

CITY OF BISMARCK DAILY BULLETIN

April 16, 2020

Bismarck-Burleigh Public Health (BBPH) Update

- **North Dakota’s peak for positive cases is likely still ahead of us.**
- **Current Restrictions Extended for 10 More Days**
Ranae Moch, Bismarck-Burleigh Public Health Director, shared that Governor Burgum extended the current restrictions by 10 more days. The executive order originally established restrictions through April 20th and will now be extended through April 30th. This includes onsite dining, recreational facilities, gyms, salons and other personal care facilities. This extension is consistent with the 30 days to slow the spread guidelines from the White House Coronavirus Task Force.
- **ND Smart Restart Plan**
Governor Burgum announced Wednesday that the state will be focusing on a step by step plan for reopening North Dakota (ND Smart Restart Plan).

STEP-BY-STEP: PLAN FOR REOPENING

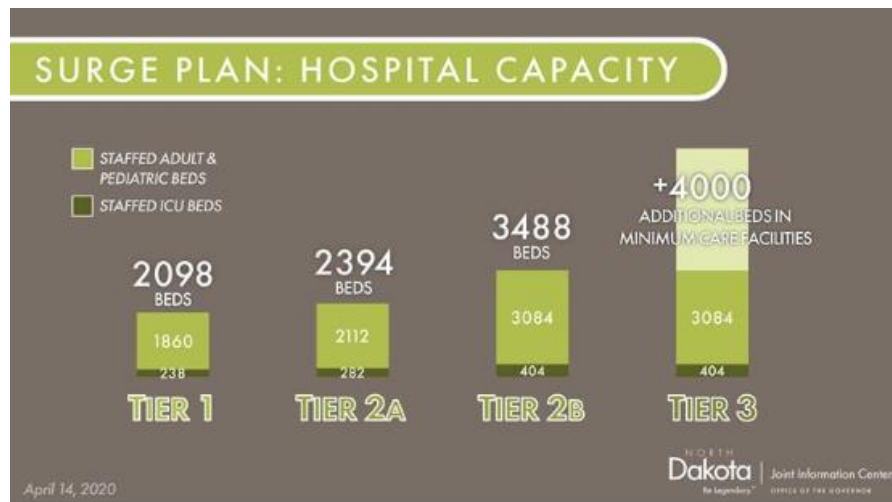

- **GOAL:** Create a multi-stage approach to rebuild economic activity that protects lives and restores livelihoods.
- **What we’ll need:**
 - Widespread rapid testing
 - Robust contact tracing
 - Targeted, effective containment
 - Protections for most vulnerable
 - Sufficient health care capacity
 - Ample PPE availability
 - New standard operating procedures for businesses
 - Prepared for second surge

NORTH Dakota | Joint Information Center
Be Legendary.™ OFFICE OF THE GOVERNOR

- Start working on new standard operation procedures to develop a “new normal” for your business implementing prevention measures to mitigate COVID-19. The City of Bismarck has been proactive in implementing operational measures and establishing “new normal” preventive measures such as monitoring temps, keeping employees 6 ft. apart, frequently disinfecting surfaces, etc. and will continue to mitigate COVID-19 as we move through our response efforts.

- Hospital Surge Plan**

Using less than 1% of total hospital beds at this time, the state is well prepared in the event of an extreme surge. 200-bed facilities have been set up in Fargo (Fargo Dome) and in Bismarck (University of Mary). These facilities are ready for use if a surge occurs. Six additional facilities would be set up if necessary, located in Devils Lake, Dickinson, Williston, Minot, Grand Forks, and Jamestown. Most staffing for these facilities

would come from volunteers. [Find the details here.](#)

COVID-19 Case Reports, North Dakota Department of Health

As of April 16, Burleigh County still has the second highest number of positive cases. There are now 393 positive COVID-19 cases in the state of North Dakota. **Two new cases in Burleigh County were reported, raising the total number of positive cases to 54 in Burleigh County.** Currently, 14 individuals are hospitalized throughout the state. The first, positive, pregnant case in North Dakota was confirmed April 2, 2020. [\(CDC Guidance for Pregnant Women\)](#) There have been 9 deaths in the state related to COVID-19.

COVID-19 Recommendations

There is still a need to emphasize the importance of social distancing as recommended by the Centers for Disease Control. Everyone has an individual responsibility for the health and safety of our community during this COVID-19 pandemic.

[Learn more about social distancing and how to protect yourself](#)

The [CDC recommends](#) wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), **especially** in areas of significant community-based transmission. CDC also advises the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others. Face coverings should not be N-95 or medical grade masks. Face coverings can be surgical masks or masks made at home from a scarf or bandanna.

COVID-19 CONTACT TRACING

Source: World Health Organization

Contact Tracing

Bismarck-Burleigh Public Health (BBPH) continues to assist the state with contact tracing for individuals identified as positive for COVID-19. Individuals identified as close contacts of someone testing positive with COVID-19 will receive a phone call from the North Dakota Department of Health or the local public health department. You will then be provided with the appropriate steps to take next. Additionally, if a school or daycare is involved, letters will be sent to all parents. [See more information](#)

Have you or someone you know been exposed to COVID-19 through close contact and you want to know what that means for you? Follow the flowchart to the left and the link above to find out what to expect.
