

# FREE TRAININGS!

Offered by Bismarck Burleigh Public Health Substance Abuse Prevention Program

## Narcan Training

Bismarck Burleigh Public Health provides training to recognize the symptoms of an opioid overdose and administration of Narcan nasal spray. This training is available to schools and organizations at no cost.

## Medication Deactivation Bags

Bismarck Burleigh Public Health also has medication deactivation bags available to safely dispose of unused medications in your home.

## Hidden in Plain Sight Presentation

Hidden in Plain Sight presentation for staff and parents: This is an initiative event to help parents and staff spot signs of risky behavior. The focus is on being able to recognize signs of substance use and being aware of the locations. This is a free, interactive 360-degree display of a teenager's bedroom and car. It contains items signaling that a young person might be involved in risky activities. Parents can learn how to spot the warning signs, how to prevention easy access to alcohol and other drugs, what to do when you find a substance and get tips for communicating with your teens. These images are 360-degree view, use your mouse to look at other areas of the room or the backseat of the car.

**Public Health**  
Prevent. Promote. Protect.
