This is a challenging time for all of us. With the passage of temporary off-sale, it can provide some needed relief.

Thank you for your consideration. Best of luck,

Stuart & Cheryl Tracy

April 13, 2020

Mayor Bakken
Bismarck City Commissioners

The Bismarck-Mandan Convention & Visitors Bureau supports the temporary resolution to allow off-sale beer, wine, and spirits through curbside pick-up. This temporary allowance would allow businesses to increase sales and provide income for these struggling businesses while still following the Governor's on-sale restrictions. Increased sales would also allow them to bring back some employees to assist with these additional transactions.

The City of Bismarck is going to experience a dramatic decrease in tax collections during this time. These additional sales would increase the tax collections for the City of Bismarck.

Similar resolutions have been adopted in Mandan, Fargo, Grand Forks, Minot, and Dickinson. With the proper restrictions and processes this could be successful in Bismarck, too.

Thank you for your work during these difficult times and thank you for your consideration of this resolution.

Sincerely,

Sheri J. Grossman, CDME
CEO/Executive Director

4/13/2020

Mayor Bakken
Bismarck City Commissioners

CTB's Board of Directors unanimously approved a motion of support for the City of Bismarck to temporarily allow off-sale beer, wine and spirits while the Governor's on-sale closure is in effect. Similar resolutions have been adopted in Grand Forks, Minot, Fargo, Dickinson and yesterday Mandan. Our board urges your speedy support for this temporary allowance.

Benefits:

- Allows businesses to bring back staff under the Paycheck Protection Program
- Allow sale of already purchased perishable alcohol items for bars without food or off-sale abilities
- Allow off-sale beer, wine, and spirits with a prepared food purchase for already licensed restaurants
- Benefits for secondary businesses selling containers and product

Restrictions & Process:

- Whether through curbside pick-up or delivery, a transaction including alcohol must be made by an employee of the business trained to check IDs (not a 3rd party service)
- All alcohol delivery and curbside pickup containers should be sealed after being filled
- This would be a temporary measure only while the Governor's on-sale restrictions are in effect
- This should allow most license types some relief while the Governor's on-sale restrictions are in place
- Details on maximum number of ounces by license types vary, 64oz being a standard growler container.

It's critical for our members that the City of Bismarck adopt this temporary measure to assist businesses in this challenging time. With the above allowances, almost all license types are afforded some relief.

Thank you for your consideration,

A handwritten signature in black ink that reads "Christy Dodd". The signature is written in a cursive, flowing style.

Christy Dodd

Re: Alcohol deliveries during the Corona Virus situation

Mr. Mayor and Mr. and Ms. Commissioners:

As we have seen through the past two years there has been what equates to a constant devaluation of the Class D Liquor License that seems to go on without regard to the value that was placed in the license at the time of its purchase by Williquors from the City of Bismarck. What we have now is another attempt to devalue the Class D Liquor License again. Here is our objection to the possibility of off-sale alcohol and alcohol deliveries from any other class of liquor licenses.

- Williquors paid \$377,000 for its Class D Liquor License in 2013.
- Other operating Class D Licensed companies paid the same or more.
- If you as the commission allow this now, it is the “Rabbit Hole” that once we enter it do we ever return. How will the next crisis be defined and handled?
- The “pandemic” of the Coronavirus may end soon. Governor Burgum may re-open businesses at any time.
- There is no change in the availability of alcohol other than bars and restaurants.
- This is simply a temporary circumstance and will end. But the opening of this will for sure become a circumstance that will become the new normal and expected.
- Who does the deliveries?
- Who checks ID’s?
- How old does the driver have to be?
- If it is delivered to an underage recipient, does the delivering Liquor License holder lose their Liquor License?
- Is the City of Bismarck really okay, if only temporary, the transport of “Open Container”?

Williquors is an absolute NO on this option. This is a temporary crisis and will pass.

Sincerely,

William J. Klein
President – Williquors, Inc.

ITEM: COVID-19 risk mitigation efforts

REQUEST

Receive update regarding efforts and successes for mitigation strategies due to COVID-19.

Please place this item on the 4/14/2020 City Commission consent meeting agenda.

BACKGROUND INFORMATION

As the City has adapted and overcome the challenges presented by COVID-19, we wanted to inform the Commission of some of those stories.

First, our personal protection equipment (PPE) plan for Fire, Police and Public Health is working. The Fire Department responded to an individual with heart attack symptoms. As they arrived on scene, firefighters arrived on scene and found the driver having a difficult time breathing and talking and he then went unconscious. Firefighters then had to enter the vehicle and manually lift him out of the truck down onto a cot. The driver was lifted on top of and into the arms of a firefighter, who was wearing PPE. The driver was later determined to be positive for COVID-19. Tests show that our staff were safe but still able to provide life saving measures for this individual.

CenComm Director Mike Dannenfelzer has been active, along with all the Bismarck EOC, in requesting that the State provide COVID-19 positive and quarantine information. Gary Stockert made a formal request for assistance through the WebEOC system with the State which took several days for the State to process, while Mayor Bakken asked the status on a League of Cities conference call with the Governor and various staff responded to calls from the State on that request. Our leadership helped to open that valuable information to all public safety answering points in the state to help public safety in responding to emergencies.

The Police Department, Streets and Solid Waste Department and Utilities have deployed multiple strategies to protect their shifts from being decimated if someone is positive for COVID-19. These can include the PPE worn by the police because there are instances where they cannot social distance or changing some operations with one person in a vehicle for Streets and Solid Waste, as well as separating shifts. When the police need to separate a shift into a separate building, Public Works, along with staff from the Event Center, mobilized to sanitize new office areas and provide the safest environment for our first responders.

Finally, Engineering has been leading the effort to have our public bids on Microsoft Teams meetings. We have successfully done so, with multiple parties attending remotely while just staff from Engineering and the Attorney offices are present. This has saved exposures for our staff, as well as those bidders to stay in their remote locations but hear and see the bid opening live.

RECOMMENDED CITY COMMISSION ACTION

Receive update regarding efforts and successes for mitigation strategies due to COVID-19.
